I was on Kevin Barrett's radio show on Saturday, December 18. Kevin invited me to discuss my latest 9/11 research which exposes the Zionist criminal network behind the destruction of the steel from the World Trade Center. Some of the key people involved in this crucial aspect of the false-flag terror operation are discussed in my article entitled ["WikiLeaks and the 9/11 Crime Gang"](#).

There were about 300,000 tons of construction steel that remained in the rubble of the World Trade Center. An international network was in place to remove this crucial evidence and send it to steel mills in Asia where it was destroyed – far from the eyes of engineers and investigators.

The destruction of the steel was an essential part of the false-flag terror atrocity and was planned long in advance. Identifying the criminal network involved in the destruction of the evidence reveals the architect-level people behind 9/11. This is the subject of the final and conclusive chapter of my book, [Solving 9/11 – The Deception that Changed the World](#). This chapter should be ready in the beginning of 2011.

Barrett's show airs every Saturday on [American Freedom Radio](#) network. The one-hour show is archived and can be listened on my website by clicking [here](#) or from the show archive at:

<http://www.americanfreedomradio.com/archive/Truth-Jihad-32k-121810.mp3>

After the show, I received the following comment:

Dear Mr. Bollyn,

Thank you for your excellent work and research on 9/11. It's hard to imagine such evil snakes remain at large and unpunished for these crimes. My nephew, (name withheld), worked in the south tower, and was murdered that day. No amount of money would give me the satisfaction of beheading these criminals with an axe!

TAPI Pipeline – The Real Reason for 4 More Years of War

December 20, 2010

TAPI Gas Pipeline Deal Signed

Indian energy minister Murli Deora, Pakistani President Asif Ali Zardari, Turkmen President Kurbanguly Berdymukhamedov and Afghan President Hamid Karzai after signing TAPI agreement in Ashgabat, Turkmenistan, 11 December 2010

BROKEN PROMISES – Vietnam War veteran Dave Hancock protests at the White House on December 16. More than 60 percent of the American people are opposed to the Afghan War, according to a recent *Washington Post* poll. The Obama administration, elected on the promise to withdraw U.S. troops by July 2011, now says the U.S. will maintain combat troops in Afghanistan until December 2014. On December 17, the House passed a defense authorization bill (by a 341–48 vote) that authorizes the Pentagon to spend nearly \$160 billion on the wars in Iraq

and Afghanistan in 2011 without major restrictions on the conduct of operations. Why are U.S. (and NATO) troops being kept in Afghanistan for another 4 years? What's really going on there?

As I have reported since shortly after 9/11, the real reason for the U.S. invasion and occupation of Afghanistan is to build and secure a 1,080-mile long gas pipeline designed to carry trillions of dollars of Israeli-owned gas from Turkmenistan to Pakistan and India. In a 2009 article entitled "[Why Afghanistan](#)" I wrote about the role of Israeli intelligence in the TAPI gas pipeline project and its connection to 9/11:

Following the break-up of the Soviet Union, Israeli agents sought to gain control of the strategic assets of the newly independent Soviet republics. In mineral-rich Turkmenistan, a Mossad agent named Yosef A. Maiman was very successful in gaining control of the republic's immense resources of natural gas.

Yosef Maiman, born in Germany in 1946, grew up in Peru and studied in the United States before becoming an Israeli citizen in 1971. As an agent of Israeli intelligence, Maiman heads a network of Mossad-controlled companies that serve Israeli interests. As the chief executive of the Merhav Group, Maiman has controlled the development of Turkmenistan's gas resources. Maiman's key colleagues at Merhav are the former head of the Mossad, Shabtai Shavit, and Nimrod Novik, chief adviser to Shimon Peres, the current president of Israel.

