The Georgian Disaster

September 12, 2008

by Brian Harring

The Bush Administration is now having serious problems with Georgian President Saakashvili. He has always been seen as an excellent political tool, very pro-American, very anti-Putin and a man who had received over \$860,000 USD from the American government for his "friendly cooperation" in permitting American and Israeli intelligence and military units to develop a striking base in his country aimed at both Russia and Iran.

Saakashvili. has had three highly informative and secret email exchanges (on September 3,4 and 5th) with American Vice President Cheney and two with American Secretary of State Rice (on September 1 and 3rd) concerning the future of Georgia. Since email privacy is impossible to maintain, the contents of these messages are certainly not secret.

* Saakashvili has reiterated repeatedly, and very forcefully, that he wants the U.S. to reequip the Georgian army to the level it was at prior to the military events with Russia in early August.

* Saakashvili insists that the U.S. develop a large naval base at Poti, the oil refinery port, to protect it from the Russians.

* Saakashvili wants a large number of American troops stationed in Georgia for a protracted period to physically protect that country by their presence.

* Saakashvili is also asking Israel to occupy at least one air base and to station a significant number of bombing aircraft there to facilitate a planned attack on Iran or on Russian forces should they invade Georgian territory again.

* Saakashvili stated that he planned to equip loyalist local militias in the two provinces, Abkhazia and South Ossetia ,with sufficient weapons to harass and drive out the Russian occupiers.

* Saakashvili intends to ask Israel to send tactical atomic weapons to Georgia to maintain a balance against Russian aggression..

* Saakashvili vowed on September 6 to regain control over the two independence-seeking provinces of by military force at the earliest possible opportunity..

Clearly Shitsvili is Insane.

His demented wish list above are obviously the rantings of a fucking lunatic:

It does not take a fucking military genius to anticipate what Russia's response would be to Israeli nukes stationed in Georgia...

deuce saakashvili male gigolo

by falluja_superstar on 15.09.2008 [18:01]

wow, suckerville is selling his ass for \$860,000 USD, who does he think he is? he does not even look good for a gigolo

@ Legolas agreed he is a f/king lunatic

by phil_s66 on 15.09.2008 [19:18]

his wish list is the clear demented ravings of a man obsessed with power. He believes Russia is containable by a few toys given to him from the west. I guess he will get a rude awakening soon.
