## Israeli Butchers Order 100 Family Members Into House Then Shell It, Killing 70

By: cosmo on: 09.01.2009 [07:48 ] (173 reads)

The talmudist zionist are practising their talmud by the letter, however, these are a losers acts and if they think they can put pressure on Hamas through butchering civilians that is not going to change the military situation on the ground, that they are stuck in a quagmire with no exit.

The zioentity is on its way down through a fast lane.

Israeli Butchers Order 100 Family Members Into House Then Shell It, Killing 70

For those who still believe the Israeli lie that they are not targeting civilians, and that if they do target civilians, then those civilians (including infants) must be "terrorists," this is a recount of the butchery displayed by the US-funded Israeli military earlier this week.

According to surviving members of the al-Samouni family, on Sunday of this past week, Israeli soldiers ordered approximately 100 members of the extended al-Samouni family to gather into one single house in the town of Zeitoun near Gaza City. Just after dawn the following morning, knowing that the house was filled with civilians including mothers with infants and children, the Israeli military repeatedly shelled the house, killing approximately 70 members of the family.

As reported in the Telegraph.co.uk, "A handful of survivors, some wounded, others carrying dead or dying infants, made it on foot to Gaza's main north-south road before they were given lifts to hospital. Three small children were buried in Gaza City that afternoon."

Apparently, medical personnel in convoys led by the International Committee of the Red Cross (ICRC) made several attempts to rescue the wounded in the area, but were forced to turn back and retreat after the Israeli military began shooting at them.

In another report, the ICRC accused the Israeli military of "unacceptable" conduct violating international humanitarian laws, after ICRC spent four days attempting to arrange safe access to other bombed-out houses filled with wounded. When finally "allowed" to enter the bombed neighborhoods, in one house they discovered four young children near the bodies of their dead mothers. Having had no food or water in days, the children were too weak to stand.

It was necessary for the children and wounded to be taken to the hospital by donkey cart, because the Israelis had taken time to construct earthen walls that prevented rescue vehicles from reaching the wounded
