Suleiman to Visit US, Meet Bush on September 25

26/08/2008 Israel is endlessly seeking to acquire modern weaponry, especially after it was dealt a sever blow in its war on Lebanon in 2006, when its warship, Hanit, was hit and after Iran announced it has produced a military submarine. In this context, the Israeli television revealed that the navy intends to buy a US warship capable of launching multiple nuclear missiles against "enemy cities." According to the television report, the vessel also has the ability to protect Israeli cities against rocket attacks and be a strategic arm.

"This ship is different from all other known Israeli vessels. It is equipped with defense systems against rockets, submarines, and planes. It also has a Special Forces operations base and another for helicopters and drones,"

the director of NGS ship project Dan Schultz said.

Meanwhile, the Israeli television also uncovered that the Israeli Air Force has moved its airbase near the Ben-Gurion airport – after operating for forty years - to another base; the biggest in the Negev desert. The television also said that Hercules planes, capable of flying long distances, have been recalled to the base due to the fact that Israel expects its aerial bases to be targeted at the outset of the next war.

"We are moving forward to become an effective and essential component with great air-force capabilities in Negev," the air-force base commander, Daniel Shlayfer, said.

He also said that Defense Minister Ehud Barak laid the cornerstone for a large city in Negev that would contain around twenty thousand soldiers as well as intelligence centers. According to the Israeli television, the move is

What nonsense Sayyed to believe everything you hear - especially from a band of terrorists and armed bandits that hijacked the Lebanese parliament, holding them to ransom with their veto powers. Do you really follow a god that advocates killing anyone who disagrees with him? Certainly not my idea of a divine and caring god. Oh, what will you have to say when you find that Israel is still in existence next year or in ten years. Will you excuse Nasrallah got his dates wrong.....

1. Regarding believing what S. H. Nasrallah says this is something that even zionists acknowledge, they believe his words more than that of their own leaders who are known liars. 2. Hezbollah didnt hijack parliament if they wanted they could do so easily but they didnt. 3. Regarding calling Hezbollah "Terrorists" it depends on what you define as terrorism, if defending ones land and dignity from occupation is called terror according to you then we are proud to be called terrorists! dont forget that one mans terrorist is the other mans freedom fighter. Most people in the world see Hezbollah as a legitimate resistance movement with a great social and political network. Yes we will definety see the collapse of Israel soon! Without a shred of doubt. You will see it with your own eyes soon.
