# Denmark Dolphin Slaughter - Barbarous, Inhuman People

11-18-9

Denmark is a big shame The sea is stained in red and in the mean while its not because of the climate effects of nature.

It's because of the cruelty that the human beings (civilised human) kill hundreds of the famous and intelligent Calderon dolphins.

This happens every year in Feroe iland in Denmark . In this slaughter the main participants are young teens. WHY? To show that they are adults and mature.... BULLLLsh

In this big celebration, nothing is missing for the fun. Everyone is participating in one way or the other, killing or looking at the cruelty "supporting like a spectator"

Is it necessary to mention that the dolphin calderon, like all the other species of dolphins, is near extinction and they never get near men to play and interact. In a way of PURE friendship

They don't die instantly; they are cut 1, 2 or 3 times with thick hocks.  
And at that time the dolphins produce a grim extremely compatible  
with the cry of a new born child.

But he suffers and there's no compassion till this sweet being slowly  
dies in its own blood

This is disgusting!! We will send this mail until we have 500 signatures and forward it to the nearest WWF office.

Take care of the world, it is your home!
