What is the House trying to do? Manifest Phil Giraldi's article here?:

Letter 1 to bonehead Boehner:

Khalid Sheikh Mohammad involvement in the terror upon America, “By his own account...stemmed from his violent disagreement with U.S. foreign policy favoring Israel.”

Abdulmutallab's Christmas Day 2009, attempt to blow up a plane was fueled by “his sympathies toward the Palestinians and anger over Israel's actions in Gaza.”

**RE: Israel, John Bolton and H.Res. 1553**

The resolution declares preemptive support for Israel to “use all means necessary,” to “eliminate nuclear threats” posed by Iran.

What about the threats posed by:

## 5:35 US and Israeli Nuclear Deceptions

In 1963, Shimon Peres, was Israel's Deputy Minister of Defense met with President John Kennedy, at the White House.

Kennedy told Peres, "You know that we follow very closely the discovery of any nuclear development in the region. This could create a very dangerous situation. For this reason we monitor your nuclear effort. What could you tell me about this?"

Peres replied, "I can tell you most clearly that we will not introduce nuclear weapons to the region, and certainly we will not be the first."

By September of 1986, Peres was convulsing over Vanunu, who had been employed as a lowly tech in his progeny; Israel's clandestine underground nuclear weapons centre in the Negev called the Dimona.

Peres ordered the Mossad, to "Bring the son of a bitch back here."

Peres ordered Vanunu's kidnapping that included a clubbing, drugging and being flung upon an Israeli cargo boat back to Israel for a closed door trial.

In 1985, before quitting the Dimona, Vanunu shot 56 photos of the top-secret labs and production processes that proved Israel had become a major nuclear power by stockpiling between 100 and 200 atomic bombs within the six underground levels where plutonium production, and secret nuclear weapons were assembled without any knowledge, debate or authorization from its own citizens. Israel has yet to allow International Inspectors into the aged Dimona plant which is leaking and endangering the health of its own citizens.

In 2005, Vanunu told me:

"President Kennedy tried to stop Israel from building atomic weapons. Kennedy insisted on an open internal inspection.

"When Johnson became president, he made an agreement with Israel that two senators would come every year to inspect. Before the senators would visit, the Israelis would build a wall to block the underground elevators and stairways. From 1963 to '69, the senators came, but they never knew about the wall that hid the rest of the Dimona from them.

"Nixon stopped the inspections and agreed to ignore the situation. As a result, Israel increased production. In 1986, there were over two hundred bombs. Today, they may have enough plutonium for ten bombs a year."

On 24 April 2004, Uri Avnery wrote:

"Everybody understands that Vanunu has no more secrets. What can a technician know after 18 years in jail, during which technology has advanced with giant steps?

"But gradually it becomes clear what the security establishment is really afraid of. Vanunu is in a position to expose the close partnership with the United States in the development of Israel's nuclear armaments.

"This worries Washington so much, that the man responsible in the State Department for 'arms control', Under-Secretary John Bolton, has come to Israel in person for the occasion. Vanunu, it appears, can cause severe damage to the mighty super-power.

"The Americans, it seems, are very worried. The Israeli security services have to dance to their tune. The world must be prevented by all available means from hearing, from the lips of a credible witness, that the Americans are full partners in Israel's nuclear arms program, while pretending to be the world's sheriff for the prevention of nuclear proliferation."

**THE VANUNU SAGA 2005-2010!**

Defense Secretary Robert Gates has argued "Another war in the Middle East is the last thing we need. In fact, I believe it

would be disastrous on a number of levels.” Numerous credible studies have concluded that such strikes would suck the US into the conflict that would engulf the region in war.

Top U.S. Defense and Intelligence officials have also said that an attack on Iran would only set back Iran’s nuclear program a couple years.

