## [Jewish Settler Flees Scene After Ramming Vehicle Into Mother with Two Little Girls](#)

[By Saed Bannoura – IMEMC & Agencies - May 16, 2010](#)

Palestinian medical sources in Bethlehem reported Saturday at night that a Jewish settler rammed his vehicle into a mother and her two girls in Al Jab'a village near Bethlehem, and fled the scene.

The sources identified the woman as Aneesa Hasan Al Tous, 35, and her two daughters Ro'a, 2 years old, and Nagham, 5. They were moved to Al Ahli Hospital In Hebron; the mom and one of her children are in moderate conditions while the second child is in a serious condition.

Eyewitnesses reported that the mother and her children were walking at the entrance of the village when the settler rammed his vehicle into them and fled the scene.

The Israeli army managed to apprehend the settler later on.

Al Jab'a is located south of Bethlehem and is under full Israeli security and military control and its residents are facing constant violations and attacks carried out by the settlers.

In a separate incident, resident Ahmad Al Alami, 22, from Beit Ummar town near Hebron, was also wounded after a settler rammed his vehicle into him. He was moved to Hadassah Israeli hospital in Jerusalem. His condition was described as moderate but stable. This time, the settler reportedly did not leave the scene and called an Israeli ambulance.

- The vast majority of these Jewish “Settlers” are not even real Jews, But are Khazarian Jews. They are the scum of the Earth. This is why most of these “Settlers” speak Russian. Because Khazaristan is a region mainly in Russia. They are the Freemasonic rulers of the banking industry. Israel is not Jewish. Is-Ra-El(Isis, Ra, Elohim)

is a Zionist state. Zionism is a creation of Freemasonry. Its main purpose is to utterly destroy all Monotheistic religions in a final war. Christians, Muslims and Real Hebrews are the enemies of Zionism.

2. Why did the guy flee the scene when he knew damn well he's going to get away with it anyhow? I thought Israelis had nothing to worry about when they kill Palestinians in cold blood. Yeah, "God's Chosen People, my rosy red ass."

4. There seems to be a developing trend in Israel to smash little Palestinian girls under the age of 5 with their cars. I guess picking off working kids from a distance with their sniper's rifle, between sips of refreshment, you know like that bad German did in Spielberg's "Schindler's List", just isn't as exciting anymore.

- o Some unkind persons called it `Swindler's List` probably because it lacked historical accuracy.

7. As the fear of not having this State that they were promised then the colonists as that is what they are not settlers they are paid to move to Israel by the Ashknazi Government and the Jews who are really American like Bibi. The blood line of the Askanazis is not Jewish they were money lenders and you have to admit they do love their shackle. The killing of children is bad no matter which society they come from and if their church is telling them that its okay then you have something deeply wrong with that society. I believe that those who are in Palestine as it was called when I was you know that this land is not their and never will be because of how they took it. I once asked why did people dislike Jews to an old relative and he said no matter were they go they have to take over and Balfour did not like the Jews as many of the Western elite did not like them but they were money leaders so if you can not pay the loan you gave something else in stead like making them a Lord, Victoria,s husband brought them in for money as he wanted to change England into Germany and his son was great friends with them like Cameron is and Clegg and Hague and the Royals they are all in debt to them greed and power is what they are after and so they sell their soul or title or wife.

Europe is no different I have always said Israel should have been one of the many states of Germany she how they would like nukes on their land. Palestine will never become Israel to much killing of the innocent and those countries who bank roll them will suffer. These people who drove their cars into these families were told to, to prove that they are a member of some group, I would say some rabbi school had a hand in this they keep calling god but its not him that answers.
