Google is still at it... [banning Blogspot bloggers](#)... who dare to be critical of Israeli policies. The latest two victims are [Rock the Truth *](#) and [Khalid Islaih](#). Both were determined to be 'Spam Blogs'.... an unquestionably non kosher entity on any Google site.

Hello,

Your blog at: <http://khaledislaih.blogspot.com/> has been identified as

a potential spam blog. To correct this, please request a review by filling out the form at <http://www.blogger.com/unlock-blog.g?lockedBlogID=4903965527845945553>

Your blog will be deleted within 20 days if it isn't reviewed, and you'll be unable to publish posts during this time. After we receive your request, we'll review your blog and unlock it within two business days. If this blog doesn't belong to you, you don't have to do anything, and any other blogs you may have won't be affected.

We find spam by using an automated classifier. Automatic spam detection is inherently fuzzy, and occasionally a blog like yours is flagged incorrectly. We sincerely apologize for this error. By using this kind of system, however, we can dedicate more storage, bandwidth, and engineering resources to bloggers like you instead of to spammers. For more information, please see [Blogger Help](#): <http://help.blogger.com/bin/answer.py?answer=42577>

Thank you for your understanding and for your help with our spam-fighting efforts.

Sincerely,

The Blogger Team

P.S. Just one more reminder: Unless you request a review, you won't be

able to use your blog. Click this link to request the review:

hassles c'mon down to www.wordpress.com

There are lots of folks that visit this Blog that can help you set up a new site.

FALSE ALARM?

So I log in to save some of my writings, my own 9/11 investigation, the torture files, the spying files, the false-flag propaganda, etc, and I find this:

“The latest from Blogger Buzz Spam Fridays

August 1, 2008 — [permalink](#)

While we wish that every post on this blog could be about cool features or other Blogger news, sometimes we have to step in and admit a mistake.

We've noticed that a number of users have had their blogs mistakenly marked as spam, and wanted to sound off real quick to let you know that, despite it being Friday afternoon, we are working hard to sort this out. So to those folks who have received an email saying that your blog has been classified as spam and can't post right now, we offer our sincere apologies for the trouble.

We hope to have this resolved shortly, and appreciate your patience as we work through the kinks. — Brett”

– Well, that's makes me feel all secure, right? How am I supposed to feel about this, as well as the other guy? Is he unlocked?

I'm still moving and, I'll run a second site. Considering my material and “style” — which will be cleaned up, because I will hand them no more weapons despite my seemingly limitless outrage — and what I've come to learn about the controllers of information.

Today is a perfect example; they are running with the anthrax lie. Thank you for doing all you do.

I'm going to post a bit of an editorial today (clean) detailing how I got here and why I do what I do.

The unutterable arrogance of those who don't just shy away from the truth but try to invent it for the rest of us.

To me this is war and I'm signing up!

I've been critical of Israel as well, but, due to the focus of my site—Christ and Bible truth—maybe they, the Ziocrats running Google, haven't caught it yet. Considering what I have said about the Talmud and the relationship between the Pahrisees and today's Ashkenazi-Zionist-Talmud believers who persecute Palestinian and other Christians...and the fact that one Khazar-as-Jew threatened to sue me for "slander"...well, dang it, they should have chased me off Google Blogger! What do I have to do? Say Bibi Netanyahu's mother wears Palestinian-skin tennis shoes???

Add to the list The Magnes Zionist (<http://themagneszionist.blogspot.com>) who has been shut out of his blog too. He left this in his comments:

To my readers (if you see this).

My blog has been temporarily locked by Blogger as a potential “spam” blog, which is no doubt the work of the Israelis who spend their time trying to destroy blogs that they consider unfriendly to Zionism.

I will let you when I can post again.

It is funny how the anti Israel blogs are tagged as spam but the porn blogs are ok and are never shut down.

I bought my own domain when I got my first message about my blog being spam.

For those of you who would like to take a more active part in boycotting Israel, here's a little info. Bar code numbers for goods made in Israel begin with 729.

Our politicians don't listen to their constituents. Nothing talks louder than money. With all the cash our government sends them, it's one small way we can keep our dollars from bulldozing another home. Don't buy Israeli goods.
