[Hillary Clinton admits that the CFR runs the Government](#)

Posted by [David Kramer](#) on July 17, 2009 10:07 AM

As with a recent [blog](#) I did about a Rothschild puppet blatantly promoting a One World Government solution to our “man-made” global warming “crisis,” now Secretary of State (and CFR member) Clinton [admits](#) in her latest address to the [Council on Foreign Relations](#) what Carroll Quigley wrote about in [Tragedy and Hope](#) (Chapter 65), Dan Smoot wrote about in [The Invisible Government](#), and Gary Allen wrote about in [None Dare Call It Conspiracy](#):

“Thank you very much, Richard, and I am delighted to be here in these new headquarters. I have been often to, I guess, the mother ship in New York City, but it’s good to have an outpost of the Council right here down the street from the State Department. **We get a lot of advice from the Council, so this will mean I won’t have as far to go to be told what we should be doing and how we should think about the future.** [emphasis mine]

I can assure you that when I was in public school in the 1960s and early 1970s, not once did I ever hear about an organization called the Council on Foreign Relations in any of my history classes. If this organization seems to have such a powerful influence on the Federal Government’s actions, why have I only been hearing about it in the past decade? Hmmmmm.

[Thanks to Travis]

UPDATE: Joe Barone sent this NBC [video](#) of the “entire” speech, i.e., *it cuts out the first paragraph* that I cited above. I repeat: Hmmmmm.

SECOND UPDATE: Adrian sent me the *uncensored* [video](#).
