BUSH SIGNS MOST DRACONIAN GUN LAW IN US HISTORY!

Submitted by SadInAmerica on 2008, January 16 - 2:02pm.

President Bush Signs H.R. 660, H.R. 3690, S. 863, and H.R. 2640

H.R. 2640, the "NICS Improvement Amendments Act of 2007," which requires accurate information on individuals prohibited from possessing firearms to be transmitted by State and local government and Federal agencies to the Justice Department-administered National Instant Criminal Background Check System (NICS); and provides incentives for facilitating electronic transmission of such information to NICS.

Our strategy going forward must be to EXPOSE this bill and every alleged "conservative" that supported it. - I tried for the better part of 6 months to stop this, and the sad part is... The few of us that got out in front of 2640, were left for dead. -

The double dealing that went down here should be brought out into the light of day.

We were sold out by the NRA, the GOP, the media, our congress, and the President. - I ask you to call out these people in anyway you know how, and to work on the state level to stave off this attack on liberty. - For now the street actions are called off, but I hope you will SCREAM about this until we get some satisfaction. - [JB Read More](#)

RESOURCES FOR YOU TO UNDERSTAND HR.2640

The bill calls for a guilty before being proven innocent program of separating which Americans may realize the 2nd amendment and which may not. According to the bill any past, present, or future "thought crime" may threaten your right to purchase or own a firearm. Without a trial!

The core of the bill's problems is section 101(c)(1)(C), which makes you a "prohibited person" on the basis of a "medical finding of disability," so long as a citizen or veteran had an "opportunity" for some sort of "hearing" before some "lawful authority" (other than a court).

Presumably, this "lawful authority" could even be the psychiatrist himself.

*Note that unlike with an accused murderer, the hearing doesn't have to

occur. The "lawful authority" doesn't have to be unbiased. The citizen or veteran is not necessarily entitled to an attorney -- much less an attorney financed by the government. Children with past diagnosis for ADHD, People diagnosed with Alzheimer's, veterans dealing with PTSD and who seek psychiatric help, men and woman who are charged or suspected of domestic violence, and anyone currently under medication for psychiatric reasons what so ever... Are targets of HR 2640.

We are forcing people choose between what may be essential mental help and counseling, or their 2nd amendment rights.

Funding for implementation on a state level is based on a "secret formula" set by the US Attorney General in order for the states to obtain the funding necessary to pay for this very expensive data base.

We have alerted the public to the nascent no fly lists, the coming no work lists, now we must alert you to the no gun list. We have in effect become a nation of lists, in the order of Stalin's Russia, Hitler's Germany, or Mao's China. Unless we want to realize the communism, socialism, or fascism of these failed prison states, we must act NOW or lose everything the United States of America and its constitution stands for.

IN FACT: HR 2640 appears to be the MOTHERLOAD of all databases, and a prototype to centralize and consolidate a national or global super-database to separate those humans loyal to the establishment, and those who are not. Are you a "Bad Machine"?

So where is the NRA in all of this? It was in fact the NRA that helped legislate this bill all along. They own this lock stock and barrel! Here is what NRA spokesperson Rachel Parsons had to say about supporting HR 2640 with Ted Kennedy, Chuck Schumer, Diane Feinstein, Frank Lautenberg, and Carolyn McCarthy: "We want a clean bill. If this becomes a Christmas tree of gun control, we will absolutely remove support from this bill" Three months later they did NOT remove support.

And this is exactly what we ended up with. A Rockefeller Center style Christmas tree lit up with more gun CONTROL than all previous gun control bills combined. Like thieves in the night, in a secret vote, with NO PUBLIC debate, with no mention by all but one of the Republican presidential candidates (that one is Ron Paul) with no coverage by the big 5 media companies, without a care for liberty and the Constitution... Our 2nd amendment rights have been put in the hands of George W. Bush.

As we predicted, Mr. Bush, an alleged conservative did sign this nightmarish bill.

Dear Senator [Senator's Name Here], I am very disappointed that the Senate Judiciary Committee passed out HR 2640 on and unrecorded vote, just as the House did. This bill will solve nothing but will expose hundreds of thousands of private medical records to organizations that have already proven they cannot be trusted to accurately deal with personal information. Furthermore, the liability that people face when accused of being mentally incompetent to own a firearm will discourage people with personal issues from seeking medical help. I strongly urge you to reject the Senate version of HR 2640. Very truly yours, [Your Name Here]

[Will Americans Ever Even Use Their Guns?](#)

Lucille Dawidowitz (not verified) | 2009, January 16 - 2:00am

You know, I am not afraid to not own a gun because I know that Americans will never use their guns against their government if it attacks them. JB Campbell is the only one who's pointed this out. Americans are psychologically disarmed. They will never use their firearms. Most don't even shoot criminals that break into their homes for fear of seeing prison time for "murder". I say get a bow and a quiver of steel arrows. Rocks make lethal weapons for defense too. So do baseball bats and wooden spears. Besides, all the gov't has to do is cut the ammo supply and boom, your guns are worthless. Peeps need to be self sufficient, not dependent.

This bill is bad enough but wait; very soon ammunition for any gun will be regulated in ways that would make Hitler salivate all over himself. --jws

So, under this bill, George W Bush, who is a self-admitted substance abuser, should not be permitted to own a firearm, right? Shouldn't the bill also preclude anyone who has shot an
