

Military Industrial Complex Prepares Mass Graves for U.S. Citizens

A usually quiet U.S. Department of Veterans Affairs Cemetery, has been unusually active lately. The National Memorial Cemetery of Arizona is a beautiful 225 acre facility located in Phoenix.

For the past 30-45 days in the early hours of the morning until sunset, a massive construction operation has been underway. Major amounts of earth have been excavated out about 9-10 feet deep and 600-1000 feet wide. There is multiple locations on the property like this. From the satellite view there appears to be more sections that have been covered with the concrete lids and backfilled to look as if nothing is there. ABC rock is put in place under the burial vaults for good drainage and solid bedding. This will help not contaminate ground water sources from decomposition of human bodies.

The cleanliness of the heavy equipment operation and the large perfect cuts of earth is impressive. These Massive

concrete boxes are transported from a nearby storage yard on various privately owned flatbed semi-trucks, then unloaded and put into place a half mile away at the actual mass grave site. They are installed tight together side by side with no space in between.

An interview was conducted between my friend and a truck driver involved in this operation. After beating around the bush for ten minutes, the driver admitted " I got paid a whole lot of money to speak good english." Take it for what it's worth but that sounds suspect. The truck driver also admitted "Each burial vault holds four caskets."

I took note that if caskets were not used you could fit 40 bodies or more in each one.

So if these were to hold four troops each and the truck driver did know what he was talking about; this would mean that there are plans in advance for over 4000 U.S. soldiers deaths.

If these are not to contain caskets and only bodies are inserted there could be room for over 40,000 civilians bodies.

Editor's note: On February 11, 2009, D. H. Williams, writing for the Daily Newscaster, reported on the revelations of an Indiana county municipal official in the vicinity of Chicago who revealed how FEMA and DHS were attempting to prepare "county officials to prepare a Hazard Mitigation Plan to deal with flooding, fires, high winds and tornadoes."

"FEMA inquired to where mass graves could be placed in the county and would they accept bodies from elsewhere," writes Williams.

if we the people would just reclaim our "sovereign citizenship" things of this nature could never happen, because as is stands as of right now if you have not reclaimed your "sovereign citizenship" you have no rights no declaration of independence rights, amendment rights, or any other right for that matter, THIS IS FACT that has been proven in the courts time after time, the only thing you have is 14th amendment privileges which can be given or taken at any time by the grantee. see now i know that many of you think its just a null adhesion contract that was voided by the state or federal government abuse, but that is simply not the case, because as long as whatever is being done is being done to a people who have a "birth certificate" no matter what it is, they can do it with the backing of the courts because the grantees are sovereign people who are making things, and restricting things from a non- sovereign people, within a sovereign state, within a united corporation. and so, by reclaiming your sovereign citizenship, it restores all the rights that you were given at birthright by the state in which your born. the sovereign people would be able to make decision with the full backing of the declaration of independence, and the amended rights

which where exchanged for "privileges" through adhesion contracts, please i challenge anyone who does not believe me or think im in left field about this to research, so you can see for yourself that what i speak of is FACT. please people it is the only other way then revolution to make the government get back into its proper smaller place working the the People!!!
 TO ALL THOSE BORN IN AMERICA, PLEASE RECLAIM YOUR SOVEREIGN CITIZENSHIP,
 INDIVIDUALLY DRAW THE LINE IN THE SAND, SO WE THE PEOPLE CAN MAKE THE PUSH!!!
 IF YOU ARE TO TAKE PLACE IN THE BATTLE OVER FREEDOM IN THE TRUE SENSE YOU CAN NOT,
 AND SHOULD NOT BE ACCEPTING ANY PRIVILEGE OR GRANT FROM THE OPPOSING FORCE,
 BECAUSE WE ALL KNOW WHAT ACCEPTING ANYTHING FROM OPPOSING FORCE/CORPERATION IS
 LABELED AS "TREASON, OR DOUBLE AGENT" THE SAD THING IS, IS THAT MOST WHO ARE, DO NOT
 EVEN KNOW THAT THEY ARE. WAKE UP!!WAKE UP!!!! RECLAIM WHAT IS RIGHTFULLY YOURS GIVEN
 TO at BIRTH, BY THE STATE IN WHICH YOU WHERE BORN!!!!!!!!!!!!!!

As opposed to secular, mumbo jumbo, humanist/marxist/darwinist mantra?
 Such as that employed by hitler, stalin, mao, pol pot, ghengis khan, shaka zulu, the roman whore church, antiochus, constatine, napolena and t rest of the occultic irrelevant who vomit out empty secular rhetoric?

The scriptures are proven and being proved true every day, particularly the exodus event of the parting of the Red Sea, so...it is YOU who are ignorant, regurgitating communist propagaanda, the bible speaks on your kind, being referred to as willingly ignorant...dumb on purpose!

Amen, Red! Why are we christians always the 'tolerant' ones? I'll NEVER complain about a heathen's right to 'sound off' in here. This is a free speech zone, as far as I'm concerned.

These Bible/God haters are the most whiny cry-babies around. I get annoyed by the moaning and bitching, but I'm not about to silence folks or tell them to leave. Heaven-bound or hell-bound...we're all in this 'war' together! Let's get on the same 'frequency'!

It's not that we hate when people talk about Religion and the Bible like it is the truth word for word... we just think you are morons who believe in a talking dead guy and other fairy tales. Plus half the holidays are surrounded in pagan tradition.... oh but wait... The Devil put all those other religions there just to fool us... same with dinosaur bones... all put there by Satan to fool us into believing that Christianity is the joke that it is...

Spirituality is a great thing for us all... I could not understand the existence of existence without the possibility of God... but something as limited as organized Religion can NEVER truly express all that is God... how could human words ever describe something far beyond our understanding.

If we cut out Religion in all of these topics, most of us would be on the same page. But someone always has to chime in about "The Bible says this... The Bible says that..." well... the bible was written by people who never met Jesus or God and thought the world was flat... modern science did not exist around that time so how else could they explain mysteries like illness and natural disasters.... none other than a God.. created in MAN's image to help explain the unexplainable.

So next time you see an article and want to post a response... try to leave out the GOD WILL SAVE ONLY THE RIGHTEOUS bullshit... The moment religion is put into the topic... the whole argument is sidetracked and half the people here are split in opinion... COMMON GROUND PEOPLE COMMON GROUND... the NWO doesn't need "cronies" on here putting out disinformation... we get split in our opinion because half of the arguments on here are about something that NO ONE IS 100% sure about... fuck ya I could be wrong and spend an eternity in hell... but all of you bible worshipers could be wrong too... I mean.. how many people still worship Zeus...

We don't hate you: the ironic thing is that a lot of what you claim about Christians I would claim about 'you'. "It's not that we hate when people talk about Religion and the Bible like it is the truth word for word... we just think you are morons"

You are very confused about the truth of religion and seem to only have a very biased view based on propaganda. I'd suggest you take a deep and honest look for yourself at what the truth is. But your kind tend to be overwhelmed by general opinion, when in fact, being a Christian or even looking at it unbiasedly and truthfully takes real commitment and backbone.

Truth is power: I was wondering why that was the case. I noticed that the whole comment is constitutionally oriented. It would appear that poster can't even bother to read the comment he's replying to. That in itself describes the sad tale of atheism it would appear.

So they proved now that thousands of years ago some old guy parted the Red Sea???

Please source this stuff if you are going to make outlandish claims such as this.
