15,000 March Against Israel's Crimes in Gaza Police riot; beat, pepper spray, and arrest protesters

January 11–Today, more than 15,000 people rallied in Times Square to protest Israel's ongoing assault against the people of Palestine . The demonstration stretched from 42nd Street south to 38 Street, along 7th Ave , and was followed by a spirited march past the New York Times building to the Time Warner building on 58th Street

where CNN's New York office is located.

Organizers reported provocative and hostile police behavior throughout the event. Police massed at the end of the march route began cursing, taunting and attacking protesters. One uniformed cop was reported as yelling, "Why don't you all blow yourselves up?"

Eyewitnesses reported that the police used pepper spray in an unprovoked assault on the protesters including teenagers and children as young as ten years old. Others were pushed and struck by police.

At least 30 people were arrested during the day, and everyone who was

arrested was beaten by police, some severely. Most were arrested while simply trying to leave at the end of the march, when police charged and began arresting and beating people.

One provocateur grabbed a Palestinian flag and began trampling on it. When onlookers attempted to retrieve the flag, they were attacked and nine were arrested.

Organizers are reporting that the attacks and arrests clearly targeted Arab youth. Lamis Deek, human rights attorney and co-chair of Al-Awda New York, said, "The systematic pattern of attacks and provocations and the sudden appearance of police amass at the end of the march were clearly a message from City Hall. This was clearly orchestrated and planned to try to attempt to intimidate and silence the mass protests that have taken place here, and will continue to take place. But these tactics will not keep us off the streets. We outnumbered the rally in support of Israel 's crimes by a hundred to one."

As this is being written, march organizers have received reports that an undetermined number of people, including children, are still being held by the NYPD.

Organizers plan to pack the courtroom at 100 Centre Street in Manhattan at 9 am tomorrow morning when some of those arrested are being arraigned.

Canadian politicians take the side of Israel as Gazan civilians are slaughtered, shame on them. Stop the slaughter of innocents and the attacks on Gaza's democratically elected government. Western

media is Israel biased and justifies Israel's cleansing of Gaza. The world is opening their eyes to the evil that is Israel. My prayers are for the safety and freedom of all citizens of Gaza.

does that mean that all police officers of New York City are "Goons" or are there a # of "Goons" dressed in police person's uniforms, working for the government and put on the payroll of the New York City Police Department. Should they not be identified as such, if it's true? 15,000 demonstrators in a city as large as New York, is like a needle in a haystack. Using words like avenge are antagonistic sounding and turns off people. Where are the left wing groups and the organized labor unions? Are they protecting their jobs in the war machines making industries? Without threatening them with "avenge" slogans, they shall have their just pay backs. The priests & Rabbies at the pulpet must all be occupied, reciting the "War Prayer . Peace & Sanity

some have suggested to all those who have allergy to pork and pigs to buy a small bottle of talcum powder and keep it with you. These days we seem to find many wild pigs especially in big cities.

Most if not all pigs have developed an intense aversion to talcum powder. If pigs bother you use the powder. Talcum powder is also useful as pork disinfectants. Display of talcum powder cans causes pigs to stop in mid stride.

If the Bible is not the LITERAL WORD OF GOD, then the Jewish “right” to Palestine is just a MYTH also.

The President of the United States has just admitted that the Bible is NOT LITERAL.

09 Dec 2008 Mr Bush, who leaves office January 20, told ABC television, Asked whether the Bible was literally true, Mr Bush replied: “Probably not. No, I’m not a literalist, but I think you can learn a lot from it.”
