The Cold, Hard Facts about the Georgia-Russia War

Dr. David Duke

A little refugee from South Ossetia, victim to what has to be described as an ethnic cleansing operation and terror campaign by Georgian troops, advised by the Israeli military – who undoubtedly shared their experience of terrorizing the Palestinians over the years. This cold, hard fact is being blatantly ignored by the heavily Zionist influenced press in the US, who continue to paint Russia as the aggressor and the Georgians as the innocent victims. [INCOG]

“Russia has invaded a sovereign neighboring state and threatens a democratic government elected by its people. Such an action is unacceptable in the 21st century.” —President Bush Condemns Russia (AP August 10, 2008)

The usual suspects who control the media and politics of the United States are once more lying to the American people and to the world. Here are the facts that can be easily verified within the mainstream media, but are buried beneath the rhetoric of anti-Russianism. —Dr. David Duke

Here are the Cold Hard Facts:

1) Ossetia is a ninety percent Russian area. Georgia has made repeated efforts to ethnically cleanse the region. Russian peacekeeping troops have been in Ossetia for years and were approved in international agreements so as to protect the citizens of the region from attacks by the Georgian military.

2) Georgia, not Russia, started this war. Georgia invaded Ossetia trying to take control of the region and ethnically cleanse the Russian

population.

3) The Georgian Army, commanded by their Minister of Defense (who is also an Israeli citizen), launched a surprise invasion and attack that caused the deaths of at least a thousand people in its first 24 hours. This attack was committed while the attention of the world was on the Olympics.

4) In the wake of Georgia's military invasion and massacres, Russia responded by battling to protect the Ossetian people and fighting the Georgia military so it could not continue its invasion and assault. Thousands of Ossetian civilians became refugees from the Georgian assault.

5) Instead of reporting these cold, hard facts to the world, the Jewish-influenced media has been dishonestly reporting that the Zionist-allied Georgian state is a victim of "Russian aggression" and a "Russian invasion." Georgia invaded, bombed, and massacred the people of Ossetia to start this conflict. On the cable news networks for hours after the Georgian launched invasion and massacres in Ossetia, all Americans were permitted to see was the Georgia President and Jewish U.S. State Department officials screaming about how Georgia was "invaded" by Russia!

6) Instead of condemning Georgia from the outset for the invasion and massacre, Neocon controlled politicians such as George Bush are condemning Russia and attempting to move America and Europe toward a completely unjustified conflict with Russia.

Now I offer you six reasons why the heavily Jewish-influenced media and political establishment of America side with Georgia:

1) As Israeli newspapers freely report, Israel has long allied itself with Georgia, trained its troops, and supplied weapons to Georgia. Key figures in the Georgia government are Israeli citizens and partisans for Israel, including the "Georgian" who directly launched the war, Defense Minister Davit Kezerashvili. The major "Georgia" Spokesman is Temur Yakobashvili, also an Israeli citizen, is Georgia's minister of reintegration.

2) Israel has strategic oil pipeline and economic interests in Georgia that it wants to keep under control.

3) Israel and Jewish powerbrokers around the world are angry with Russia because Russia keeps the Jewish Neocon-controlled United States from total domination of United Nations policy toward Palestine, Syria, Lebanon and toward a war against Iran.

4) The Russian government has had the courage to prosecute some of the Jewish criminal Oligarchs in Russia such as Berezovsky, Gusinsky, Khodorkovsky and others, a great many of whom have fled with their stolen billions to Israel and other nations.

5) Russia is a democratic state, and not controlled by special interests such as the United States is by AIPAC and Jewish campaign money. While Jewish-influenced newspapers and politicians complain about "democracy in Russia," America maintains a completely controlled two party system that is structured to stifle Third Party dissent and representation. Russia is no longer a communist state but an anti-communist state in the true sense. While

Russia has moved toward more freedom and healthy national sentiment, America has moved toward more state control of every aspect of life. Ironically, today American policy is dominated by Neocons, a Jewish extremist led group that was founded by followers of Leon Trotsky (Lev Bronstein) the notorious Jewish Bolshevik head of the Red Army in the early years of the Communist revolution in Russia, a man who murdered millions of Christians.

6) Zionists are trying to make the great, overwhelming White nation of Russia an enemy of America and Europe because nationalist Russia stymies their plans for the Mideast and for the New World Order. The conflict between Russia and Georgia is not in the true interest of either country, but one in which their main enemy, Russia is weakened both financially and in the court of world opinion, and Israel gets to sell Georgia more weapons. Once you understand the powerful role of the Jewish supremacists in media and government you can begin understand the nature of the world's major conflicts.

What it all boils down to is simply the fact that powerful Jewish influence in politics and media in the United States see it in Israel's interest and the interest of the Jewish people to side with Georgia and try to harm Russia. Sadly, as reflected by our Israeli policy, by our catastrophic War for Israel in Iraq, by our Jewish-influenced tottering to the brink of a cataclysmic war with Iran, and by this insane escalation of conflict with anti-communist Russia, we are acting not in the interest of the American people, not in the interest of freedom, justice or fairness, but simply showing our complete subservience to the Jewish extremists.