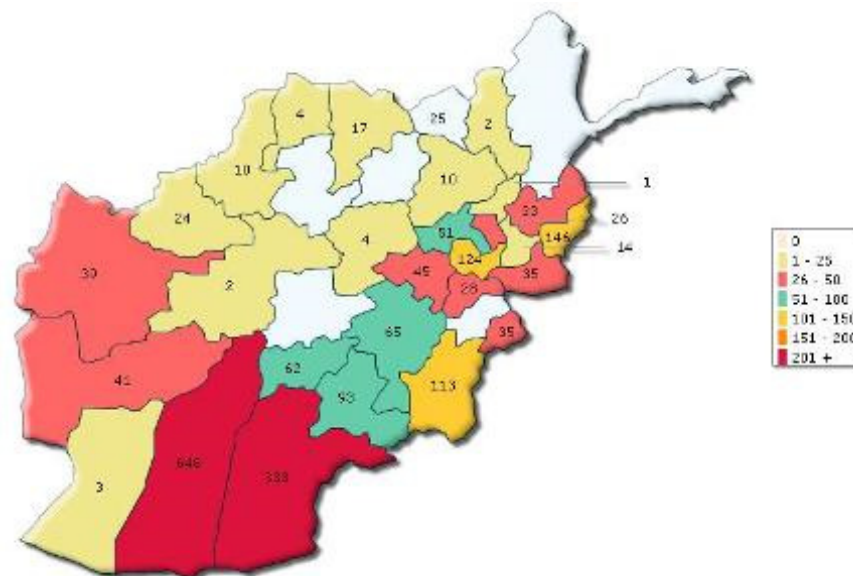

Maiman was described as "a leading miner" of Central Asian gas fields by the Jerusalem Post in 2004. Given their control of the immense gas resources of Turkmenistan, Maiman, Merhav, and the Mossad would all profit if and when the U.S.-led coalition were able to "pacify" and control Afghanistan so that the Turkmenistan-Afghanistan-Pakistan-India (TAPI) gas pipeline could be built allowing the gas of Turkmenistan to be sold to energy-hungry India. The TAPI pipeline project would bring billions of dollars into Mossad coffers every year. This is the real reason for the war in Afghanistan and why the Zionist-controlled Obama administration has increased the war effort in Central Asia. It has nothing to do with terrorism or 9-11.

The false-flag terror attacks of 9/11 were part of a strategic Israeli operation to bring the U.S. military into Afghanistan on a long-term mission on behalf of Israel's Turkmen gas enterprise. The Turkmenistan-Afghanistan-Pakistan-India (TAPI) pipeline is the real

reason that U.S. soldiers are fighting and dying in the southwestern Afghan provinces of Helmand and Kandahar. 9/11 was just the cover story for this pre-planned war of aggression – and it is nothing but a complete hoax.

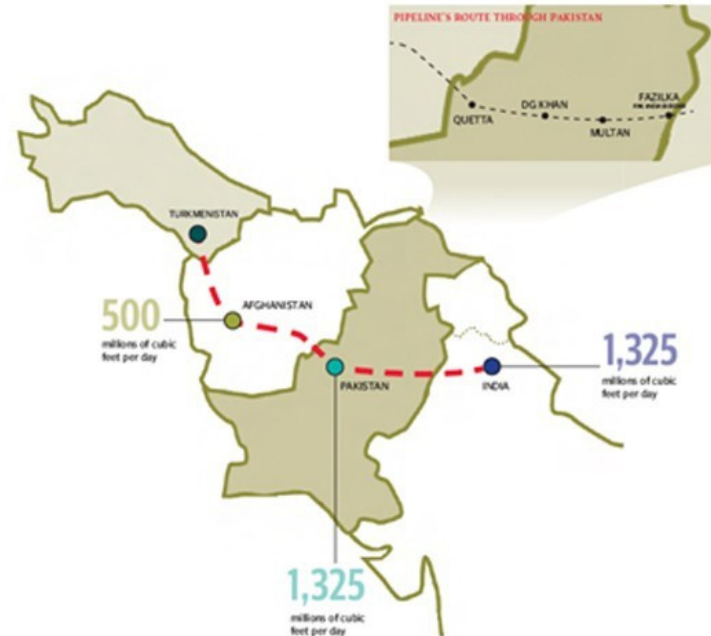

The TAPI pipeline is planned to be built along the Herat–Kandahar highway across western and southern Afghanistan.

