Holocaust™ Reparations Bill in Congress could cost Americans 200 BILLION DOLLARS

The [Holocaust Insurance Accountability Act](#) of 2007 is now snaking its way thru committees, in preparation for what is to quite possibly be a huge extortion of money from the American tax payer.

Copied from the bill is this:

Experts estimate that the value in 2006 of unpaid life, annuity, endowment, and dowry insurance theft from **European Jewry from the Holocaust and its aftermath ranges between \$17,000,000,000 and \$200,000,000,000.**

(Dowry Insurance? WTF? We're supposed to pay off for a wedding ceremony that never took place?)

What's next, puppy dog life insurance policies that weren't collected when "Spot" died?)

Who in the hell are these experts? They're not named, so we're supposed to take at face value an utterance from a Congress that will drop everything in a sec to service their Zionist masters in Israel, but could care less whether or not We the People sink or swim... literally.

This act will give **Holocaust™** survivors, heirs, dependents, and others, access to U.S. courts for the purpose of entertaining legal actions against insurance companies, even **when those claims have already been denied by European Courts.** And let them pursue legal action and seek redress--MONEY--against insurance or RELATED companies and seek damages. (Related Companies? Is no one safe from the latest **Holocaust™** money extortion scheme?)

And the amounts are to be TRIPLED and include interest.

How sweet it is.

If the insurance company does not pony up information and money, they are subject to losing their business license.

So, when this strong-arming of insurance and RELATED companies goes into effect, who do you think will actually wind up paying for this scheme?

The insurance companies? Initially, but in turn, they'll increase our rates to make up for the loss of income.

What about the insurance companies that, for whatever reason, no longer exist? How does one get that money? Well, our lap dog Congress has an answer for that in [H.R. 1185](#), entitled the Wartime Treatment Study Act, which establishes a Commission on Wartime Treatment of Jewish Refugees.

In part, this act reads "... including a review of the underlying rationale of the United States Government's decision to refuse the Jewish and other refugees entry, the information the United States Government received or acquired suggesting such refusal was necessary, the perceived benefit of such refusal, and **the impact of such refusal on the refugees.**"

The impact of such refusal? As in financial impact? It doesn't take a soothsayer to see where this is leading. Once the Wartime Commission gets thru pointing the blame at the U.S. for minding its own business and determines that We the People were responsible for something for which we had absolutely NO PART, my guess is that the "Knesset" in Washington, DC will wring its hands, lamenting how terrible, how blah, blah, blah... that the poor dears can't get money out of a non-existent company.

And proceed to fork over billions and billions of dollars, in this latest racket to shakedown the American public into giving wads of cash to Israel.

Who's behind this **Holocaust**TM dunning scheme?

Rep. Wexler and Rep Ros-Lehtinen are behind this Fleecing of the American Public Act of 2007. Yes, that same Wexler, as pointed out in [WUFYS](#), who is raising a ruckus about the Cheney impeachment bill, which is dying a slow death in committee. But it serves to distract the quivering masses from that hand reaching into their pocket to extract some bucks for the **Holocaust**TM.

That our craven Congress has sold out to a foreign power is evident to most, but not all. OK, so try this:

Go to the [Library of Congress](#) web page and do some research for yourself to see what bills our Congress has been working on.

At this site, try typing in subprime mortgages, the fraudulent scheme enacted by the banking industry that is causing people to lose their homes, making families destitute and damaging the economy and you'll see:

137 Bills from the 110th Congress ranked by relevance on "subprime+mortgages".

Or, type in Walter Reed. As in the Walter Reed Hospital that was shown this past year to be keeping our wounded vets stranded in squalid conditions, forcing them to live in rooms with mold on the walls, vermin running about and vets living in their own waste, and you'll see:

250 Bills from the 110th Congress ranked by relevance on "Walter+Reed "

Or, type in Katrina, as in Hurricane Katrina of 2005 that damaged New Orleans and forced thousands of Americans into living on the streets.

