EU aims to criminalise Holocaust denial - (Regardless of evidence)

By Reality Rabbit

More absurd legislation coming from the Khazarian run European Union. As part of their control grid, Khazars across Europe make sure the Holocaust never gets investigated or discussed. This will permit Israel to use the Holocaust excuse to rape, pillage, and plunder Palestine for eternity because Khazars are eternal victims. This will help insure that Israel can do what it wants in the world without any incrimination including bombing IRAN because the magic 6 million number can always be invoked because their reality will always be the truth regardless of evidence.

Offenders will face up to three years in jail under the proposed legislation, which will also apply to inciting violence against ethnic, religious or national groups and some other carefully worded anti-free speech rules. Inciters will be punished more than the the ones who make the decision to injure.

For the best summary of this new absurd legislation read the FT article: http://www.ft.com/cms/s/122134be-ed14-11db-9520-000b5df10621,dwp_uuid=70662e7c-3027-11da-ba9f-00000e2511c8,print=yes.html

Here is a typical day in the Gaza War: A second squad leader, who described the killing of the elderly woman, says he argued with his commander over loose rules of engagement that allowed the clearing out of houses by shooting without warning residents beforehand. After the orders were changed, soldiers had complained that "we should kill everyone there [in the centre of Gaza]. Everyone there is a terrorist." The squad leader said: "To write 'death to the Arabs' on walls, to take family pictures and spit on them, just because you can. I think this is the main thing: To understand how much the IDF has fallen in the realm of ethics."

Ehud Barak, Israel's Defence Minister, said: "I say to you that from the chief of staff down to the last soldier, the most moral army in the world stands ready to take orders from the government of Israel. I have no doubt that every incident will

be individually examined." (next will the EU pass a law that criminalizes deny that Israel has the most moral army in the world?) wait and see!

Now the truthful Khazar nation of Israel will now get even more special privileges to exterminate Palestinians thanks to their puppets in the EU Parliament which will enshrine the occult number of 6 million into the laws of the European Union because they say its so.

"The hidden agenda of civil rights legislation and so called hate laws in the 20th century was to make it illegal for society to defend itself against the takeover of its military, government, financial institutions, media, publishing, and educational systems by Khazarian Talmudic Jews whose goal is to sow hate and impregnate the collective subconscious mind of society with their values in order to create a world which serves Them and not God." - - One has to wonder if they are really aliens from another planet who were placed on planet earth to destroy it, and its inhabitants, in order to claim Earth for themselves.-- Perhaps UFOs are returning to earth now to check on progress.