FATALITIES BY PROVINCE – The route of the proposed TAPI gas pipeline is exactly where most U.S. troops have died in Afghanistan (the blood

red provinces of Helmand and Kandahar) . Americans, Canadians, and Europeans are fighting and dying in Afghanistan (and Pakistan) for Israeli profits. Source: [Operation Enduring Freedom](#), iCasualties.org

According to a [recent audit](#), the gas reserves of the fields (largely controlled by Mossad's Yosef Maiman and the Merhav Group) stand at between 4 and 14 trillion cubic metres. Under the pipeline framework agreement, Pakistan and India will each receive 1,325 million cubic feet per day (mcf) of gas, while Afghanistan will receive 500 mcf. According to the deal, the pipeline will have a diameter of 56 inches and will stretch over a distance of 1,640 kilometres from Turkmenistan to Fazilka in India. The pipeline is expected to commence gas flow by 2015. "The Afghanistan government has guaranteed that it will deploy at least 5,000 troops for the protection of the pipeline within its territory," said Naveed Qamar, Pakistan's Federal Minister for Petroleum and Natural Resources.

On December 11, a preliminary agreement was signed in Turkmenistan's capital, Ashgabat, by representatives of the four countries to proceed with plans for the American and Israeli-backed pipeline. Here are the basic points about the TAPI pipeline:

Construction of pipeline will be completed by 2014 (note this is the new end-date given for the U.S. military mission in Afghanistan, but don't believe it)

1,680 kilometer gas pipeline will supply 3.2 billion cubic feet of natural gas per day (much of this gas will come from Israeli/Mossad-owned gas fields in Turkmenistan, meaning immense profits for the Mossadniks who pulled off 9/11)

BALKANIZATION OF AF-PAK REGION

U.S. GANGSTER DIPLOMACY – U.S. Deputy Secretary of State Richard Armitage threatened to bomb Pakistan "back to the stone age" unless it

joined the fight against al-Qaeda. General Musharraf said that Armitage delivered the threat to Pakistan's intelligence director. "The intelligence director told me that Mr Armitage said, 'Be prepared to be bombed. Be prepared to go back to the Stone Age,'" Pakistan's President Pervez Musharraf said. Armitage is most likely the same diplomat who threatened the Afghan government two months before 9/11 – "You will either accept our carpet of gold or we will carpet-bomb you."

The C.I.A.'s armchair warriors bomb targets in Pakistan on a daily basis and the United States has 3,000 Special Forces in Pakistan, according to Zainab Cheema's recent article entitled "Return of Musharraf And Pakistan's Balkanization" about what the Zionist "War on Terror" and Mossad's TAPI project really mean for Pakistan:

Pakistan has been turned into a war-on-terror parking lot: 3000 American Special Forces units operate in Pakistan at the present. Pakistan's politicians have always shown remarkable generosity in passing down the costs of their decision-making to the people. Guantanamo is a thriving industry in Pakistan and the foremost field of Pakistan-US collaboration. Pakistan's police, army and frontier corps are part of the American security system in Pakistan...

Pakistan's balkanization is just as much about keeping rivals out as it is about securing the best perch in the playground. The Iran-Pakistan Friendship pipeline (IP) in the works (formerly the Iran-Pakistan-India pipeline before the US weaned away India with its nuclear fuel deal) is planning its route through Balochistan. While Pakistan can occasionally make such inconvenient deals with a neighbor that Israel and the US are determined to exterminate, the groomed Balochi tribes would follow more the acceptable Karzai pattern of subservient obedience. Meanwhile, terrorizing the PK is laying the ground for the US's own pipeline project snaking its way through Turkmenistan-Afghanistan-Pakistan-India (TAPI).

