Will Obama Order A Nuclear Attack On American Cities?

Will Obama Order A Nuclear Attack On American Cities?

Did you know that Operation Northwoods, a US government plan to kill American citizens was identical to the Nazi plan, "Operation Himmler"?

Did you know that Operation Gladio was a US government plan put into operation that killed European citizens?

Former prominent Republican U.S. Congressman and CIA official Bob Barr stated that the U.S. is close to becoming a totalitarian society and that elements in government are using fear to try to bring this about.

Republican U.S. congressman Ron Paul stated that the government "is determined to have martial law." He also said a contrived "Gulf of Tonkin-type incident may occur to gain popular support for an attack on Iran."

Former National Security Adviser Brzezinski told the Senate that a terrorist act might be carried out in the U.S. and falsely blamed on Iran to justify war against that nation.

The former Assistant Secretary of the Treasury in the Reagan administration, Paul Craig Roberts, who is called the "Father of Reaganomics" and is a former editor and columnist for the Wall Street Journal, BusinessWeek, and Scripps Howard News Service, has said:

"Ask yourself: Would a government that has lied us into two wars and is working to lie us into an attack on Iran shrink from staging 'terrorist' attacks in order to remove opposition to its agenda? ... If the Bush administration wants to continue its wars in the Middle East and to entrench the 'unitary executive' at home, it will have to conduct some false flag operations that will both frighten and anger the American people and make them accept Bush's declaration of 'national emergency' and the return of the draft. Alternatively, the administration could simply allow any real terrorist plot to proceed without hindrance."

General Tommy Franks stated that if another terrorist attack occurs in the United States "the Constitution will likely be discarded in favor of a military form of government."

Daniel Ellsberg, the famous Pentagon Papers whistleblower, said "if there is another terror attack, I believe the president will get what he wants. And what he wants is a new Patriot Act, one that will make the current Patriot Act look like the Bill of Rights."

Former UN Weapons Inspector Scott Ritter stated before the Iraq war started that there were no weapons of mass destruction. He is now saying that he would not rule out staged government terror by the U.S. government. And British Parliament Member George Galloway stated that "there is a very real danger" that the American government will stage a false flag terror attack in order to justify war against Iran and to gain complete control domestically.

The abundance of reliable information in this essay suggests that not only has the U.S. in the past conducted false flag operations, but there is a possibility that 9/11 involved some element of this deceit, and a future false flag operation cannot be ruled out. Let us spread this news to all who care so that we might build the critical mass necessary to stop these secret operations and work together for a more caring civil society.

Special Note: This essay is an edited version of the well researched document available at <http://pledgeforamerica.com/2.html>. For a collection of reliable, verifiable information suggesting that 9/11 may have been a form of false flag operation, please see the 9/11

A Few Likely False Flag Operations:

1605 - The infamous Guy Fawkes plot to blow up the English Parliament. Actually an institutional false flag plot used as a pretext for war with Spain. Official history still repeats this deception. 2

1898 - The sinking of the USS Maine in Havana harbor was immediately pinned on the Spanish and the rallying call became, "Remember the Maine! To hell with Spain." William Randolph-Hearst enflamed anti-Spanish sentiment in his papers by claiming definitively that it was a Spanish plot. No reliable evidence was ever produced linking Spain to the event. It is now widely believed that the event was a mechanical failure or false flag operation.

1933 - The Reichstag Fire allows the Nazis to crack down on their opposition and take power. A naked cowering Dutch communist, Martin Van der Lubbe, is found on the scene and the Nazis immediately claim that the fire is a communist plot.

"The exact sequence of events will never be known, but Nazi storm troopers under the direction of Hermann Göring were also involved in torching the place. They had befriended the arsonist and may have known or even encouraged him to burn the Reichstag that night. The storm troopers, led by SA leader Karl Ernst, used the underground tunnel that connected Göring's residence with the cellar in the Reichstag. They entered the building, scattered gasoline and incendiaries, then hurried back through the tunnel." 3

After World War II, Operation Gladio was a "stay behind" operation by NATO, CIA, and MI6 to counter communist/leftist influence in Europe. These state-sponsored "secret armies" used false flag terrorism against their populations in order to frame left wing groups, influence elections, and justify increased "security." Gladio has been confirmed by various governments and condemned by the European Parliament.

1954 - The Lavon Affair, a "scandal over a failed Israeli covert operation in Egypt known as Operation Suzannah, in which U.S. and U.K. targets in Egypt were bombed and evidence left implicating the Egyptian Muslim Brotherhood; a textbook example of a false flag operation." 4
