### Medical Mafia Book Author Provides The World The Smoking Gun Evidence Against The Swine Flu

Ghislaine Lanctôt  
<http://www.personocratia.com>  
July 2, 2009

Video : CBS 60 Minutes -1976 Swine Flu Vaccine  
Here is the link for the soon-to-be-famous 1979 CBS 60 Minutes episode concerning the 1976 swine flu pandemic in USA and the massive vaccination that followed. Note that this episode was banned after its first showing on television. It is now being released publicly on the internet for the first time, after 20 years!!!

Hello!

I am the author of the book The Medical Mafia (description: [http://www.personocratia.com/panda/modules/Boutique/doc\\_upload/backmm.pdf](http://www.personocratia.com/panda/modules/Boutique/doc_upload/backmm.pdf)).

Among the many topics mentioned in this volume, I was revealing the ineffectiveness and dangers of vaccination. At that time, I was a practicing physician in Quebec, Canada, under the name of Ghislaine Lanctôt, and the owner of numerous medical clinics. Because of my professional status, my words weighed

significantly in the public eye. The Medical Board's reaction was immediate and strong. Its leaders demanded that I resign as a physician. I answered that I would do so as long as they could prove that what I had written was false. The Medical Board replied with a call for my expulsion.

An 11 day trial followed (1995), where I appeared without any lawyer. The arguments rested mainly on vaccination. As I witnessed the disproportionate reaction of the Medical Board, I realized that, for the health establishment, the subject of vaccination was taboo. Unknowingly, I had opened a Pandora's box. I discovered that, despite official claims, vaccines have nothing to do with public health. Underneath the governmental stamp of approval, there are deep military, political and industrial interests.

Throughout the trial, the Medical Board brought many physicians as public health "experts". During the cross-examination of one of these, Dr. Richard Massé, I used an episode from the March 11th, 1979, 60 Minutes TV show from CBS, which was given to me privately by a supporter. This episode talked about the tragic and massive vaccination in USA during the 1976 swine flu outbreak (see link at the top). Attached below, I am including the answer made by the court president (judge) after viewing this episode. It is found on page 70 of the book The Trial of the Medical Mafia.

(description: [http://www.personocratia.com/panda/modules/Boutique/doc\\_upload/c4trialcolor.jpg](http://www.personocratia.com/panda/modules/Boutique/doc_upload/c4trialcolor.jpg)).

None of the physicians who were present during the trial took this information seriously. Amazing!

Since this trial, these same physicians have continued their career in public health, and now hold honourable positions. They are the very ones who are pushing the public toward a new world-wide epidemic. This A(H1N1) pandemic is concocted and orchestrated by the WHO (World Health Organization), and serves the same military, political and industrial interests as those of 1976. Have these physicians lost their memory, or were they serving those interests right from the beginning?

I am emerging from a long silence on the subject of vaccination, because I feel that, this time, the

stakes involved are huge. The consequences may spread much further than anticipated.

Here are the most important ones:

- Compulsory inoculation of vaccines containing a deadly virus;
- Massive and targeted reduction of the world population;
- Through vaccines, possible introduction of tiny microchips for mind control;
- Establishment of martial law and police state;
- Activation of the concentration camps built to accommodate the rebellious;
- Transfer of power from all nations to a single United Nations government;
- Fulfilment of the NWO (New World Order).

Take the time to look at the 1979 60 Minutes episode (link at the top).

It includes the governmental TV propaganda that was used in USA at the time to push the massive vaccination that followed.

Then, ask yourself : "Should I continue to trust physicians, politicians, and the World Health Organization (WHO)?"