FINAL CHAPTER DUE IN JANUARY

My research is supported solely by donations from my readers. If you appreciate the material found in my research articles and would like to support the final chapter of my book, [Solving 9/11 - The Deception that Changed the World](#) - by all means send a donation.

This chapter deals with the international criminal network behind the destruction of the steel from the World Trade Center. I intend to send it to my supporters in January.

The chapter is based on a crucial discovery about the network behind the [criminal destruction of the steel](#) from the World Trade Center. This discovery leads straight to the highest-level culprits of 9/11, as one might expect, and reveals the key players in the criminal strategy behind the false-flag terror atrocity. The criminal network behind the false-flag terrorism of 9/11 is exposed by its key role and control over each and every aspect of the terror operation and the subsequent cover-up of the evidence. The destruction of the steel evidence from the World Trade Center was a critical part of the 9/11 hoax. The steel was tell-tale evidence that had to be quickly removed to controlled scrapyards and hastily destroyed in Asian smelters in order for the 9/11 hoax to

succeed. The secure network for the "recycling" of the steel was in place two years before 9/11. Every aspect of the massive terror scam was prepared well in advance.

This article will be the concluding chapter of my book, [Solving 9/11 – The Deception that Changed the World](#). If you think the truth about the false-flag terror attacks of 9/11, the grand deception and criminal hoax of our time, is something worth supporting -- donate today. Your support makes a big difference.

– G.V. in the U.S.A.

Dear Mr. Bollyn:

Whether the events of 9/11 are as you suspect a Mossad operation or not, the population under the current government, will in all likelihood never know. After all, the truth regarding the assassinations of Gaius Julius Caesar and Abraham Lincoln are still being debated, and even when after many generations hidden truths are discovered as in the 1915 sinking of the RMS *Lusitania* and the 1941 attack on Pearl Harbor, the general population remembers only the "official version". Behind all the smoke and mirrors of disinformation one thing however remains clear and that is the pernicious influence of the Zionists in the shaping of American policies, both foreign and domestic. Your lonely struggle and courageous willingness to openly question the influences that have done so much to shape policies since at least 1919 is a heroic effort which I therefore hardily applaud.

My research and analysis of 9-11 is very different from what you will find anywhere in the controlled mainstream media or alternative press. My 9-11 material will not be discussed in any of the 9-11 conferences or media coverage in the coming week not because it is incorrect or biased in any way. The only reason my 9-11 writings are not discussed in the media is because they get much too close to the truth, which is something nobody in the media wants to go anywhere near.

The American people are woefully deceived about what really happened on 9-11 and have become enslaved to lies, which is why U.S. troops are killing and being killed in Afghanistan and Iraq. The population of the United States is burdened by deception primarily because most Americans blindly trust in the cherished notion that they have a "free press". Trusting what they hear on television, Americans are terribly misinformed by the deception of the controlled media and press.

The American troops in Afghanistan are not waging war to protect the United States or to defend any American ideal. They are killing and dying in an evil war of conquest in a place few Americans had ever been prior to October 2001. Very few Americans understand why U.S. men and women are fighting in Afghanistan. It has nothing to do with 9-11 and everything to do with constructing a gas pipeline to carry Israeli-owned gas to India and China.

An American soldier in Afghanistan fighting for the Rothschilds' Zionist state of Israel

The controlled media is lying through its teeth to the American people just like the C.I.A., the F.B.I., and the so-called "elected" members of Congress and the U.S. government. Any person or agency who is party to deceiving the American people is clearly not on their side. These liars are the domestic enemies of the American republic. To deceive the people into sending their sons, husbands, fathers, and daughters to fight wars of aggression is criminal and treasonous.

My mission is to simply expose the deception in order to give the American people the information they need to protect themselves and their families. I need your help to do that. Please, contribute to Bollyn.com. Thank you.

"The fact that you are giving your book [[Solving 9-11](#)] away for free, which I'm sure you worked very hard at, is even all the more impressive. May your work enlighten everyone."

