IRISH PALESTINE SOLIDARITY

BLOGGING FOR OUR BROTHERS AND SISTERS IN PALESTINE

19 FEBRUARY 2009

19/02/09 Is Israel controlling the Internet?

Today's diary will be a short but important one. I have recently noticed a few websites and some you tube accounts being suspended because they are anti-Zionist, or they are criticizing Israel's recent genocide in Gaza.

All Jews are not Zionists. Zionists are radical nutcases who believe any means justifies the end. This is exactly why you have seen no remorse regarding the close to 400 children killed in Gaza by the Israeli Army. It is also why you see Israel in breach of over 60 UN resolutions and international law. And it is also why you see Israel stealing more and more Palestinian land every day. It is very important for people to understand that Zionists control Israel these days, and they have a very strong foothold in America and American politics as well through lobby groups like AIPAC and many others. I'm stating the obvious here I know, but this is now expanding into free speech issues online and that effects everyone. Read on...

Over the next week I will make several posts regarding the seriousness of this situation. But for today consider this one:

If you Google the word "Jew" what do you get?

You get the top link being an apology and explanation by Google for some of the sites that Jews might see in the list of links that they may not like, such as sites that criticize Israel or are anti-Israel or anti-Zionist. The first link in the search results says "Offensive Search Results" a if you click it you get an explanation and apology. I kid you not.

Now, here is a screen shot of the results: [CLICK TO ENLARGE](#)

“An explanation of our search results.

If you recently used Google to search for the word "Jew," you may have seen results that were very disturbing. We assure you that the views expressed by the sites in your results are not in any way endorsed by Google. We'd like to explain why you're seeing these results when you conduct this search. A site's ranking in Google's search results relies heavily on computer algorithms using thousands of factors to calculate a page's relevance to a given query. Sometimes subtleties of language cause anomalies to appear that cannot be predicted. A search for "Jew" brings up one such unexpected result.

SNIP

If you use Google to search for "Judaism," "Jewish" or "Jewish people," the results are informative and relevant. So why is a search for "Jew" different? One reason is that the word "Jew" is often used in an anti-Semitic context. Jewish organizations are more likely to use the word "Jewish" when talking about members of their faith. The word has become somewhat charged linguistically, as noted on websites devoted to Jewish topics such as these

We apologize for the upsetting nature of the experience you had using Google and appreciate your taking the time to inform us about it.

The Google Team”

Now, I guarantee that if you search the word “America” you will find many sites that are anti-American, is there a nice little apology and explanation page to Americans? Nope, no way, nada...

So I wondered about African Americans, there are millions of disgusting skin head racists with filthy webpages, does google offer an apology and explanation to African Americans? I wondered, so I searched the term “KKK” to see if Google felt the need to also be sensitive to African Americans.

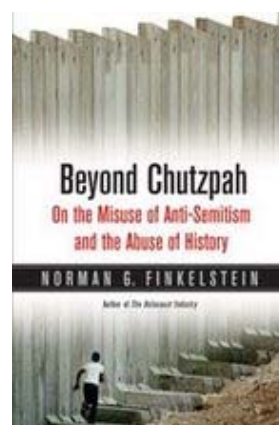

And did Google offer them a page with an apology like this below?

“We apologize for the upsetting nature of the experience you had using Google and appreciate your taking the time to inform us about it.

THE ETHNIC CLEANSING OF PALESTINE

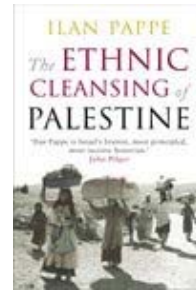

Nope, no way, nada! How can this be fair?

Why is it that only Jewish people get nice messages offering sincere apologies for any sites they may find offensive.

So by now are you asking yourself WTF? With all the millions of different nationalities and religions in the world who may find offensive pages, why only Jewish people get an explanation and apology from Google?

I am only attempting to point out how powerful these Jewish lobby groups are, both in the USA and around the world. Illustrating how much they control in our lives, and more importantly globally, and this now includes the internet and google.

In 2007 Jewish groups were attempting to have a site removed that appeared when you googled the word "Jew" see here from a message board I uncovered. [CLICK TO ENLARGE](#)

18,000 HOMES CAMPAIGN

It would appear their hard work has now paid off. Sites are being suspended and shut down, people being censored and Google having to post a link to an apology and explanation, just incase a Zionist is offended.

Now keep paying your tax dollars to Israel, while Americans go homeless and without a job, so they can murder Palestinians in your name and censor what you hear, read and see on television. And if you are African American, Muslim, Arab, Irish, Basque, Iranian, Chinese or any of the hundreds of other religions or cultures who

find insulting pages when you search your religion, nationality or ethnicity, then ask Google why you don't get an official Google "We're Sorry" page as well.

Here is the link for the results for the googled word "Jew"

And now here is the link to the explanation, which, as I stated is the very first link that appears when you search the word "Jew"

HI Eric, and welcome to my home away from home LOL

if this post troubled you there is much more. I have a real problem with un-needed or manipulated censorship, which, is exactly what they are attempting to do with these groups they now have working for them.
