White House RICO organized criminal racketeering is dismantling America. Part 1 of 2

Mark Lowry

March 25, 2007

Bush and the White House are in the largest criminal enterprise in history of the world.

Texas 5 Border Patrol Agent Gary Brugman, was the 1st case of seditious organized criminal conspiracy to prosecute innocent lawmen for illegal gain based on alleged criminal civil rights violations of criminal illegal alien invaders, drug and human traffickers.

Attorney General Alberto Gonzales: testified habeas corpus -- the right to go to federal court and challenge one's imprisonment -- is not protected by the Constitution.

America is being dismantled piece by piece by an organized criminal syndicate that has taken over the Presidency and most of Congress. The new Mafia is the Bushite Coup and their Co-Conspirators. Their primary target in the attack to defeat America is to destroy rule of law so they can implement any illegal activity they wish up to and including dissolution of the United States as a nation state.

The latest victim of the Bushite Coup criminal organization designed to provide illegal profits to organized crime co conspirators violating American law is Deputy Gilmer Hernandez. He was illegally prosecuted by the Bushite Coup and convicted on March 19, 2007. During his trial illegal alien convicts testified the Mexican Consulate helped them in the illegal alien invasion scheme by providing names of criminal organizations that were reaping profits from this illegal activity by providing them jobs.

United States law enforcement officers routinely engage in gun battles with Mexican authorities who are aiding and abetting organized criminal operations along the border, while the Mexican Consulate acts as a fifth column in the United States to help the Bushite Coup promote take over of American Sovereignty with population politics.

International law establishes: "The United

States as a sovereign, independent state is affected by legal principles contained in fundamental legal constructs. For its foreign policy to function the United States must be diplomatically recognized by other governments. The United States has the rights, inter alia, to recognize other states and to secure its national territorial integrity, sovereignty, and independence, by forcible self-defense if necessary."

The Vienna Convention on Consular Relations provides for consulate offices to aid nationals of their country as long as they don't interfere in the internal affairs of the host country. Consular agent illegal acts, in violation of the host country's laws, are not considered a part of consular responsibilities. Lobbying host legislative bodies is not a defined consular function. Those acts are considered hostile and grounds for removal of the consulate office and declaration of a state of war under international law.

Article 5 Consular Functions includes in subsection m. (m) performing any other functions entrusted to a consular post by the sending State which are not prohibited by the laws and regulations of the receiving State or to which no objection is taken by the receiving State or which are referred to in the international agreements in force between the sending State and the receiving State.

"...Article 55 Respect for the laws and regulations of the receiving State

1. Without prejudice to their privileges and immunities, it is the duty of all persons enjoying such privileges and immunities to respect the laws and regulations of the receiving State. They also have a duty not to interfere in the internal affairs of the State.

2. The consular premises shall not be used in any manner incompatible with the exercise of consular functions.

Casus Belli [Latin, Cause of war.] A term used in international law to describe an event or occurrence giving rise to or justifying war. Intentional direction of a foreign power to its citizens providing instructions on how to violate the national sovereignty of another nation, attacks by a foreign power where shots are fired against officers of the nation, invasion of another nation may all be events and occurrences giving rise to or justifying war. All have occurred between Mexico and the United States.

ACT OF WAR - Any act occurring in the course of declared war; armed conflict, whether or not war has been declared, between two or more nations; or armed conflict between military forces of any origin. 18 U.S.C.

The United States is engaged in a terrorist war. Mexico is permitting terrorist Hezbollah agents to cross our border in addition to seditious Mexican nationals who demand a return of Aztlan.

The Bushite Coup and criminal co-conspirators devised an organized criminal scheme to induce millions of illegal alien invaders to come to America; delay immigration law enforcement and then wait even longer and report it would be inhumane to require compliance with the 1996 and 1998 Immigration Laws because it would require deporting "good hard workers who did work Americans would not do." They wanted to provide cheap labor for criminal organizations who violate American law and profit from it.

In order to succeed in the lie they had to continue the plan to prevent law enforcement by American enforcement officers on both the borders and in the interior. The longer the delay, the more money could be made by criminal organizations that conspired to openly hire illegal alien invaders with the help of the US, state and local governments in collusion with the Mexican Consulate office, Chamber of Commerce and hordes of open borders advocates along with others including churches that provided a steady stream of illegal workers. The Bushite Coup was rewarded with millions in campaign contributions from the criminal organizations who made billions from their ill-gotten gains. President Bush takes the position that he can

interpret the laws and do as he chooses until the Supreme Court rules he is doing wrong.