– R.W., professional flight instructor, USA

I saw your article on 9-11 in the [Tehran Times](#) yesterday and I was very impressed with your research. I had read about the Israel connection some time ago but after reading your article it put everything into perspective... [Noam] Chomsky and others have been writing about Israel for many years, but they are unwilling to really get to the heart of their activities like you have.

– Dr. C.J., Grand Junction, Colorado

"You are providing a unique and needed perspective on current events."

The European press is much more honest than the Zionist-controlled press in the United States about Israel and its egregious act of piracy on May 31, 2010. Such critical perspectives and information about Israeli state terrorism are not found in the U.S. media.

Badness always manifests in destruction and corruption, while goodness always manifests in preservation and benefit.

My research and writings are available on this website thanks to the contributions of concerned citizens who donate to my work. Thousands of people visit my website, read, copy and repost my material. My recent article "[How Ehud Barak Pulled Off 9-11](#)", for example, is currently found on thousands of websites -- but very few readers contribute.

The information and original articles found on my website are the result of years of research. You won't find such accurate and detailed information (and analysis) anywhere else, least of all in the controlled press of the United States. A recent editorial by veteran American journalist Alex Beam (*Newsweek* and *Boston Globe*) explains that the controlled press in the U.S. has a long history of publishing stories that are nothing but lies:

In Luce's day, a cadre of gorgeous, brilliant women from the Seven Sisters colleges backstopped this modern-day rendering plant as fact-checkers. In the late 1970s, about half the fact-checkers were men, so in addition to pouring vodka I checked facts, a process

that left me bleakly cynical about journalistic accuracy. We would publish whole stories that were lies — Francois Mitterrand's plan to destroy the French economy was a recurring theme — but at least the names were spelled correctly.

– [“Ye Olde Newsweek”](#) by Alex Beam

I have decided to self-publish my online book, [Solving 9-11: The Deception that Changed the World](#). The book is also now available as a [PDF document](#) of about 265 pages. I am planning to do the layout myself and print a thousand copies or so to be sent as gifts to donors to my research and writing. This will require getting the necessary layout design software, e.g. InDesign by Adobe, and a suitable laptop. This will cost a few thousand dollars (unless somebody donates the software) and I hope to have this done in the very near future. Any support or assistance (such as InDesign software) would be greatly appreciated. Publishing a book is a rather expensive proposition.

HOW TO USE THIS WEBSITE – Bollyn.com provides its readers with important information that is simply not available on television, in the mainstream media, or on other websites. The most recent articles are on the front page. The archived articles of more than 8 years of 9–11 research, which make up the second volume of my book [Solving 9-11](#), are being organized and can be found and printed from the [Table of Contents](#). The [List of Articles](#) is a useful index that can be sorted chronologically or alphabetically. One can simply browse by subject using the tabs in the left-hand margin. Bollyn and Professor Steven Jones examine the evidence of Thermite in the destruction of the World Trade Center at B.Y.U. in the spring of 2006. Jones subsequently found large amounts of super-Thermite in the dust of the pulverized Twin Towers proving that the WTC had been exploded using a extremely advanced nano-composite of Thermite. This evidence proves that neither Osama Bin Laden nor the Taliban had anything to do with the pre-planned demolition of the three towers on 9-11. The government explanations for the cause of the three collapses are nothing but fabrications and lies.

Four years ago I was brutally attacked at my home by three heavily-armed undercover police in an action that was instigated and co-ordinated by the Anti-Defamation League (ADL), the enforcement arm of the Zionist B'nai B'rith, the secret international order of Jewish Freemasons. In my case, the ADL influenced the police, the prosecution, the clerk, and the judge. What chance did I have to obtain justice in such a rigged and corrupt system? Although noticed by few, the pernicious influence of the ADL and the secret Elders of Zion affects all of us. The banning of all secret societies would have to be one of the basic tenets of any patriotic movement that aspires to "liberty and justice for all."

* * *

Each must for himself alone decide what is right and what is wrong, and which course is patriotic and which isn't. You cannot shirk this and be a
