

# Israel Recruits Army Of Bloggers To Troll Anti-War Websites

Program mirrors U.S. Air Force, Centcom propaganda

Israel has announced that it is setting up a network of bloggers to combat websites deemed “problematic” by the Zionist state, presumably to propagandize about the necessity of killing babies and infants in the name of self-defense.

Israel’s global reputation for being the new Nazis was already firmly established, but the ceaseless and indiscriminate bombing of Gaza, labeled a war crime by international observers, has hardened opinion against the country and this has manifested itself nowhere more than the world wide web.

Israel’s response will be to flood the Internet with PR agents who will attempt to create a phony consensus that the Zionist state’s barbarian actions are justifiable.

**According to a report in Haaretz**, the Immigrant Absorption Ministry is setting up “an army of bloggers” who will “represent” Israel on “anti-Zionist blogs” in English, French, Spanish and German.

(ARTICLE CONTINUES BELOW)

The ministry's director-general Erez Halfon told Haaretz that over a million people who speak a second language are being targeted in a recruiting drive that will then direct the volunteers to web sites deemed "problematic." Presumably their mission would be to troll comment boards and forums with pro-Zionist arguments, a public relations stunt that we have seen employed by other entities such as Monsanto and more recently Centcom and the U.S. Air Force.

Such ongoing efforts to **infiltrate the Internet** and propagandize for the war on terror are well documented.

CENTCOM has programs underway to **infiltrate blogs and message boards** to ensure people, "have the opportunity to read positive stories,"presumably about how Iraq is a wonderful liberated democracy and the war on terror really is about protecting Americans from Al-CIAda.

In May 2008, it was revealed that the Pentagon was expanding "Information Operations" on the Internet with **purposefully set up foreign news websites**, designed to look like independent media sources but in reality carrying direct military propaganda.

More recently the New York Times **published an expose** on privately hired operatives who have been appearing on all major US news networks promoting the interests and operations of the Pentagon and generating favorable news coverage of the Bush administration while posing as independent military analysts.

This operation was **formally announced In 2006** when the Pentagon set up a unit to "better promote its message across 24-hour rolling news outlets, and particularly on the internet". Again, the Pentagon said the move would boost its ability to counter "inaccurate" news stories and exploit new media.

Just over a week ago, **the US Air Force announced a "counter-blog" response plan** aimed at fielding and reacting to material from bloggers who have "negative opinions about the US government and the Air Force."

The plan, created by the public affairs arm of the Air Force, includes a detailed twelve-point "counter blogging" flow-chart that dictates how officers should tackle what are described as "trolls," "ragers," and "misguided" online writers.

The Zionists have already been doing this.  
Go to popular forums like GLP and you see prozionist posts all over the place.

IT IS NOT WORKING THOUGH.

EVERYONE ON THE INTERNET RIGHT NOW IS CONDEMNING THE ACTS OF ISRAEL.

THEY ARE DESPERATE BECAUSE THE ILLUSION HAS FALLEN AND NOW EVERYONE SEES  
JEWS PERPETRATING A HOLOCAUST UPON THE PALESTINIAN PEOPLE.

They are desperate, but it is also intresting to see how many baa baas will fall for this propaganda.

of course the whole world had seen what happened, and now the true colours of the Zionists State came to light, which was never a surprise to me, way before this last attack on gaza.

But remember that the worst people's enemy is "MSI" Memory syndrome illness, soon they'll forget all about it, until the next massacre comes along, it's been going on for 60+ years on and off.

I believe you say much truth. Yes the human memory is faulty and the evil people that create chaos and war know it. This is why they exploit the human brain with propaganda, and mind control in many different ways: ( television, internet, cell-phones, electromagnetic weapons most of us ignore exist.

There is no excuse killing innocent humans and when the world can see the babies and children, women and fathers that are not warriers but just struggling to survive it is shameful

to see the time it takes for the world to unite for Peace in a more loving world.

This alone should convince people that war is not the solution to Peace. Peace is achieved in peace and the day humans will stop enrolling in the military like sheep brainwashed for war, planet earth will be a better place to live.

Peace to all good peaceful humans on this planet

Thanks Jan. You know if they would be more honest about Dimona and their nuclear weapons capability I would have more respect for the Zionists.

Yes, more work needs to be done to explain that Israel has no choice but to defend itself using force.

UNICEF and other organizations involved in Family Planning activities should offer more help to Palestinians in order to normalize its birth rate to 2 birth per women.

Overpopulation - is what causes tension between Israel and Palestinians.

Egypt: current birth rate 2.7- 3 babies per women

Jordan : 3 babies per women

Gaza- 6.1 babies per women.

Niger - 7 babies per women.

Gazian birth rate is much higher than regional birth rate!

they need to have this many babies to keep up with the rate of deaths from Zionist snipers who kill men women and child for fun.

the problem is that they are under occupation from a ruthless Babylonian Talmud reading gang of money changers.

the answer is forcing Israel back to the 1947 borders and then building a wall around Israel as it is them who are attacking everyone to steal their land and water.

as this map shows.

<http://whatreallyhappened.com/.....estine.jpg>

you cant beat the map...

it makes truth at a glance! Israel are killers.
