[US Government does NOT want you to visit these 10 websites](#)

Saturday, June 30, 2007

The US State Department has officially blacklisted the 10 websites listed below as sources of disinformation.

1. Rense Program www.rense.com
2. Roads to Iraq www.roadstoiraq.com
3. Vialls Investigations* www.vialls.com
4. Aljazeera aljazeera.com
5. Conspiracy Planet www.conspiracyplanet.com
6. Jihad Unspun jihadunspun.com
7. International Action Center www.iacenter.org
8. Free Arab Voice www.freearabvoice.org
9. George W. Bush - Terrorist in the White House nogw.com
10. Islam Memo (in Arabic) www.islammemo.cc

*Vialls Investigations is no longer updated as the sites creator, Joe Vialls, died in 2005.

The State Department suggests the following criteria to tell if a story is true:

- Does the story fit the pattern of a conspiracy theory?
- Does the story fit the pattern of an "urban legend?"
- Does the story contain a shocking revelation about a highly controversial issue?
- Is the source trustworthy?
- What does further research tell you?

2 Responses:

Aljazeera.com is unrelated to the satellite TV channel Al Jazeera, which operates websites in both Arabic (www.aljazeera.net) and English english.aljazeera.net (i.e. Aljazeera TV sites are hosted at .NET not .COM). The people who own Aljazeera.com have no connections to aljazeera TV channel.

Have a look at <http://en.wikipedia.org/wiki/Aljazeera.com> for more infio
