So how are disasters created by the zionists?

In the [previous post](#) I have shown clearly who profits from the disasters like the one visited upon defenseless people of Haiti.

Several years ago a unique "natural phenomenon" went almost unnoticed:

Almost, but not quite: there was a brave man who not only had the presence of mind to take a picture of the tornado, but also to [connect some dots](#).

On January 27, 2003 at around 9 a.m., an unusually powerful tornado struck the island of Cyprus, sweeping through the coastal city of Limassol, extensively damaging shops and homes, uprooting trees, tearing apart roofs and overturning vehicles. The enormous storm marked the first of its kind to hit the Middle East and Cyprus.

At the exact same time, in three different locations - at Houston Space Center, the Israeli Air Force Headquarters "somewhere" in Tel Aviv area and Space Shuttle Columbia - hundreds of Israeli Air Force members and meteorology experts celebrated the success of the joint "experiment"

carried out between the Israeli Air Force and NASA's Space Center. The "experiment" was entitled: "The creation of an artificial tornado, aided by dust storms".

You would think that the media would pick up the news and do its best to get to the root of the murderous scheme? But no, surprisingly (or not that surprisingly, taking into account how deep is jewish control of the main information channels). Of course, the Cyprus incident is only one of many telltale signs of the darkest and most diabolical conspiracy.

The conspiracy hides under an innocent abbreviation **HAARP** (High Frequency Active Auroral Research Program): ostensibly its purpose is defined in this way:

The goal of this program is to further advance our knowledge of the physical and electrical properties of the Earth's ionosphere which can affect our military and civilian communication and navigation systems.

But when you look a paragraph or two further, an ominous detail surfaces:

The HAARP program is jointly managed by the Air Force Research Laboratory and the Office of Naval Research.

Why, you must obviously ask, would ZOG, already deep enough in trouble in Iraq, Afghanistan and other hot areas of the world where its zionist owners guide it, let its military arm spend vast amounts of money on something seemingly this esoteric and useless? And why such secrecy where innocent "ionosphere research" is concerned? In their FAQ the following appears:

Is there a HAARP visitor's center?

There is currently no visitor's center.

Why not allow visitors to a place where pure science is the declared mission?

Only the courageous truth seekers have enough guts to say it publicly:

***HAARP:** Science used for the development of a global weapons system by manipulating the magnetic energy of the earth and all living things for the purpose of maximizing profits, increasing wealth, and concentrating the wealth and control in the hands of a few.*

***HAARP** is the ultimate weapon for the establishment of a Zionist state which has total control of Planet Earth.*

Now it makes much more sense. And the [real mission of HAARP is leaking](#), confirming that you cannot hide the truth forever:

ROGUE OCEAN WAVES documented Jan. 1, 1995 the year HAARP was turned on.

200 Supercargo ships have disappeared in the oceans without a trace in the past 20 years. BBC report: 5 ships a week now are disappearing.

TECTONIC EVENTS triggered by HAARP:

Kobe earthquake 1995 - bankrupted (the Queen's) Barings Merchant bank, City of London; Military excuse to put seismic (surveillance) network around Taiwan and Japan

Sumatra earthquake 2004 - Military excuse to put seismic (surveillance) network around Indian Ocean and shipping lanes for Asia's energy to come from Israel - US/UK gas pump for Asian countries cut off from central Asian pipelines

China earthquake 2008 - causing flooding and starvation; chaos before Olympics; tremendous cost of disaster to China economy

WEATHER MODIFICATION - Hurricanes,

*cyclones, tornadoes, storms by heating
sea surface just 1 degree*

*Hurricane Katrina 2005 - attempt to implement
landgrab in New Orleans
Black Sea Storm 2007 - environmental
devastation of Black Sea created
at UK HAARP facility at Aquiteria, CYPRUS, as
payback for Putin's
pipelines to Italy and southern Europe*

*Myanmar cyclone 2008 - flooded Myanmar one
week before the rice
harvest; Myanmar produces more rice than the
US, engineered famine
Iowa storms 2008 - destruction of major corn and
soy crops, will drive
meat and dairy prices up in US, famine agenda in
US*

