Israelis Inadvertently Admit Complicity in 9/11 Attacks

“Our purpose was to document the event.”

Watch this one-minute video from Youtube, and you will hear one of the five “Dancing Israelis” step on his own sword. This is a clip from an Israeli talk show from November 2001, with simultaneous translation from Hebrew to English.

For those who do not already know, on the morning of September 11, 2001, a New Jersey housewife by the name of “Maria,” observed five suspicious men in her apartment complex. The five young men were filming the burning WTC towers, jumping up and down, cheering, and high-fiving each other. They were also lighting their lighters and holding them up in the air, as if at a rock concert. While the rest of the country was in a state of shock and tears, these five Israelis were clearly celebrating our nation’s greatest at-home tragedy. Maria called the police.

The police stopped the van the five Israelis were traveling in and found \$4,700 in cash, fake IDs and passports, and boxcutters.

The possibly incriminating statement, **“Our purpose was to document the event.”**, can basically be interpreted in one of two ways:

1) These five Israelis were not Mossad agents. They just happened to be there at the time of the event and videotaped it. They had no foreknowledge. They videotaped the event with the purpose of documenting it. -Like a lot of other people on that fateful day.

2) The five Israelis were Mossad agents, in which case one would be naïve to believe that they had nothing to do with it. We must assume that they in all likelihood had foreknowledge and were part of the plot. In this case their purpose may well have been "to document the event".

Our readers will want to draw their own conclusions. (Eds.)

There is enough evidence that the dancers were Israeli agents, not innocent belly dancers. Not only during 9/11, there is a group of researchers that suspect that mossad is behind hundreds of bombings throughout the world to create mayhem and virtual split within communities. They, as John Kaminsky says, are ruthless bastards. They bombed USSLiberty and killed servicemen and there is enough evidence of their direct involvement in mayhem throughout the world.

I also seem to remember reading a news item about a kid in NYC who told his teacher days before 9-11 that the towers wouldn't be standing there the following week, or something like that. I've often wondered if that story was true and, if so, why we don't hear more about it from all the organizations and people involved in the news coverage at that time.

Makes the most sense of anything that has happened since 9/11 the booty was Iraq and Irans oil fields. The Shi could not be trusted with the oil they have under Iran and which would also cause the Sunni majority of OPEC to lose their power. So what better plan then to send the alleged Saudi hijackers over and have the Mossad wire the World Trade Center with explosives; and Cheney stand down our national defense. If the plan would have worked then Saudis are protected and Israel becomes the strongest military power the new police force in the Middle East, Cheney and company would then control the oil infrastructure.

No way would, that be just another crack pot, tin hat conspiracy theory because that is what the commercial news media would say. Have you watched the news lately, who is buying all their high dollar advertising time? Could it be the Military industrial complex, oil industry, and big pharmaceutical?

Wake up people!!!!!!!!!!!!!!!!!!!!!!

Any honest investigator always poses this fundamental question, "Qui bono?" Translation: "Who benefits?"

Although it is not a sure-fire indicator of complicity or culpability, those who benefit from a crime are always "persons of interest" if not actual suspects.

Few dare to ask that question with regards to the 9-11 attacks. Anyone who might suggest Israeli complicity in the attacks is hammered with the usual "anti-Semitism" charge.

I doubt if Israel engineered the 9-11 plot, but it's a safe bet that the Mossad knew about the plotters. They shared only enough information to cover their collective ass, in the unlikely event of a US investigation.

No need to worry about that, of course, we have waited patiently for an investigation into the attack on the USS Liberty for forty years.

Israel reaped huge rewards from the 9-11 attacks - pro-Israel UN votes, sweetheart loan packages, defense contracts etc.

Indeed, the Iraq War is actually US aid to Israel.

Iran is next on Israel's hit-list, will we get hit again, so as to convince us to go along with the Israel's plans for a US/Iran War? Stand by for more Israeli perfidy...

O.K. new-york-loner..since when has anyone on this website been afraid of being "hammered with the usual anti-semitism charge and do you really think that these 5 dancing Israeli's were the only ones cheering when the towers fell? I'm sure it's safe to say that there were alot more muslim's cheering than Israeli's. "Pro-Israel UN votes"...please!! The UN lives to go after Israel and us, they just have to be politically correct. God Bless "Little America" who is our only true allie in the middle east and the only democratic nation in the region. Is this a muslim website?

Comment from: CelticKnight [Member]

The man who ran the moving company that these 5 Israeli's worked for has been documented to be Israeli Mossad. After these 5 were arrested he left the country very rapidly leaving everything behind.

Then there is also the case of the pristine Atta passport that was miraculously found in the rubble behind police tape. Was it just a coincidence that 5 more mossad were detained in the vicinity of that passport by the police?

9/11 MADE IN ISRAEL

9 of the supposed hijackers have been seen alive in other areas of the world since the event.

So how did 9/11 actually happen? Could it have been that those jets were commanded by a radio system that was

installed in the event of hijacking? After all Dov Zacheim was the VP of a company that made the system. He is also a rabid zionazi piece of trash who has openly stated more than once that it was going to take such an event to make all of America human shields for Israel.

Couple this with the fact that following the 9/11 event there was a major drug bust within sight of the fallen towers. The drug ring was run by Israelis dealing in ecstasy and there was a radio transmitter found in the apartment that operated on the same frequencies as the radio system used to run the automated system on the jets. These are not common radio frequencies. You can not buy a transmitter with these frequencies installed.

But the most damning evidence is the timing of this event. Israel had just been excoriated in South Africa at a UN conference as the most racist and genocidal country on planet earth just weeks before.

Yet within a week of 9/11 tanks rolled into Jenin as the world turned a blind eye. All attention focused on 9/11.

There is a whole lot more evidence I could cite but I think there is enough here to make people think that it is way more than a coincidence that these 5 Israeli Mossad were camped out before the event happened and documented the entire thing from the beginning.