John Elwood, Deputy Assistant Attorney General "The president has to comply with Federal Law only if the Supreme Court has ruled." (He can choose to not comply if he interprets the law differently than it is written until the Supreme Court Tells Him to Comply.)

It appears George W. is suggesting he could walk up and start shooting us at will unless the Supreme Court has ruled specifically against

presidential authority to kill at will.

The Federal Racketeer Influenced and Corrupt Organizations Act (RICO) originally used to prosecute organized crime, allows authorities to seize assets of businesses engaged in racketeering, the practice of using an organization to obtain money illegally or to intimidate people. Racketeering is a crime committed by setting up an "enterprise" or scheme to profit from the illegal activities of others.

It also lets victims of racketeering file civil lawsuits against perpetrators, and permits assets recovery from any ill-gotten gains by people seeking money illegally or engaged in other illegal acts. The RICO ACT appears to have common elements with the 1996 and 1998 amendments to the last "Comprehensive Immigration" legislation and both appear to be appropriate pieces of legislation for attacking the government organized criminal conspiracy to violate American Federal Law and constitutional provisions for the purpose of obtaining money and intimidating people.

Laws provide for criminal and civil forfeiture of property used in the crime or derived from the criminal activity. Civil forfeiture deals with property involved in a racketeering enterprise, independent of any criminal proceedings. It is not dependent upon the conviction of the property owner(s) and requires proof only by the preponderance of evidence before a judge -- not a jury.

CONGRESS CAN YOU SAY SPECIAL PROSECUTOR 100 TIMES? YOU MUST IF YOU WANT TO SAVE AMERICA FROM CIVIL WAR.

The Bushite Coup is above the law, a modern day Mafia, perfect example of a criminal organization or business engaged in racketeering, using an organization to obtain money and benefits illegally and intimidating police officers. Bushites violate rule of law and hide their illegal acts in a cloak of secrecy avoiding judicial proceedings against them at all costs. They will pay any price to gain power over their illegal enterprises.

George W. Bush-"What an impressive crowd: the haves, and the have-mores. Some people call you the elite. I call you my base. "

They respond only to criminal corporate bosses and illegal alien invader employers who are also obvious racketeering organizations. They live lives of lies and cover ups to protect their illegal enterprises.

Current law makers have been involved in one "comprehensive immigration legislative scheme" after another. All have the ultimate objective of eliminating American national sovereignty and American borders, creating a new entity under control and jurisdiction of international corporations. Each new bit of legislation has been planned to permit population politics whereby they allow excessive numbers of people into the country of different cultures and political persuasion to undermine nation states and their body politic. These tactics are as old as Rome and before.

Common elements of each prior scheme include measures for providing infinitely increased levels of workers at rates higher than any other nation in the world to compete for American jobs and reduce American wages Bushite Coup Co Conspirators report are too high.

- Alan Greenspan, former Federal Reserve Chairman: "Allowing more skilled (immigrant) workers into the country would bring down United States salaries of top earners, easing tensions over the mounting wage gap... If we open up a significant window for skilled (immigrant) workers that would suppress the skilled-wage level and end concentration of income."

This paradoxical statement comes on the heels of recognition by the same group of wealthy elite that control the Bushite Coup Co Conspirators that corporate profits have never been higher in the history of the country.

- WARREN BUFFET March-2007 "...corporate profits as a percentage of GDP at well over 8% are just about the highest in the history of the United States and return on tangible equity of major American corporations are also at about the highest in history. So if something is wrong with the system, it hasn't seeped through to the actual operating results of business... That cannot be regarded as a broken capitalistic system".

Record corporate profits are not an issue, nor are wages; the Bushite Coup Coconspirators need to destroy the American middle class to accomplish one world global government objectives. Eliminate the middle class and they eliminate any forceful resistance to their ultimate take over of the country. Reports that do not reflect that reality are propaganda and can not be believed no matter how hard you may want to.

- George W. Bush - 43rd US President Propaganda "See, in my line of work you got to keep repeating things over and over and over again for the truth to sink in, to kind of catapult the propaganda."—"

- Mark W Lowry "Inability to believe in the unbelievable, imagine the unimaginable, and comprehend the incomprehensible; impoverishes the human soul and condemns us to lesser lives of ignorance and slavery by evil people who distort human reality of perceptions, potentials and dreams to satisfy their greed and maintain control over us."

You must believe America is in great danger and about to be taken over by the Bushite Coup Coconspirators. The first step is Amnesty for illegal alien invaders and their criminal organization employers. You must fight this effort to end democracy and citizen rule.
