Hi, fellow truth-seekers!

Does it sound believable to you that **ICTS** would have been the private company in charge of security at **all the airports** involved in 9/11? Would you be amazed to learn that it was notorious as a **front for the Mossad**? What if the same company was about to take over **security at LAX**? Is this something that would get your attention?

If you find this revelation by our northern big brother, WeAreChangeLA 9-11 Truth, astonishing, check their **complaint to the LA City Council**: <http://www.youtube.com/watch?v=RjYvRb0HbHM> (starting 1 minute into the video)

Should this whole affair trouble you, won't you take action? Since **conspirators, like cockroaches, are viscerally afraid of visibility**, you have a whole lot of choice; send the URL of the youtube video (above) and add very relevant questions, for instance:

- o Ask **LA Mayor Villaraigosa** at mayor@lacity.org why a firm with a recent terrible safety lapse could ever be selected to secure LAX.
- o Find **your city council** on the web and Email them your concern that LAX's safety is being dangerously compromised.
- o Warn **your favorite travel agency** of a possible peril and advise it to at least warn its customers about an additional risk of flying at LAX.
- o Ask **your favorite airline**, especially if you are a frequent flyer, about any action it will take to reassure its passengers that terrorists won't board its planes at LAX, since they have proven their ability to pass past ICTS without even leaving their **faces on videotapes**.
- o Since **McCain & Obama** are competing for the "who's tougher on Al-Qaeda" prize, alert them to this unacceptable risk: <http://www.johnmccain.com/Contact/>, <http://my.barackobama.com/page/s/contact2>

I need some real proof that ICTS provided security for all the airports involved in 911. Please respond ASAP as i'm trying to defend your post! I can prove Logan airport but need some help with the rest.

Here is another link to the 7/7 bombing in london and guess who was involved in security??? you guessed it... read down to the 4th or 5th paragraph and you will see it mentioned there. In fact, read the whole article, its good. I remember some of this coming out on the same day of the attack, especially the so called war games just like 9-11 that happened on exactly the same day and with the same scenario. Its a most interesting read.

'Life should not be a journey to the grave with the intention of arriving safely in a pretty and well-preserved body, but rather, to skid in broadside, thoroughly used up, totally worn out, and loudly shouting, "Wow! What a ride! Thank You, Lord!"
