Lung Cancer & Hydrogen Peroxide (& the Genius of Dr. Hulda Clark) Nov. 4, 2010

Hi Ken.,

My husband has lung cancer & has taken H2O2 intravenously But.. he wants to take it orally. We have the formula for 35% food grade but we can only buy 29% food grade peroxide in Canada now. I need to know how many drops to use of the 29% compared to the 35% . I just want to make sure he is going to get the correct amount to kill the cancer asap !

Thank you for your time.

Yvette.

Hello Yvette,

Before replying, I first have to say that anything I write here is not medical advice, but rather educational information only. It's against the law for anyone without a physician's license to offer medical advice in the USA.

Ok, if I had lung cancer, I think I would apply the technique which Bill Munroe used to address his lung cancer. I think I would spray a mist of 3% peroxide into the back of my throat and inhale this into my lungs on a regular basis. Here's an article and video from Bill explaining how he does that:

<http://educate-yourself.org/cn/hydrogenperoxide07feb05.shtml>

Here are more links you should read in applying this technique:

Taking Drops of Food Grade Hydrogen Peroxide & Water (Sep 20, 2008)

To dilute 29% down to 3.6%, this is what you do:

Add 8 parts distilled water to one part of 29% peroxide and you will wind up with 3.6% hydrogen peroxide.

Fro example, one ounce of 29% peroxide + 8 ozs of distilled water = 9 ozs of 3.6% hydrogen peroxide.

You might have more effective results from INHALING the peroxide mist versus ingesting drops of H2O2.

I would also study the latest book (2007) of Dr Hulda Clark, *The Cure & Prevention of All Cancers* and apply her recommendations. She had discovered what causes cancer and how to stop it dead in its tracks. Study her books and you can stop this cancer completely.

Thank You , Thank You , Thank you !!!!

I might actually sleep tonight!!! He has already been through the prostate cancer & the colon cancer.(surgeries) (no bag) Plus the radiation & chemo.(pills)

They told us that they couldn't do anything for his lung cancer because of the chance his lungs might collapse . (he already made his mind up not to do the chemical treatments) I just want him around for as many years as possible :) Also he has had 3 CT scans in the last year. PLUS a number of ultrasounds & one MRI.

Thank you again for letting me vent. :)

Yvette

Hi Yvette,

I might mention that I wrote in my [Cancer Treatment article](#) (originally composed in 1997) that after the orthodox cancer specialists poison you with their chemo and radiation, and after they've emptied your bank account, they will *always* wind up telling you: "**We can't do any more to help you**".

The reason that they *can't do any more to help you* is because the very basis of orthodox cancer "therapy" is about as **FLAWED** and **ILL ADVISED** as it can possibly be. You cannot **logically conclude that poisoning the body will enable the body to rid itself of cancer**. Poisoning the body, eventually and in most cases, will **KILL** the body.

I wish that more people who get a cancer diagnosis **would know in advance** that conventional cancer treatment is going to wreck their immune system and make it far more difficult to rescue the patient (although it is possible). If only **more people** would read and study Hulda's books **BEFORE** they get cancer, they would **know** what **NOT** to do and thus save the body from the wear and tear of chemo poisoning. If you read her books *before* you get a cancer diagnosis-and follow her info- you won't get cancer.

Cancer is a multi-factorial **process** and **not** a singular, biological event ("runaway cancer cells"). You might compare cancer to the functioning of an **automobile**. In order for an automobile to work, it needs a series of subsystems and components to be present and working in order for the car to run (ignition system, drive train, fuel injection system, exhaust system, etc.). The same goes for cancer.

If you are missing any of the **REQUIRED** subsystems and components that the cancering process **needs** to grow, then the cancering process **STOPS**. After you stop the cancering process, you then set about to remove the cancerous tumor itself - through natural means, meaning Nature based. When you do that, you have **CURED** yourself of cancer. And if you follow Hulda's advice, you will **REMAIN** cancer free for the remainder of your natural life.

To avoid getting cancer, you follow Hulda's advice and **AVOID** acquiring the **COMPONENTS** (metaphorically speaking) and the subsystems that **MUST** be in place for cancer to start and grow in the body. To date, **NO ONE** in the course of known human history has identified with greater precision and erudition **the complete etiology of cancer** growth, before Dr Hulda Clark. And I do mean **ALL** types of cancers, starting from its silent beginnings to its terminal phases.

Dr. Clark has achieved what no other person has accomplished to date: she has laid out (in her books) **the complete road map of cancer causation**. To take advantage of her important discoveries, you merely have to read and study her books and become your own "health care professional."

No one is going to take care of you **better** than *you*.

Keep me posted on your progress.

Regards, Ken Adachi