There is more, much more. At least we know now precisely who is it to blame for 200,000 dead of Haiti, hundreds of thousands dead of 2004 Indian Ocean earthquake and tsunami and more and more... But Haarp's real purpose is known already, and some fearless leaders aren't afraid to [voice the knowledge](#):

*Venezuelan leader Hugo Chavez Wednesday
accused the United States of causing the
destruction in Haiti by testing a 'tectonic weapon'
to induce the catastrophic earthquake that hit the
country last week.*

Notice that it's Hugo Chavez, the man on whose life CIA has already issued several contracts and an Iranian news source (several earthquakes devastated vast areas of Iran in the last 15 years).

Notice also the peculiar geographic distribution of the disasters: predominantly Muslim countries, poor or otherwise troubled nations, people that somehow or other caused trouble to the ZOG or its big-nosed overlords. Notice that tsunamis, tornadoes or earthquakes seem to pass over Tel-Aviv, Jew York and similar, always hitting the central United States where white God-fearing folks who know what work is, try to

live in peace.

Learn more [about Haarp here](#). And watch and listen to the great American, Navy veteran, white Christian Governor Jesse Ventura, [exposing HAARP](#).

But if you think that HAARP is the only doomsday weapon in the hands of ZOG and Mossad, think again. HAARP is an expensive and cumbersome operation, and the overflowing nuclear arsenals of USA and its Middle Eastern zionist lackey eventually came handy as a non-radioactive compact micro-nuke was developed by the [Israeli nuclear plant in Dimona](#). Watch [this evidence](#) of one of the first uses of the micro-nuke. Remember the intrepid Australian journalist [Joe Vialls](#) whose work was a breakthrough where the micro-nukes are considered and whose mysterious death from a "heart attack" and subsequent disappearance of his Internet pages that unveiled the truth are the best proof that he hit a raw nerve.

Easy to deliver, untraceable and leaving no telltale radioactive residue, micro-nukes are widely used by Mossad and CIA for many False Flag ops, including the Bali bombing, WTC demolition and others. More significantly, increasingly powerful versions of the micro-nuke could have easily caused tectonic shifts necessary to end in the worst earthquakes known to man. Such as the one in Haiti. But again - you cannot hide the truth forever, and more and more astute clear-eyed folks become wise to the ways of the zionist murderers. Here is one, [Tammy Obeidallah](#) (not a Semetic person, even if her name may mislead), who was quick and intuitive enough to pick up the connection between the jewish "scientific experiments" and their disastrous use:

*Israel National News reported that tremors were created in the southern Negev in a joint project with the University of Hawaii and **funded by the US Department of Defense**. In the experiment, Israelis detonated 80 tons of explosive material to*

*simulate the intensity of a magnitude 3.0 earthquake. Supposedly, this will help scientists improve seismological and acoustic readings to predict future earthquakes. **It was not explained why the US Department of Defense was involved.***

Replace 80 tons of explosives by a 10 kiloton non-radioactive micro-nuke, and you have your recipe for a huge earthquake. And for a mass murder.

The zionists not only control the ZOG military and political establishment, they have implemented a [nuclear blackmail regime](#) that keeps even the most "rebellious" presidents meek and obedient. Their [long range missiles](#) with nuclear warheads, their submarines (built by the Germans as part of the massive "reparations" program) [equipped by nuclear-tipped cruise missiles](#), their [nuclear landmines](#) are, without a shadow of a doubt, smuggled and installed in many key places in Europe, America and other places.

And, of course, they are doing their best to prevent the other nations in the area from acquiring the nuclear weapons, it [goes without saying](#).

A friend of mine in MI6 told me earlier this year that for the first time, the Israeli nuclear arsenal is now bigger than the British nuclear arsenal.

And I am afraid that this friend in MI6 is dangerously blind: the zionist nuclear arsenal is much bigger and diverse than MI6's wildest dreams.

And we still not touched on the zionist entity chemical research, leading to development of hundreds of new, unknown and untraceable poisons they use to assassinate anyone who dares raise his voice. We still have to talk about their biological weaponry that threatens the whole world and is fully geared to cause horrible death to people of any race they choose. And more. So stay tuned.
