US Chopper Kills Seven Iraqi Children

Baghdad, May 8 (Prensa Latina) A US helicopter gunship attacked a public school in Diyala Province, killing seven children and wounding another three, police said.

No reason has been given for the attack on the Al Saada Elementary School and the US Army has made no comment.

At least 600,000 Iraqis have been killed since the US invasion and occupation started in 2001.

A US military detachment was ambushed by resistance forces in the same area of the province two days ago, with six US servicemen killed after their vehicle hit a homemade bomb.

These deaths brought the number of US soldiers killed in this Arab nation to 3,378 since 2003.

Meanwhile, the Pentagon announced sending an additional 10 active combat brigades, 35,000 troops, between August and December this year.
