**President: Breaking Holocaust box means cutting Zionism vein****Tehran, Jan 28, IRNA – President Mahmoud Ahmadinejad said on Tuesday that examining the issue of Holocaust is equal to cutting the vein of the Zionist regime.**

“Zionists are plundering nations’ resources and their wealth by making use of politicians and political parties as well as dominating most of the world’s power, wealth and media sources,” said the president in a message sent to a conference on Holocaust held in the Sharif University of Technology in Tehran.

The conference was dubbed, ‘Holocaust? A Sacred lie by West.’

President Ahmadinejad added that the Zionist regime is the “illegitimate child” of the Holocaust phenomenon.

“After the WWII, the issue of Holocaust became an excuse for winners of the war, the US and Britain in particular, to spread their dominance and influence worldwide. The illegitimate Zionist regime is the child and one of the results of the Holocaust issue.”

President Ahmadinejad urged researchers and scholars to examine the issue of Holocaust and the network of Zionism very carefully and share their findings with other nations.

He stressed the need to bring the network of Zionism to light in order to help all nations understand its true nature more than ever.
