Rabbi Dov Zakheim: Suspected Talmudic Mastermind of 9/11 Never Interrogated!

(By Stephen M. St. John)

Text of fax broadcast:

RABBI DOV ZAKHEIM: SUSPECTED TALMUDIC MASTERMIND OF 9/11 NEVER INTERROGATED!
NEW YORK, NEW YORK 16 SEPTEMBER 2007 Citizen of the USA Stephen M. St. John addresses the international community in Washington and here in New York City, all members of the US Congress as well as other organizations and individuals, public and private, and renews his call of 10 June 2004 -- right before the 22 July 2004 release of the 9/11 Commission Report -- to investigate Rabbi Dov Zakheim as a possible suspect and mastermind of the terrorist attacks of 9/11. Even the cochairmen of the 9/11 Commission later admitted the many manifest deficiencies of their investigation and report, but they still need to be reminded that the motive, means and opportunity to pull off a black false flag intelligence operation -- so as to precipitate desired invasions and occupations in the Middle East -- coalesced between the ears of Rabbi Dov Zakheim. Zakheim is an adherent of the satanic Talmud, which gives the Jews license to kill and steal from non Jews, and which is the fundamental principle underlying the well documented psychopathic Zionist Neoconservative agenda for world domination by means of other people's money, blood, sweat and tears. Zakheim signed a document expressing a wish for a "new Pearl Harbor" to speed up implementation of its recommendations just a year before the attacks of 9/11 did exactly that! 9/11 skeptics, including old Pentagon hands, point to remote control piloting as the only rational explanation for the flight paths of at least two, if not all four, of the jets of 9/11; in this regard, investigators must look very closely at Zakheim and the small universe of individuals like Zakheim with professional backgrounds in remote control technologies who could have taken advantage of their knowledge and expertise during multiple NORAD wargames that we're going on when the 9/11 attacks occurred. As Assistant Secretary of Defense and Comptroller of the Pentagon, Zakheim oversaw all resources including 1.2 trillion US dollars declared missing by Secretary of Defense Donald Rumsfeld on 10 September 2001, the very day before the attacks. Zakheim's cousin network of warmongering Zionists extends well beyond the Pentagon and includes airport security where the attacks of 9/11 as well as the attacks on Afghanistan and Iraq began, and where we have seen no credible video surveillance evidence of ANY of the passengers of 9/11!

[Rabbi Zakheim's role](#)

Very good points. Here's an excerpt from one of my pieces:

The tin-foil crackpots must posit that it was just a coincidence that [Rabbi Dov Zakheim](#) had access to Boeings and to the very [Flight Termination System](#) incorporating a [Command Transmitter](#) that was capable of electronically hijacking a plane and crashing it into a building, no suicide or Cessna drop-out pilots required. The paranoid Islamophobes must invariably fail to see the relevance of the fact that Zakheim, a dual nationality Israeli-American and rabid Zionist, had co-authored "[Rebuilding America's Defenses](#)", a position paper by [the Project for the New American Century](#) PNAC) in 2000, which called for a new "Pearl Harbor" type of incident which would provide a pretext for US military moves to boost its global hegemony, with the signatories at the bottom of the document clearly including one Dov Zakheim (of) System Planning Corporation, the company whose [Radar Physics Group](#) manufactures a [Flight Termination System](#) and a [Command Transmitter System](#), and with other signatories on the document including neocons [I Lewis "Scooter" Libby](#), Paul Wolfowitz, and William Kristol. The fruitcakes must hold that it was merely coincidental that [Rabbi Dov Zakheim](#) was [Pentagon Comptroller as Rumsfeld announced on September 10, 2001 that \\$2+ trillion of Pentagon transaction could not be accounted for](#), and that Zakheim delivered a *dvar Torah* at a [2002 gathering of Chabad Lubavitchers on the Pentagon lawn](#) to commemorate the centennial of Menachem "the Rebbe" Schneerson's birth, of whom it was said, "The Rebbe did not leave a legacy. He left marching orders."

[Outstanding !](#)

This should be front-page news for all anti-zionist web sites, since it pinpoints a *specific individual* that helped engineer 9-11 and the murder of 3,000 Americans.

Dov Zakheim is now a vice president for Booz Allen Hamilton, Inc. -- a private and well-connected "consulting" agency that rakes in obscene profits, and is headquartered at McLean, Virginia.

Booz Allen developed the S.W.I.F.T. computer system that private international bankers use to control the planet.

Booz Allen developed the "Trailblazer" system the NSA uses to spy on Americans.

Booz Allen works very closely with Chertoff and the DHS, which the Federal Reserve uses to control America's economy (through the Dept. of Treasury, a subordinate to DHS).

Zakheim is connected with the highest echelons of international power. For his "outstanding contributions to peace and goodwill," he has been given every medal the US government can possibly give out.

He personally brought Cuntoleeza Rice into the fold, promising her power and riches if she would play along with 9-11.

Bush has had a serious crush on Rice's "brown sugar" since he first met her at Kennebunkport in August 1998.

Unfortunately Rice is wedded to Satan, although she has referred to Bush as "her husband."

