VOTER FRAUD confirmed by voter in Sutton...

Sutton with 100% reporting reported 0 votes for paul but poster in Sutton posted:

Quote:

My mom, aunt, and dad all voted for RP today in my hometown, My mom and aunt both work passing out ballots, and checking them off. I just looked at the politico map and it says their town has ZERO votes for Ron. Now i know that there isn't corruption on voting in that little town, so where they reported it must be. What do I do, anyone know???

So this is wrong. This is a town that had 20 people counting the ballots and I have no reason to believe that they cheated. Small town and I was born and raised there. The real numbers will come in by morning. The electronic machines in the big towns are the ones we have to worry about."

Maybe her parents lied to her about who they voted for. ;-)

It's going to take people with cameras to verify that to the public.

demand a manual recount, regardless of whether you think there really is fraud or not.
