GAZA, (PIC)-- Two IOF artillery shells slammed into the Wafa'a hospital east of Gaza city at dawn Wednesday severely damaging the ground floor, X-ray department and the laboratory, the hospital administration said in a press release.

The shelling also severed electricity, water and telephone lines, it said, strongly denouncing the act especially when the hospital serves hundreds of aged persons, wounded and handicapped.

It noted that the eastern fence of the hospital was destroyed in the bombing, and underlined that the hospital is specialized in extending rehabilitation services and specialized surgeries.

The hospital appealed to international institutions, legal groups and WHO to immediately intervene to save the health sector in Palestine, which is experiencing difficulties due to the siege and closure of crossings and now shelling.
