## [Germany set to sell Israel submarines](#)

[Press TV – April 22, 2010](#)

New reports say Israel is planning to establish a deep-sea navy and is negotiating with Germany over the purchase warships and submarines.

According to a report published by United Press International, Germany will supply Israel with three more Dolphin class attack submarines, several warships, and possibly two MEKO A-100 corvettes.

The MEKO variant sought by the Tel Aviv regime costs an estimated \$300 million.

The warship, with a range of 4,635 miles, can carry one medium-size helicopter and 24 weapons systems — 16 ship-to-shore and eight anti-ship missile launchers adapted to US weapons as well as air-defense missiles and automatic cannon.

Citing an unnamed Israeli source, the UPI report said that the Israeli navy would like even more Dolphins.

“Our ideal number would be nine — enough to ensure we have the necessary assets at sea to cover all relevant threats and targets,” UPI quoted the source as saying.

Israel had begun the negotiations over the program in October 2007 when the Israel Chief of Staff Lt. Gen. Gabi Ashkenazi visited Berlin.

The expansion program, which will transform the regime’s navy into a deep-water navy, has provoked outrage among German opposition parties, including the Social Democrats, who say weapons should not be sent to “crisis zones.”

However, Germany has provided special discounts on arms sales to Israel in the past. The Tel Aviv regime’s 2006 order for two Dolphin class submarines was approved despite the Social Democrats’ opposition to the deal.

2. The History of Jewish Human Sacrifice

At the dawn of civilization, the blood rite, in which human blood is drunk from the body of a still-living victim, was known to many tribes. However, only one people, that has never progressed beyond the Stone Age, has continued to practice the blood rite and ritual murder. This people are known to the world as Jews. Arnold Toynbee, a noted scholar, has called the Jews “a fossil people”.

5. Now this really makes sense, Israel has always threatened the world with its “samson option” meaning that if and when they are ever attacked and near defeat they will strike the major powers of the world with nuclear weapons from their subs,in other words if israel goes down they will take the world with them. Germany is FIRST on the list!
