Here in America, there seems to be quite a bit of confusion as to why the rest of the world was outraged at the Israeli Defense Force's recent incursion into Gaza which resulted in the deaths of 1300 dead Palestinians. We Americans can't understand why the rest of the world can't see that is that Israel is [constantly under bombardment from rocket attacks](#) launched by evil terrorists. While the thousands of rockets launched by Hamas rarely kill anyone, many Jews suffer horribly from shock and Iran is currently providing Hamas militants new weapons to wipe Israel off the map. In an effort to expose the horrors that Israelis are forced to endure on a daily basis, I have put together this brief pictorial review of the ongoing struggle of the IDF against Arab terrorists.

Here we see a suicide bombing attempt thwarted by two IDF soldiers at a Gaza checkpoint. Military checkpoints and limiting terrorist mobility are just of the methods used by the IDF that protects terrorists from killing innocent Jews.

Here we see an extremely rare sight: a tense and dangerous face off between an Israeli soldier and an infamous and defiant terrorist. My sources in Gaza informed me that the soldier was able to save hundreds of Jews on that day by preventing a terror attack.

While some terrorists are bold, most terrorists are known to be cowards. When confronted in a face to face encounter on even ground with the brave IDF, they usually react in this manner.

All Americans are aware that terrorists use innocent civilians as human shields, but some have never seen video or photos of the terrorists caught perpetrating this irreprehensible act. Here we see two terrorists blatantly using a woman as a human shield. This is outrageous! Where is the UN and the rest of the world's condemnation of these war crimes!?!

And where did the IDF learn how to fight these terrorists? Amazingly, they seemed to have ripped a page right from the Nazi playbook!

A lot of Americans will not get the sarcasm!

Actually, this sarcasm contains a grain of truth. Here it is: the "weapon" that Muslims have, and that Jews would like to have, is their birth rate. Secular Jews in Israel (and elsewhere) have a birth rate well below replacement. The only Jews who compete with Muslims in birth rate are the ultra-Orthodox ( the ones in the long black coats and big black hats) and the "settlers." In the US, a "settler" was usually someone from Europe who started a farm on land that used to belong to American Indians. In Israel, a "settler" is someone who lives in a trailer surrounded by a fence on land that used to belong to Arabs...but he usually does not start a farm. In fact, many settlers do little else but "settle" and have large families. The government of Israel has to cater to both groups because they vote and because they provide the children needed for the future of Israel.

My suggestion: find a way for the Palestinians to make good money and they will quit blowing up Jews and having large families. My estimate: each BMW takes the place of four kids. A BMW M3 takes the place of six kids! Even a Mitsubishi Evo takes out three. Big screen plasma TVs, motorcycles, condos with A/C and running water, and guess what? Arabs will be having 1.3 kids per family and be too busy to kill anybody.

I was born in NYC in 1952. My mother was murdered in a Flabber Gas Chamber by evil Germans a mere 6 months before I was born. Shortly afterward in 1941my entire family was rounded up & sent to Camp Feiertag along with 6 million other Jews from the Bronx and Long Island. I was separated from my family, denied even the most basic creature comforts such as soda&snacks,and forced to bathe in mass gravies. I was in a state of shock. I could hardly eat or sleep and to make matters worse, I had misplaced my cell phone charger. I felt powerless. This coming on the heels of a Hamas rocket attack that had left a scratch in my driveway, left me filling kind of sad. So I ask fans of the Holocaust to send me huge amounts of money to help a whining victim of the Kosher Armamaggedon Holohaux Minstral Show get over this injustice committed by those evil ZIONazi's. Cash is prefered, but I will accept checks, money orders and precious metals. TRUTH does not fear investigation! Investigate the Holocaust!

Well said Rabbi Chosen (if that IS your real name). I feel your pain. Just 2 months ago, I desperatly needed to call my broker, Bernie Madoff, to divest. Unfortunatly, my phone had no bars! He was arrested that night, and it cost me \$2.5 million. I'm sure the good taxpayers of the USA will find it in their hearts to do the right thing, bail me out, afterall, I too am a victim of the Goose Step. (That is, I run funny due to an old football injury.)

That any event is enshrined with the Divine Right of Things, and can not be questioned- despite so many blatant inconsistencies- is very very ominous for the future of truth in our world. Only absolute power behaves this way.

Blood test all of them. The Semites, whether Jewish or Arab, get to stay...everyone else - GET OUT. This would include 95% of the politicians and 90% of the population.

The rest would live in peace like they did for hundreds of years before political Zionism stole its way into control in 1948.

~While the thousands of rockets launched by Hamas rarely kill anyone~

There's your answer right there on its own - there are no Hamas rockets, only empty drain pipes with fins welded to them paraded for the cameras.

All is psyops for the nightly news, including the mention over the years of the occasional Israeli civilian killed, as none have been killed.

Don't believe me ? Just study the pictures and vids they have released over time of damage and casualties. It's all a laughable fraud.