**The dangers of war, however, are great. It would put so much at risk:**

**The lives of innocent Americans, Israelis, and Iranians**

**The Pro-Democracy Movement in Iran**

**U.S. National Security and the stability of Iraq and Afghanistan**

**The global economy, which relies on oil flowing through the Persian Gulf**

**But war is exactly what many House Republicans are advocating in supporting this resolution.**

As the House Republican Leader, you cannot remain silent on such a critical national security issue sponsored by one-third of your colleagues. Especially considering that some analysts predict the upcoming midterm elections could place you in a position to be Speaker of the House, I implore you to make clear where you stand on this dangerous resolution. As voters go to the polls this fall to decide who to vote for in their Congressional race, you must make clear whether a vote for House Republicans is a vote for another disastrous war in the Middle East.

I strongly urge you to denounce this dangerous resolution, which provides explicit support for military action against Iran with no consideration of the affects such a conflict would have on U.S. national security.

**Congressman Boehner, violence only reaps more violence and the only way to peace is talking with your enemy-NOT bombing, sanctioning or torturing them.**

**LETTER 2:**

***Masters Of War***-by Bob Dylan, from which I excerpt:

You that build all the guns  
You that build the death planes  
You that build all the bombs  
You that hide behind walls  
You that hide behind desks  
I just want you to know  
I can see through your masks.

You that never done nothin’  
But build to destroy

And you turn and run farther

When the fast bullets fly.

Like Judas of old  
You lie and deceive  
A world war can be won

But I see through your eyes  
And I see through your brain  
Like I see through the water  
That runs down my drain.

You fasten all the triggers  
For the others to fire  
Then you set back and watch  
When the death count gets higher  
You hide in your mansion'  
As young people's blood  
Flows out of their bodies  
And is buried in the mud.

You've thrown the worst fear  
That can ever be hurled  
Fear to bring children  
Into the world  
For threatening my baby  
Unborn and unnamed  
You ain't worth the blood  
That runs in your veins.

How much do I know  
To talk out of turn  
You might say that I'm young  
You might say I'm unlearned  
But there's one thing I know

That even Jesus would never  
Forgive what you do.

Is your money that good  
Will it buy you forgiveness  
Do you think that it could  
...you will find  
When your death takes its toll  
All the money you made  
Will never buy back your soul...

Please pardon me for assuming the worst from Boehner, I don't know if he is a bonehead or not, but time will tell.

I do know that Bolton is certainly one and a flaming Zionist.

The last thing this country needs is another war. U.S. Congress should be ashamed for even bringing this resolution to a vote, as we all know that an Israeli attack on Iran guarantees a U.S. involvement and a threat to our national security. I fail to see any compelling US national/strategic interest in the U.S. support of Israel and the U.S. Congress's passionate attachment to Israel. One of the primary reasons US interests elsewhere in the region are threatened is because of our support for Israel. So, what do we gain from our support in return? Nothing, except the loss of American lives, and a bankrupt country. It's time that the American people vote these politicians out of office for their dual loyalty to Israel that harms the interest of America itself. Instead of protecting America's security these politicians bow to the Israeli lobby, in order to protect their own political careers, without any regards as to the number of American men and women dying for these politician's self-interest. They all need to be voted out of office, and people like John Bolton, Sean Hannity, and the likes should be given a one way ticket to Tel Aviv and never allowed back in this country. I can bet none of these people ever served a day in combat nor do they have children ever served a day of military service. I'm sick of these people who use innocent American lives to serve their political advances. We need to end this passionate attachment to Israel if we ever expect to win this war on terrorism. Israel is the biggest threat to world peace, and our support only endangers America's security. Let's bring this message to our representatives and demand that they do the same.

This resolution HAS NOT been ok'd yet. It was just recently introduced on 22 July 2010 and referred to the House Committee on Foreign Affairs where it has not been heard yet.

Nevertheless, its sponsor Rep. Louis Gohmert (R) Texas and its so far 46 co-sponsors should all be arrested and charged with treason for being agents of a foreign power.