Americans who are still homeless to this day, thanks to a complacent Congress and you'll see:

291 Bills from the 110th Congress ranked by relevance on "Katrina ".

Now, try typing in the word Israel. As in the Israel that has OUR Congress serving at its beck and call, always more than ready, willing and able to shovel ever increasing loads of OUR money to that pariah nation and you'll see:

326 Bills from the 110th Congress ranked by relevance on "Israel+ ".

Any question now as to where the U.S. Congress' loyalties lie?

Does this **Holocaust**TM racket ever end or is it a kind of perpetual motion money making machine, designed to continually pump OUR money into the Khazars pocketbooks?

Better start learning Yiddish now, so you'll be able to recite the revised Pledge of Allegiance in that country that is now known as

"THE UNITED STATES OF ISRAEL"

\$200B split between 16 million Jews worldwide is only \$12'500 each.

We should probably pay more for the 60 years of suffering and the worry about getting their non-existing claims sorted!

I wonder if THEY will go back on the agreements already agreed to with European Banks and Insurance companies?

Germany should fork out more as well.

Anyone else I'm forgetting?

Shit Ireland should do more as well.

Let's make this a bumper year that NOONE will ever forget.

[great post](#)

one minor correction - like I mentioned before, if Holocaust had been copyrighted we could look forward to it ending sometime in the future because copyrights only last the life of the author plus about 70 years.

TRADEMARKS, on the other hand, are forever.

The term "Holocaust" may or may not be registered at the USPTO, but they sure as hell treat it like it is.

"Money" has no value - people do.

Forgot about the copyright actually having a foreseeable sunset provision, unlike the **Holocaust**TM.

The Thomas.gov site also helped scramble me brains, since that site is not user-friendly.

Couldn't put in hot links for specific terms, since those links expire after a few minutes.

[2 previous genocides to make reparations for first](#)

The holocausts which exterminated (genocide) 95% of the indigenous Native American people and kidnapped and enslaved millions of African people in this continent should be first to receive reparations.

Didn't the Germans already make reparations to the Jewish people after WWII? Why should the US be liable for that, we rescued them, for god's sake!

Who's sponsoring this legislation?

Hunsecker | Sat, 2008-02-16 22:51

Maybe instead of paying for WWII reparations, the US should pay reparations to the Palestinians, whose genocide they've been an active participant in for the last 40 years???

[Why..?](#)

should the United States pay Israel..we already send them millions in foreign aid and weapons...we weren't the ones who tried to annihilate them..it wasn't on our soil, it was the German Nazi's and Hitler..we liberated them...is this because we have so many dual citizen Israel/American working with in our government and so many in the Administration and Congress that are bought and paid for by AIPAC..? F*** them!

It wasn't the Americans, but their own Zio Jewish bankers that helped Herr Hitler, via scumbags like granddaddy Bush, so you pay if you don't and you pay if you do, win win depending on what side you are on

[We will gladly pay up](#)

Thanks to the never ending printing press of the Fed Reserve, congress needn't petition the people for greater taxes with which to fork over the Khazargeld. We can fight multi-theater wars, bankroll big brothers ever reaching arms, and give our alms to the underprivileged Israelis all while leaving taxes untouched. What a system. How did we live before? 100 corrupt senators all agree, the FedReserve is the best method of keeping their insolvent fiscal policies underwraps and thusly keeping placated constituents unaware of just how firmly in the pockets of ZOG they really are. But the best part is we never have to worry about the money coming from our pockets. Now I'm off to the market to bust my Benjamin on milk, eggs, and cereal just after I stop by the fuel pumps and top the tank off with \$3.50 a gallon gas.

The dilapidated infrastructure to get me there--congress is glad that's in the hands of state and local taxpayers otherwise they may have to raise taxes--but then they do so much for the American people, it's understandable.

[Adolf told the ZioBanks to go get lost and . . .](#)

. . . . they came back with the British and American armies !

From Oct 1928 until Jan 1933 the ZioBanks in Germany paid his party a lot of money hoping to be influential in banking policy should he come to be Chancellor.

