A New Declaration Of Independence From Israel

By Jim Kirwan
12-9-10

"...But it was impossible to save the Great Republic. She was rotten to the heart.

Lust of conquest had long ago done its work.

Trampling upon the helpless abroad had taught her, by a natural process, to endure with apathy the like at home; multitudes who had applauded the crushing of other people's liberties, lived to suffer for their mistake in their own persons.

The government was irrevocably in the hands of the prodigiously rich and their hangers-on; the suffrage was become a mere machine which they used as they chose. There was no principle but commercialism, no patriotism but of the pocket." -- Mark Twain 1835-1910

One possible suggestion that I received from a reader was to begin to take back this nation from the outlaws that have stolen her from her own people. The suggestion was to write a very simple and direct "Declaration of Independence

from Israel," that must be signed by everyone in the employ of the United States. It should follow the lines of the oath taken on Ellis Island by new arrivals as they entered the United States of America: Not the US Incorporated that has replaced that nation. (1)

The Declaration of Independence From Israel

"I hereby declare, on oath. That I will support and defend the Constitution and the laws of the United States of America against all enemies, foreign and domestic; that I will bear true faith and allegiance to the same; that I will bear arms on behalf of the United States when required by law; and that I take this obligation freely without any mental reservation or purpose of evasion. In particular as an employee of this government, either directly or indirectly I swear to support this Declaration of Independence from the foreign State of Israel; in all matters of policy both public and private that might come before me. SO HELP ME GOD...."

Any member of the government that does not sign this Declaration of Independence from Israel would automatically be fired and arrested, pending deportation back to Israel. This should eliminate any further confusion over loyalties and simultaneously remove any conflict-of-interest from arising for any person with a dual-citizenship that is working in or for the government today.

It would seem that given the fact that since these traitors to the United States are scattered throughout the government at all levels; only a Loyalty Oath for the United States that publicly rejects competing Israeli interests - might be the only way to separate the traitors from the rest of us. Whatever the language turns out to be: the first few of these "Declarations" must be given to the president, the vice-president and the leaders of the congress, the Cabinet and the Supreme Court, for their very public signing of this Loyalty Oath, on camera, and be shown to the public in prime time on national television. Each person having to swear to this oath orally so that there can be no misunderstanding as to exactly what is being signed.

Unfortunately since the corruption of this nations government has spread throughout every branch of government as well as society; there is almost nothing that the public can do through the government to correct this problem. This does not mean that we can do nothing. What this would mean is that those who reject

this Declaration of Independence From Israel, on-the-record, would no longer be protected by a dual citizenship that clashes with our most basic national needs.

Israel now forces all its citizens to take a similar oath; therefore Israel cannot officially object to this in any way.

Those that choose to support Israeli interests over American interests (those that will not sign this oath) must be removed from office wherever they are found, within the government: As to refuse to sign after you have already taken an oath of office amounts to High Treason, in a time of War. This might just go a very long way to taking back real control over this nation and over the policies that the public has been shut out of, when it comes time to "consider" any legislation or any on-the-record votes that are taken toward fixing what has gone wrong with this country.

Those of us that are not connected to Israel have been looking for something we could do to change things for the better-maybe this is that 'something' that could make a huge difference in taking back our power. Think about it and then contact The Vatic Project if you're interested in assisting with this potential solution to

something that has haunted this nation since before the Act of 1871.
