Indian Group - Al Qaeda Is CIA-Mossad Front

The Mumbai based group alleged that Al-Qaeda is a front organization of CIA and MOSSAD. "There is enough evidence that the Al-Qaeda is a front organization of the CIA and MOSSAD. The Bush junta has used the bogey of terror and of Al Qaeda to justify his unending and ever expanding Global War on Terror, which is only a means of capturing the resources of the world and of establishing the sole hegemony of Israel in West Asia," said the group of activists and intellectuals. The group is holding a press conference in Mumbai on Wednesday to "expose the links between Al-Qaeda and the CIA-MOSSAD".

Holding American-Israeli operation accomplices of the 9/11 attack on the WTC, the spokesman of the group said that this has been widely written about in USA and Europe itself and more than 50% of the American people and far more Europeans, now believe and are convinced about this fact. He said that sections of the Indian ruling political and military elite are importing the same Bush-Olmert formula into India. "The increasing terror attacks only serve the cause of the Indian elite and divide the masses along communal lines. It is only the ordinary Indians who are the victims of terror either in temples, mosques, buses or trains," he said adding that practically no political leader suffers a similar fate, where the terrorists are apprehended and killed in "encounters".

"Every terror attack is meant to push and drag the Indian masses further into the waiting arms of Uncle Sam and the Israeli Goliath. Every terror attack spreads further hatred for Muslims and Islam and weakens the Indian Muslim community," he said.