So, come Feb 1933, i believe that in private audience he told the zio bankers, "Thankyou very much for your invaluable past support but banking policy would be decided by myself alone."

That is why 405,000 American boys died and more than a million others were wounded and maimed, all for the self accorded right of Zion to counterfeit the German Mark, which activity was resumed in 1945.

I use the word `counterfeit`, as all money generated by private central banking cannot be other than legalized counterfeiting.

When the Federal Reserve is abolished i wonder who will be whistled up by the zio bankers to destroy America ? Israel nuking America ?

But before then, will Congress come to understand that the people will not anymore tolerate any so called Holocaust Insurance monies going to anything that is zion or Israel or jew ?

[Hitler a jew ? Not important at all, as . . .](#)

. . . by his actions and speaking he was for the German people and not for the zionist banks.

It is as well to say here in passing that there were thousands of jews and half jews in Hitler's armies. What did they do in the war ? Any war crimes ? Probably not, as Simon Wiesenthal would have pursued them. Right ?

To me such considerations are not of any consequence as Allied forces committed monstrous crimes against millions of Germans during and after the war, but war crimes trials are only for the vanquished.

But that gets away from developing the story, being that Germany's financial system was in the hands of the zionists until Feb 1933, after which date there was no interest rate charged anymore on either new credits issued by the state controlled bank or on old debts !

There was no confiscation of the ziobanks - there didn't have to be, as all Mr Hitler did was have his state bank issue credit interest free.

That, of course, was totally intolerable to the ziobanks, being the satiated lords and masters of all they surveyed, always charging what interest suited as was their want, and now being faced with competing at 0% interest !

A careful reading of the front page of the London paper, Daily Express, for 24 March 1933 reveals not a skerrick of a reason, let alone a list of them, for the banner headline, Judea Declares War on Germany.

Nothing there about ill treatment of jews !!

Instead, thunderous denunciations of Germany abound mixed in with the numerous international boycotting measures to be taken, but as i said, no reasons given.

Doesn't that say that the reason was a dirty little secret, viz; that their ziobanks could no longer make money in Germany out of thin air as formerly ?
And that is why they whistled up Britain and America to destroy Germany, which they did, and the ziobanker occupation resumed in 1945 and continues to this very day !

QRS:

Once one starts looking into the Thomas.gov site and reads up on the hijinks being done in our name by that pack of scoundrels in DC, it's damn near nauseating to see just what in the hell they're up to with our money.

There's numerous bills being introduced, in our name, to shovel ever increasing amounts of OUR money to Israel.

i can go back and dig a little deeper to help flesh out that part about the HM and the vets, but damn, it's so maddening to see what is being done behind our backs, in our name, that one almost gets sick to their stomach.

But, it could be worse. I could be 16 yo kid living in Hebron, hiding from Shin Bet Death Squads, with no home to go to, since the IDF bulldozed my home and killed my parents in the process.

Greg Bacon, funny you mentioned "pony show", since do you know it means in slang?!?!

During the 19th and 20th century, the Ashkenazi Khazars were running a whole bunch of 'pony shows', as well as narcotics, gambling, prostitution rings in Cuba.

The "jewish" mafia was forced out of Cuba when Fidel Castro won independence from them. The rest is history ('jews' tend to hold "grudges" for a VERY LONG TIME!).

"pony show" --- look it up. Very disturbing "show" ... ;(

[reparations](#)

Mr. Poe

This is absurd. We gave isreal 80 billion dollars last year. Our social security system is failing. and we do not owe them anything for bailing them out of Germany in ww2. Does this mean that Native Americans can get all of their broken treaties repaired, too? The holocaust of the Natives of North America lasted far longer and was far more effective. How can we owe some foriegners for their own betrayals of each other when we owe our own country so much more. After all, the jews had thier chance to help each other and they only though of themselves, and let the others of thier own kind be taken. Let them help themselves now, and keep thier greedy hands out of our pockets.

If this is the kind of society we're becoming, maybe people should consider just canceling certain insurance.
