## Israel to destroy Arab houses in al-Quds

Sun, 22 Feb 2009 17:40:19 GMT

**Israel has issued a warning for hundreds of Palestinians to evacuate east Jerusalem (al-Quds) before demolishing their homes in the area.**

"The owners of 80 houses in the al-Bustan neighborhood have received eviction notices saying that the structures will be destroyed because they are illegal," said Hatem Abdel Kader, an official responsible for the city's affairs in the Palestinian government.

Kader told AFP that "The (Jerusalem) municipality used this as a pretext to issue the demolition orders despite appeals by the residents."

He said that several of the houses served with demolition orders were built before 1967, when Israel captured east al-Quds during the Six Day War but that numerous extensions have been built since.

"The reason (for the notices) is not legal, but political," he said. "Israel wants to create a demographic disequilibrium in the city."

This is while a Palestinian resident said he received a demolition notice after failing to get a building permit from the Israeli authorities.

"I built my house a year and a half ago," he said. "I asked for a permit but never received authorization."

Israeli authorities have reportedly demolished some 350 houses in the neighborhood since 2004 under the same pretext.

well according to the Un the houses u r about to plow down r not in isrl. but in occupied palestine. u have no right to destroy houses that have been there long before isrl was created. ur justice for other ppls lands r unwarranted and u have no rights to them. go home ur not wanted in Palestine.

Khazar/Ashkenazi swine. You and every "Christian" that ever gave you a dime or set up his country and fellow Christians to be served up for your parasitic feeding should be dealt with.

**Why is it that you need the U.N.**

one one hand and condem them with the other. U.N. allowed Israel existance and you condemned it. Now you want their help to destroy Israel.

Israel should not be doing this, but I bet they really are suffering from the terrorism. Look at how the sunni arabs are working with saudis to terrorize shia muslims. They are increasingly threatening against Iran, Lebanon, Syria, Iraq, and Afghanistan. We should have a little sympathy for Israel since we are attacked by the same people who do not accept our existence either. Syria, Lebanon, Iran should make peace with Israel.

The voracious appetite for more territory is a dysfunction and disease. It is the same dysfunction the cancerous cell manifests, whose only goal is to multiply itself, unaware that it is bringing about its own destruction by destroying the organism of which it is part of. Zionism has natural inclination for evil.

 Jerusalem is the eternal capital of the Jewish people. Jewish kings in Jerusalem predate Islam by thousands of years. Is it stealing when Arabs build in Macca? Israel is Jewish Land!

so once those houses are ripped down what happens to the pals? because eventually the world will ask why isri is ripping down houses that are not part of isrl. eventually the pals will kill civilians in a final attempt to stop the theft of their land and the world will call them terrorists for fighting back. this is a sick nation and i have to agree that the jews r nothing but problems the world over. power to the ppl and may the zionists

end up in hell.

One may ask why the U.S. government offers unlimited support to a country that persistently and routinely violates principles that Americans hold sacred. The cancer cell's strategy seems to be to make life so unlivable for Palestinians that those with options will leave, and those without options are controlled by the zionist state. Is this a strategy that Americans can support?

Zionists settlements being built in the Occupied Territories while US continues to finance these settlements with ongoing very large annual funding given to cancer cell. A great deal of land around the settlements and along the interconnecting Israeli only road systems has been seized and cleared of Palestinian homes and centuries old olive groves.
