## China, Russia and "Brain-washed" Nigerian Terrorists

The Specter of Terrorism has again raised its ugly head. We are being told that another Moslem, under the umbrella of the "invisible empire" known as Al Qaeda, run by a man on dialysis and his box-cutting allies, once again has broken through our high security systems in an attempt to blow up another piece of America.

From all appearances...

However, appearances can be deceiving. you see the world is not as simple, or complicated, as you have been programmed to believe.

**In today's world, there are only three spheres of influence:**

- 1. Western Europe, Great Britain, the United States and Israel.**
- 2. The former, and now becoming current, Soviet Union.**
- 3. The Chinese, North Korea and their satellites.**

Every nation in the world, every population, is under the influence or domination of one of the above. Reportedly, all three spheres of influence operate under the Globalist/Illuminati Agenda. Most of those that understand the Illuminati have viewed them as a global united front, run from the West. While this may have been true in the past, I am not too sure it is true today.

For Example, take the United Nations Security Council:

"The United Nations Security Council (UNSC) is one of the principal organs of the United Nations and is charged with the maintenance of international peace and security. Its powers, outlined in the United Nations Charter, include the establishment of peacekeeping operations, the establishment of international sanctions, and the authorization of military action. Its powers are exercised through United Nations Security Council Resolutions." ([Source](#))

So, if you want to know who is behind the "so-called" peacekeeping operations, which in many cases have been thinly veiled genocidal operations, the "buck stops here". Now for its membership:

"There are 15 members of the Security Council, consisting of five veto-wielding permanent members (China, France, Russia, United Kingdom, United States) and ten elected non-permanent members with two-year terms. (ibid)

The real power lies with the Big 5 who have Veto powers. One Veto and a resolution is dead.

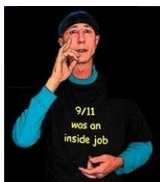

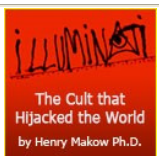

"Under Article 27 of the UN Charter, Security Council decisions on all substantive matters require the affirmative votes of nine members. A negative vote, or veto, also known as the rule of "great Power unanimity", by a permanent member prevents adoption of a proposal, even if it has received the required number of affirmative votes (9). Abstention is not regarded as a veto despite the wording of the Charter. **Since the Security Council's inception, China (ROC/PRC) has used its veto 6 times; France 18 times; Russia/USSR 123 times; the United Kingdom 32 times; and the United States 82 times. The majority of Russian/Soviet vetoes were in the first ten years of the Council's existence. Since 1984, China (PRC) has vetoed three resolutions; France three; Russia/USSR four; the United Kingdom ten; and the United States 43.** (ibid.)

Notice how Russia started out as the "outsider" who frequently used its veto power. Since 1984, The United States, by far, is the most frequent user of its veto power. This means that 43 times that we know of (since 1984), the United States has opposed policies that it felt went against its interests or its allies (primarily Israel). We now find ourself playing defense in the "New World Order".

The Western Illuminati/Luciferians/Satanists, never intended for things to get like this. Russia and China were supposed to fall behind the Aryan Nazis that call themselves globalists. So, what went wrong?

the Aryan Nazis that call themselves globalists. So, what went wrong:

1. The Aryan Nazi/Satanists ticked off the Chinese by pumping their country full of Opium over 100 years ago and, more recently, by creating the Island of "Formosa" (now Taiwan), to keep the Communists in check. Indo-China and the Viet-Nam war were also wars against China. We should also mention the Korean War and the partitioning of North and South. Also, the West did practically nothing to stop the Japanese from decimating China in World War II.

You see, the Chinese may have adopted "Communism", but they have not abandoned Taoism, Confucius or their ancestors. When family honor is disgraced (see the above paragraph), the Chinese will wait as long as it takes to "balance the scales". We don't understand these principals in the West. Neither do the Satanist Nazis that run our side of the world. As a result, they have sought to build consensus with a group of people that hate our collective guts and are waiting to scatter our ashes over their ancestors graves.

2. Ditto for the Russians. Like the Communist Chinese, Communist Russia was creation of the combination of Free-Masonry and Illuminism. Russia remembers the "front" that was promised them by the West when they were fighting Germans in Stalingrad. They remember the purges and the famines that wiped out millions and millions of people during Mass-murderer Stalin's "5 and 10" year plans. The West thought they had seen the end of the Russian Illuminati/Satanists/Communists with "Perestroika and Glasnost". Instead, what we have witnessed is a resurgence of Communist power under Putin.

The Neo-cons have done their best to "peel off" countries like Ukraine and Belarus and have failed. They have made the attempts because a Russian resurgence would place Israel, Afghanistan, Africa and the Middle East in serious jeopardy.

**So now, for the Big Secret.**

1. Nigeria is within the United States "sphere of influence". Just check your email if you don't believe me, chances are, some Nigerian right now is offering to wire transfer millions of dollars into your savings account. In fact, both Pakistan and Afghanistan (Al Qaeda's base of operations) are also in our sphere of influence.
2. The particular Nigerian that tried to blow up a plane heading into the United States is clearly an intelligence asset. This becomes apparent to anyone that knows anything about Delta programming (on Delta Airline's no less!) and the Illuminati. One witness reported that, in spite of very serious leg burns, the Nigerian "terrorist" did not show any emotion at all. His behavior is consistent with an intelligence asset that has learned how to disassociate through trauma based programming. Such an individual would appear to be in a "trance" while their pre-programmed script is running. Afterwards, they may or may not awaken to their current situation.
3. There was no "Allahu Akbar" or other emotional outburst that one would expect with a religious zealot. In fact, witnesses report the "terrorist" remained calm and unemotional.
4. This event was a planned failure. It failed because that is what the script called for. Its purpose is to create political capital that can be used to keep our young men and women in Afghanistan and Iraq. Russia does not benefit from American troops in these areas and neither does China. The Nigerian was a Western Intelligence Asset because only the Psychopaths that run the West are the beneficiaries.

**In Conclusion:**

Our only real external enemies are Russia and China. The Western Globalists know this by now, or they should know this. They are not the "brightest tools in the shed" so I can only hope that by using short words and clear illustrations they can learn something from this article.

If Iran is a threat to the United States, it will be with the full nuclear backing of Putin's Russia and his allies in Communist China. China and Russia like Israel as much as they like any country in the world (as evidenced by the numerous UN resolutions they proposed against Israel in the UN Security Council).

Our Western Illuminati better stop trying to poison and kill all of us ordinary citizens and start preparing for the next World War. I guarantee, that when the bombs start falling and the Russian and Chinese troops start their invasion, they get a double bonus for shooting down NAZI Aryans. After all, they are the Master Race.
