Israeli 'IDF' - Freedom Fighters Or Terrorists?

by Ze'ev Ben-Yechiel

9-29-8

(IsraelNN.com) MK Jamal Zahalka of the Israeli Arab Balad party said that he will sail to Gaza on the second Free Gaza shipping sojourn, in direct violation of an IDF ban on ships entering the area. Emboldened by the failure of the IDF to enforce the ban of last August's Free Gaza ship journey, *Zahalka will become the first Knesset member to openly break the laws of his own government when he sails Wednesday.

As his ship awaits departure in Cyprus, Zahalka said, that "it is my duty as a politician who slaves away night and day against the siege, to board that boat and work towards ending this inhumane siege." Many in Israel do not understand how the Israeli government's 2005 withdrawal from Gaza and the expulsion of all of its 9,000 Jewish residents constitutes a siege.

Although Israel issued a clear ban against any ships entering the Gaza coast, as well barred Israeli citizens from entering Gaza through any means, Zahalka remains defiant. "This journey is part of an opening of a naval passage to Gaza, which will constitute a doorway for the residents," he said, suggesting that it will be the actions of a small group of left-wing activists from Israel and abroad that will determine Israeli policy, and not the Israeli government.

Zahalka will join some 20 activists and several doctors on the second boat to illegally enter Gaza since the first 'Free Gaza' expedition in August. In last month's 'Free Gaza' landing, 44 activists landed a boat on a Gaza beach without interference from the Israeli navy. The government decided not to enforce its maritime ban on Gaza despite the clear challenge to Israeli authority, fearing that the seizure of the 'Free Gaza' boat would attract undue attention to the anti-Israel activists. However, Wednesday's planned departure of another boat, due to arrive the following day, indicates that the organizers of the August boat were encouraged by their successful landing.

Among the activists in August's boat were Lauren Booth, sister-in-law of former British Prime Minister Tony Blair, and left-wing activist Jeff Halper, an Israeli citizen. Halper was arrested on his return to Israel for violating the ban on Israelis entering Gaza. Although Halper awaits possible indictment, Zahalka, as a member of Israel's parliament, will be immune from the laws that he plans to break. The Israeli government has yet to decide on whether to enforce the entry ban this time.

(END OF 'ISRAEL INTERNATIONAL NEWS' STORY)

Note that the Jew author calls this courageous act to break the blockade stranglehold that IsraHELL committed to starve thousands of helpless children sick starving and elderly a " SUCCESSFUL STUNT". Only the sick depraved mind of a Jew would so cruelly 'VICTIMIZE THE VICTIM' a typical Jew trait.

Also noteworthy a picture included in the SAME space as the story (It would not copy) of this brave rescue attempt a depiction of some Jew organization called 'YAD EZRA V' SHUIAMIT' that shows a slide show of dozens of VERY well dressed chubby well fed Jew children with the captions: "WHO SHALL WE LEAVE OUT? HELP US FEED ALL OF THEM (ONLY THE CHUBBY JEWS OF COURSE) AND GIVE THEM A SWEET NEW YEAR" NOW isn't that so special of the Jews! (only their chubby Jew children of course) Many of the Palestinian children will not even LIVE to have a 'new year' and even if they DID survive it DAMN SURE would not be a "SWEET" new year in a Zionist concentration camp.

Let me tell you just WHO these cruel animals "WILL LEAVE OUT". Those non- persons are the sick dying starving NON-JEW children of their neighbors. AND DO NOT FORGET THIS FACT! Some 2 out of every ten of those suffering kids are from CHRISTIAN FAMILIES! But that is OK for the self-chosen as their hatred for ALL Christians is even GREATER than that for Muslims. I can't even imagine what I would do to an adult ESPECIALLY a soldier who brutalized my granddaughters UNLESS of course they were JEWS - then it is of course ok for them to rape, fondle, abuse humiliate OR MURDER. Yea I know sounds too dramatic. Well how about a reality check.

When I was in Gaza and jumped out of our armored embassy vehicle to photograph the murder of a 'terrorist' by a brave IDF Paratrooper in our escort I apparently startled the courageous Jew paratrooper who faced the nearby threat armed only with an FN assault rifle an FNFAL para 308 model if memory serves me. His deadly terrorist adversary was a 5-year-old half naked boy with tears in his eyes (was probably an orphan having had his parents murdered by courageous IDF)
