[When did you realize 911 was a fraud?](#)

Jan 8, 2008 | 7:46 PM PST

It was about 4 months after the events of September 911 that I had a minor emotional breakdown regarding the events in New York that year. After watching the abcfoxnbc corporate owned media video and sound bites over and over ad infniitem I finally broke down crying. I am sure that right about then a good majority of Americans and Canadians felt the same way. We had all seen the constant footage of airplanes flying into buildings. We saw the buildings collapse into their own foot prints. We saw that hole in the middle of the Pentagon.

Within hours of this series of events - we were told that it was those "Terrible Arabs" and Al Quida who were responsible. All the talking heads were instantly pointing the blame at our new nemesis "OSAMA"

Further conditioning provided by a series of Anthrax mail at liberal legislators.

I did not know it - but at that point I had been psychologically defeated. And so had the majority of Americans and Canadians. In that moment lay the success of any psy-op campaign to condition a population. Such psyop campaigns are standard technique use by lettered orgs throughout the Western hemisphere on other populations. This time they had been used on the population of North America.

It was not until about two years later that I had my epiphany. That moment when I know I had been played for a sucker on 911 and that the entire event was a false flag operation - an inside job. It was upon seeing a video of Word Trade Center building 7 collapsing into its own foot prints late in the afternoon long after the collapse of the first two towers. Building 7 is the 47 story tower that came down in its own foot prints in under 7 seconds - but was not hit by anything. Then I saw pictures of that building shortly before its demolition. There were a few fires in a few offices. Certainly not enough to cause a steel and concrete building to collapse into its own foot print in seconds.

I ran the whole thing over in my mind a few times. Building collapses in its own footprints in seconds - but was not hit by anything. That was it. I now knew we had been had. I had to do more research.

The more I looked - the more evidence of a fraud.

The hole in the Pentagon after it was hit was not big enough to drive a train through - let alone a 747. And no release of photos thereof by the Pentagon. A kid with a camera in a box could keep better security records than the Pentagon.

Now I know that black smoke - like the kind that resulted from the planes hitting the buildings WTC 1 and 2 indicates low temperatures and that airplane fuel can not rise to high enough temperatures to melt steel. Especially in two building in about an hour and another building that was not hit by anything.

I also know that the anthrax sent to American legislators could only have come from an American government lab.

BACK TO THE PSYOP CAMPAIGN

While in that broken down state Americans had their constitution torn to shreds. The Patriot Act was passed and American lost most of their constitutional rights. The stage is now set in the US for a military take over. Its only one more step

WHY DOES IT MATTER TO CANADIANS?

- Canada has oil. Countries with oil need to watch it. Our neighbors to the South tend to invade countries with oil.
- Due to 911 concepts like North American integration are being implemented and our sovereignty is being dealt its death knell.
- You can bet the federal Canadian politicians may at some point look with envy upon the results of such a psyops campaign. They must be prevented from doing so.

The fact is folks that the story fed by the US government regarding 911 is a dog that just don't hunt and all you need to do is watch a few of the videos in my video blog and you will agree. You can't trust the government and you can't trust the mainstream media.
