Dov Zakheim and the Missing Trillions.

What is the most outrageous piece of news that isn't being discussed? I would venture to say it is the strange tale of Dov Zakheim and the missing trillions. I hear all kinds of numbers. I

hear 2.3 trillion from Rumsfeld and I hear about one trillion that Zakheim can't explain. Still, you'll need to check the dates of Zakheim's days in the saddle as Pentagon Comptroller and then you can wonder to your hearts content. There's no doubt the money is gone and there's no doubt about who should know where it went but...what do I know? I know one trillion dollars is a lot of money. Isn't one trillion dollars a million million? Zounds!!!

Has the cost of the entire Iraqi incursion come to a trillion dollars yet? It certainly isn't anywhere near 2.3 trillion. Why isn't this under discussion? Is it just too big a thing, too enormous to comprehend, that our minds go blank when we think about it? Hmmm...

There are a number of researched sources for all of the details you need to get a grasp of the situation. I'm not going to go into that kind of detail here. It's been done better than I can manage at places like here

http://www.onlinejournal.com/artman/publish/article_1015.shtml and here

http://www.solari.com/learn/articles_missingmoney.htm this last link gives you many further links. You might want to read some of this before you continue here. And you should probably read this

The man at the center of this sub rosa controversy is Dov Zakheim. Here is what is said about him. He's a dual national Zionist and also a Rabbi. He's the co-author of this PNAC gem <http://www.newamericancentury.org/RebuildingAmericasDefenses.pdf> or, he isn't the co-author but he signed off on it and it was really written by Kristol and Kagan. I read different things and, having been burned once, I'm in no mood for putting anything out that isn't just as close to the truth as I can get. If you read the sources I have given and you extrapolate out to some degree you will find that Rabbi Zakheim is right there in the bed and under the covers snuggled up tight with all the other names that keep coming up. You'll also find an alarming amount of connections to 9/11. WTF?

Here are a few salient features that struck me. He resigned in March 2005 when it was discovered that a trillion dollars was missing <http://cleveland.indymedia.org/news/2005/01/14509.php>

On September 10th, 2001 (note this auspicious 'night before Christmas date) Rumsfeld announced that 2.3 trillion was missing. http://benfrank.net/patriots/news/national/pentagon_missing_trillions

Now wait a minute... doesn't this come to over 3 trillion dollars? Is Zakheim responsible for all of it or part of it? Is it a mere trillion for him and someone else lost the rest? I'm relying on you to square this away for me. This blog is interactive.

How can you not account for this amount of money in this day and age with computers?

Why has this, along with other news, (such as the WTC being near condemned status, prior to the attacks, because of billions in required refurbishments) with which we are familiar, disappeared from the landscape?

Most importantly, what was a dual nationality cat like Rabbi Zakheim doing in charge of the Pentagon's money supply? Forget that, what is Chertoff, another dual nationality cat doing in charge of Homeland Security?

<http://www.blacklistednews.com/view.asp?ID=3594> You might find a number of things in this article interesting, one of which is this, "Chertoff allowed scores of suspected Israeli terrorists

and spies to quietly return to Israel . In several cases, Israeli suspects working for phony moving companies, such as Urban Moving Systems from Weehawken, N.J., were caught driving moving vans which tested positive for explosives. On September 14, Dominic Suter, the owner of the moving company, which was found to be a Mossad front company, fled to Israel after FBI agents requested a second interview.

One group of 5 Israelis was seen on the roof of Urban Moving Systems videotaping and celebrating the destruction of the World Trade Center. These Israeli agents were returned to Israel on visa violations.

These Israeli suspects, and others, who had apparently transported explosives in the New York area, were allowed to return to Israel without being properly interrogated or their presence and activities in the United States having been vigorously investigated." (1)

Does it all sound like science fiction to you? Put "Chertoff dual nationality" into Google and see if you have enough time in your life to read the things you find.

Any time you start looking into the rabbit hole you run across the same names. There is this handful of people who constantly show up. Why are there continuous connections to Israel? As I have said before, I don't enjoy having to reach these conclusions. There is no more heavyweight subject than Israeli involvement in 9/11. There is nothing that causes more screeching and name calling, slander and opprobrium. But... every time you look and everywhere you look, the same names, the same connections, the same events pop to the surface of the lake like a dead body and smell as bad.

Now, either this is the most fantastic, most outrageous set of coincidences of which there is no parallel in human history or... there is something to it.

What are so many members of one of the smallest groups of people in the world doing in so many sensitive areas of the American government? How come they have so many irrefutable connections to one of the biggest events in American history? Honestly, I just want some answers. I don't know what to think and I don't like having to think about and speak about things that can make me a target of powerful interests that seem to be in control of a whole lot of bad shit.

Now, once again, either there is something to all of this or it is an unbelievable chain of coincidence that defies reason. What do we make of this?

This website

<http://www.thetruthseeker.co.uk/article.asp?ID=2775> had to remove it due to Zakheim's lawyers. There's a lot of information from several sources here

http://www.newsfollowup.com/flight77_32.htm ...I don't speak to the truth of the contents. I'd just appreciate it if you would READ, THINK, REFLECT and REASON. What I have placed before you is a small, small portion of what you can find which all speaks to the same thing. And speaking of outrageous coincidences, what is Zakheim doing as Corporate Vice President of System Planning Corporation? ...more freaking coincidences. I've got more coincidences than there are illegal immigrants.

Unfortunately for me, this has gone way past coincidence and the circumstantial. This is some unknown animal hiding in plain sight. I don't know what to call it. It can't be coincidence or circumstantial, there are enough grains of sand here to create your own beach. It blares at me through klaxons. It's screaming from rooftops. It's dancing with ten thousand Broadway revues surrounded by all the lights of Las Vegas. I have to conclude what I fear to conclude.

How do we come to empirical fact? We get there by repeating experiments, by observation and by weighing evidence to the point where doubt is removed from our conclusions. I'd really appreciate the readers weighing in with their thoughts and any further information they might have. If it walks like a duck and talks like a duck and looks like a duck and you see it mating with other ducks and producing more ducks; what do you think it might be?

That's it, that's all the evidence you have?

I always go back to that moment when O.J. Simpson spread his fingers as wide as he could when asked to try on the glove, and that stupid smirk that screamed "You're not going to let me get away with this, are you?"

No one puts on a glove with their fingers splayed anymore than they put on a shoe heels first, but he tried and everyone let him get away with it and the rest, as they say, is history.

Same-same with 9/11.

It's so outrageous, so over the top no one could possibly accept the mountains of dreck that pass for excuses and explanations and yet they do.

It's impossible to look at the evidence presented- as you say- and not come to the same conclusion you have, I hate that I find myself staring out over the same precipice, I wish I could undo the study I've done, but I can't and now I'm stuck with it.

Sucks to be us.

Whenever you find money that has disappeared, you'll find a joo staring back at you with a "what the fok you looking at"

face.

Its the story of this world.

They invented the money, it's theirs for all I care they should just die with all of it if it makes them happy.

What I would be really pissed off about is if they make MY WORLD glow in the dark.

That ! is inexcusable, and they will pay dearly for that, hell they haven't even repented for creating an Isle full of mutants (japan), YET.

Repent now , focking JOOs, for the end is coming to your little charade.

There are two (2) Big Picture reasons for what goes on in our world

(1) The devil is making us do it

(2) We are a pack of arseholes

My own deep down belief is (1)

But I'm probably wrong.