'Flight 93' - A Zionist

Propaganda Movie

Commentary

By Stephen M. St. John

metatron.metatron@verizon.net

5-22-6

Citizen of the USA Stephen M. St. John addresses the international community here in New York City and Washington, all members of the U.S. Congress and other organizations and individuals, and reports that he brought his fortune cookie from the First Wok Chinese restaurant into the AMC Theater at 72nd Street and 3rd Avenue where he read "Character matters; leadership descends from character" before the lights dimmed.

Citizen St. John also viewed the Zionist propaganda film, "Flight 93," which was directed by English filmmaker Paul Greenglass for NBC Universal Inc., a subsidiary of the General Electric Company, a recipient of collateral largess resulting from the invasions and occupations triggered by the "New Pearl Harbor" attacks of 9/11.

Citizen St. John furthermore reports yet another conflict of interest when a lady with an electrified ball of frizzy hair sat in front of his seat and blocked his view; whereupon he moved to another seat but not before hearing the eccentric crone utter "Is the director related to Ethel Greenglass Rosenberg?" Having been just a toddler when Zionists Julius and Ethel Rosenberg were executed for nuclear espionage on 19 June 1953, and not knowing the direction of her blatant, rhetorical question, Citizen St. John did not reply and the harpy retorted with a sardonic "Hello?"

Finally, watching the film "Flight 93," Citizen St. John recalled the proverb of Solomon: "A wicked doer giveth heed to false lips; and the liar giveth ear to a naughty tongue." Proverbs 17:4. Wherefore Citizen St. John deploras the stupidity of credulous moviegoers who watch actors and actresses portray the passengers and alleged hijackers of United Flight 93 but have never asked themselves, "Where are the routine video surveillance tapes showing the hijackers and other passengers at any of the 'Category X' high security international airports from which the flights of 9/11 are said to have departed?"

Indeed! Where are these routine surveillance tapes showing any of the passengers including the alleged hijackers at Boston's Logan, Newark's Liberty or Washington's Dulles international airports? Why doesn't the Fourth Estate ask, where are these tapes showing them there? Why is one branded anti-Semitic for asking, where are those tapes showing them there? Isn't the high-tech lynching of Arabs a truly anti-Semitic act?

Citizen St. John also points out that the cell phone calls portrayed in "Flight 93" were impossible to make. While air phone calls were technically possible, they deserve strong skepticism in light of the blatant lies about the cell phone calls and lack of corroborating evidence. The only logical explanation for the phony cell phone calls, and very likely for the air phone calls as well, is impersonation by voice morphing, or voice mimicry, technology. Voice morphing would be just a technical add-on to remote-control technology built into the systems of all Boeing 757 and 767 jets.

Citizen St. John points to yet another deceit in "Flight 93"; Greenglass highlights the apparent confusion of NORAD personnel with regard to the need for authorization for a shutdown and the standard response of automatic scrambling of fighter jets to intercept a suspected hijacked jet. Authorization was not needed to launch intercept jets. Authorization was indeed needed only for a shutdown and only if the intercept jets could not successfully communicate with the suspected hijacked jet. This cinematic technique glosses over NORAD's aggravated -- if not purposeful -- dereliction of duty on 9/11. Little wonder, then, that the NORAD generals were promoted after 9/11, a fact not indicated in this movie -- not even in the postscripts. Little wonder, too, that the Governor of North Dakota pinned medals on the "Happy Hooligans" of the North Dakota Air National Guard, ostensibly for being a day late and a dollar short on 9/11-- another telling fact not indicated anywhere in this movie.

Finally, Citizen St. John notes what is perhaps the most blatant deception in the movie "Flight 93." Greenglass depicts the flight's ending in a nosedive -- as seen from the cockpit -- into a farm field near Shanksville, Pennsylvania, where, according to the official story, the jet punched a hole in the ground with a big explosion. This myth is belied by copious and reliable -- but suppressed -- evidence of a debris field extending 8 miles west from the

town of New Baltimore to Shanksville -- the obvious result of a shutdown by missiles.

Citizen St. John repeats the message contained in his fortune cookie: "Character matters; leadership descends from character." He asks, what can be said of those who wrap themselves in a lie and their flag? Given the fake phone calls from United Flight 93, and the fact that cockpit voice recorders do not pick up sound in the passenger cabin, Greenglass is presenting a fantasy. Given the fact that US Representative John Murtha knows about the 8 mile wide debris field in what was his district on 9/11 (before gerrymandering), one must ask, what compels this man to remain silent about the truth? What pressures does this Greenglass movie put on him and his ilk to maintain the BIG LIE of 9/11?

[Dov Zakheim is definitely](#)

Dov Zakheim is definitely one of the prime suspects of 9/11 and should be investigated. But he is protected at the highest levels. At the Lubavitch level. It would be easier to investigate Dick Cheney, or better yet, Larry Silverstein.

In older times, what would happen is that a group of pissed off citizens would break into Silverstein's house, capture him and torture him into he confessed, before proceeding to hang him publicly. Remember Leo Frank.
