

# Let Sibel Edmonds Speak

Sibel Edmonds is the most gagged person in US history. The government has repeatedly invoked the State Secrets Privilege in her case - not for reasons of 'national security' but to hide ongoing criminal activity. Please call Waxman and Conyers' offices this week and demand public open hearings into Edmonds' case and the State Secrets Privilege. Links to the petition, action items and phone numbers will remain in the post on top.

## ➔ Sibel 'names names' (in pictures!)

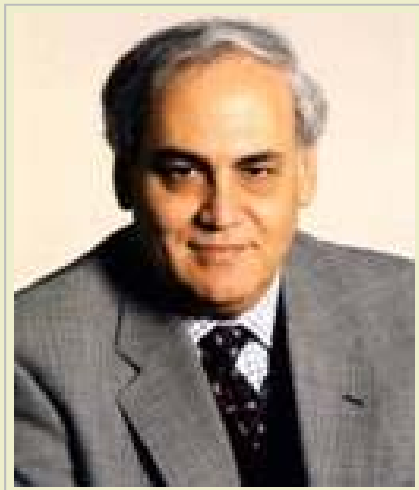

Over at Sibel's website, she has published "[Sibel Edmonds' State Secrets Privilege Gallery](#)" - twenty one photos of people.

Sibel doesn't say anything about the photos - or the people in the photos - but we can reasonably presume that they are the 21 guilty people in her case.

Sibel has broken the photos into three different groups.

The first group contains current and former Pentagon and State Department officials.

Richard Perle

Douglas Feith

The second group is current and former congressmen

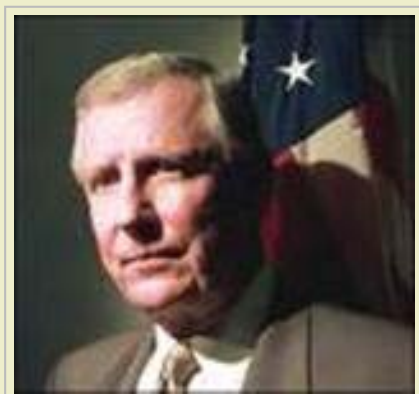

Dennis Hastert - Ex-House Speaker (R-IL)

Roy Blount - ( R, Mo)

Dan Burton - (R - IN)

Tom Lantos - (D- CA)

?

Bob Livingston - ex-Speaker of the House (R-LA)

Stephen Solarz (D-Ny)

The 3rd group includes people who all appear to work at think tanks - primarily WINEP, The Washington Institute for Near East Policy

Graham E. Fuller - RAND

David Makovsky - WINEP

Alan Makovsky - WINEP

?

?

Yusuf Turani (President-in-exile, Turkistan)

Professor Sabri Sayari (Georgetown, WINEP)

Mehmet Eymur (Former Turkish Spy Chief MIT)

As you can see, there are a couple of 'Question Marks' instead of photos. I'm not sure why that is the case.

I'll have some more later, obviously.

I just posted off a nice summary about the Daily Kos thread for OpEd News, including this link.

I hope they take it. I tried to keep the focus on questions raised AND the need to keep impeachment in our sights so that subpoenas have teeth, while asking people to write their reps and senators and media outlets.

Thank you so MUCH. I despise nukes. Hail Sibel!! Were all people so courageous.

Thanks people. Yep - it was SUPPOSED to be Scowcroft, and now it is.

Phew. Thanks so much for picking that up.

Larisa Alexandrovna has also just come out and named 17 names on her blog.

And she adds "a few phrases for you folks to play around with (in no particular order):

Gray Wolves

Shanghai Cooperation Organization

RAND Corporation

PNAC

East Turkmenistan

Iran

Syria

Foreign Policy

King Faisal

ISI"

What's going on? Tipping point?

I have my doubts about this entire ordeal, and wonder how the "powers that are" (including murdoch) would allow this to happen. My suspicion is that this is yet another false flag operation to KEEP

YOU PEOPLE BUSY AND DISTRACTED.

What now? Another government scandal? What about all the other scandals that have yet to be investigated or even brought to light. Don't abandon ship for this issue until the other previous issues are addressed (911, foreign policy, destruction of the constitution, the homegrown terrorist act, the financial markets, the federal reserve...what else did I forget!!!)

....that's what they want!!!

Richard =(his friends like to call him "Prince of Death or "Prince of Darkness") Perle is from the same school of thought as Dick Cheney and Donald Rumsfeld. Start bloody wars, control nations with dictators (Bush did help Hitler get WW II started) make lots and lots of money and hold power.

Oh, yeah, did I mention kill lots of men women and babies?

America, you is a living lie!

DOGISMYTH, you really need to go back and read up on Sibel Edmonds. This thing is not out-of-the-blue, it's been ongoing for years now. Sibel has been trying to go through all the appropriate channels to get her story out, but has been gagged by a judge's order with the excuse of "national security" interests being at stake. Even Rep. Waxman has run away from touching this case. Recently Sibel offered to go public to any news organization that would let her speak and would not edit her story to suit their purposes. It looks like finally the Times took her up on her offer.

Thank God.

It would sure be, uh .... nice if the U.S. media picked this up. I'm not gonna hold my breath, though. This is one of those things where the guilty are entrenched in all walks of government, both Repub and Dem.

It's a trans-national scandal that would embarrass WAY too many "important" people.

If IsraeHELL is successful in getting the U.S. to bomb Iran, Russia has already promised to attack any aggressor BACK! Their NUKE bombers are flying again. Neither Bush's nor Israeli's really give a crap what happens to THIS country

On my blog, I've offered mini-bios on all these individuals.

<http://cannonfire.blogspot.com/2008/01/sibel-speaks.html>

One of the individuals that deserves greater research is Mehmet Eymur. He was NOT the head of MIT (Turkish intelligence) but he was a key MIT agent. He stands accused of participating in various massacres of left-wingers, and apparently was involved with Operation Gladio, as well as various ultra-nationalist parties. One site says that he headed an "illegal group" within MIT. Doesn't that sound like the role played by P2 within Italy's SISMI?

Also, Yusuf Turani seems a fascinating person. The guy grew up in a Maoist labor camp, spent time in Saudi Arabia and Turkey before moving to the US, where he became a physics professor and a musician.

You don't run into a resume like THAT every day.

What exactly is the nature of his claim to be the rightful president of East Turkministan -- and what is it, precisely, that Sibel says about him?

Thanks for your efforts Luke.

I blogged on this post- my focus was mainly to point out that 10 of the 18 named pictures have associated entries in the Complete 9/11 timeline, but I also added some sourcewatch, etc. bio links.

Sibel's case is not exclusively or primarily about 9/11, I would agree with that assessment, but it is about 9/11, IMO. Scowcroft and Global Guardian, Grossman meeting with ISI chief Ahmed during the week of 9/11, the skyscraper blueprints, the censored testimony before the 9/11 Omission all are parts of what make me want to emphasize that point.

Anyway, cheers! Thanks again. Maybe all this will finally break it open. One can only hope.

AS is Americans are nothing but lard arses who have their country raped time to time by these thugs.

Americans dumbled down to the point of bending over and taking it all in
