- On Saturday, 7th of July, the Nationalsocialistisk front (NSF) in Sweden held a protest demonstration outside the German embassy in

Stockholm, demanding the release of historian and publicist Ernst Zündel.

Ernst Zündel is imprisoned in Germany where he's serving a 5-year sentence, which was also preceded by 4 years in custody while waiting for his trial. The crime committed justifying such a harsh punishment is Ernst Zündel having published books presenting new scientific evidence regarding certain events of the Second World War.

Despite bad weather and oppression from the police, the demonstration assembled just under 200 friends of free speech. By 2pm the procession of demonstrators began marching, lined up in columns with banners in the front, from the gathering point at Östermalmstorg towards the German embassy, with chorus shouting "FREE ZÜNDEL - MARTYR FOR THE TRUTH". Many curious pedestrians stopped along the route to watch the march.

When arriving outside the German embassy the police had sealed off the area with a fence and a large number of police were present. The standard-bearers lined up before the fence, while a public addressing system was set up, making sure no one in the vicinity would miss what was going on.

Three international representatives were present during the demonstration, from Denmark's National Socialist Movement (DNSB), Nordisches Hilfswerk, and Russian National Unity (RNU). Together with leaders from NSF they walked past the police fence, to deliver a written protest, demanding Ernst Zündel's release, to the German Embassy.

The first speaker to address the public was Daniel Höglund, from Nationalsocialistisk front (NSF). Daniel spoke of how the Swedish "hate speech" law is used only to silence the national opposition in Sweden and the many juridical outrages Ernst Zündel suffered from American, Canadian and German governments. He also spoke about how historical revisionism gains more and more influence despite the authorities witch-hunt on those who dare speak the truth. Next was the representative from DNSB, Torben Have, who described how a certain ethnical group always seems to stand above laws who apply to other ethnical groups. He also spoke about how this same ethnical minority controls an disproportionate part of the media in the western world.

The last speaker was, from Germany, Stephan Günther, from Nordisches Hilfswerk, an organization that's working to strengthen the bonds between German and Nordic nationalists. Günther spoke about the extremely difficult situation German nationalists are presented with, and described how the authorities through juridical terror and persecution are trying to silence the growing national opposition.

The demonstration marked the end of a campaign called "Free Speech is threatened" that NSF has held since three months back. During the campaign close to 400 000 leaflets has been spread all around Sweden and public meetings has been held, all to enlighten the masses of how the so called "free speech" applies in reality, and how the democratic government persecutes and imprisons nationalists who do not conform to the opinion approved by the state.

Zundel, True Martyr, Needs Christian Help
(Apollonian, 16 Jul 07)

MAGNIFICENT--this Zundel (see Zundel.org) demonstration is truly what the doctor ordered, but we need more, and this is most effectively enhanced by means of the Christian element/effect.

For there surely needs be more of these Zundel-inspired demos in order to seriously hope to free that saintly hero--but how often can such demos be had?--for this is a practical matter.

I know one thing: Christians can potentially demonstrate EVERY WEEK at whatever "Judeo-Christian" (JC--see Whitt.org and TruthTellers.org for expo/ref. on this crucial JC heresy) church for GREATER HONESTY--hence that necessary and essential anti-semitism.

For what is Christianity without anti-semitism?--answer: PUREST DIS-HONESTY--and it's why Christianity, esp. the Judaized version we get fm Roman Catholic institutions (I know whereof I speak, I assure u), for example, is so moribund, dull, and surely even DYING.

Thus we can and should well emulate ANSWP (see OverThrow.com and archives) for their great anti-semitic demo against JCs at Tulsa, Ok, last 16 Apr--but these kind of demos should be done, much as possible EVERY WEEK. And within these weekly demos we can also include posters/placards featuring pictures of Ernst Zundel too.

Another great idea for such demos would be Placards w. info on USS Liberty (see UssLiberty.org and WingTV.net) mass-murder by Israel in 1967. But perhaps we'll need to modulate these items, at first, due to "information overload" concern.

Regardless, fact is Zundel is stuck in prison, I fear, unless and until citizenry can do much more of this kind of mass public protest (which is thoroughly anti-semitic, u may be sure).

CONCLUSION: For Jews and Talmudism are a disease, socio-biologic (see KevinMacDonald.net), featuring murder beginning with murder of the truth (see Come-and-hear.com, RevisionistHistory.org, Whitt.org, etc. for Jew/Talmudic expo/ref.), which must be eradicated in order to free both (a) the lives of the Christian and gentile people, not to mention (b) literal martyrs for the truth like Ernst Zundel. Honest elections and death to the Fed. Apollonian
