Missing Algerian Children Had Their Organs Removed

07Sep09

Breaking Update as of September 7th,2009

The following excerpt is a translation of Al Marada's news article published in Arabic on September 6th,2009.

New York City police were able to catch American Jews and arrest gang members who were involved in the **abduction of children from Algeria**, the group headed by a Jewish American named Levy Izhaq Rosenbaum, who was directly involved in the case of trading organs recently, which raised a storm of reactions in the United States and Israel, at the international police investigations.

Remarks by Prof. Mustafa, President of the Algerian national body to upgrade health and development of research, Khabar newspaper Algerian 6-9-2009, confirming that the arrest of the gang came after investigations showed that Algerian children abducted from cities in Western Algeria and taken to Morocco, were directly linked to Jewish rings which were using the children's organs to smuggle to Israel and the United States, in order to sell between \$20,000 and \$100,000 dollars for College.

The children were kidnapped from Algeria and taken to Morocco and then the organs were taken to Israel and the United States through other factions of the Israeli organ trafficking rings.

Mustafa said that the gang was deliberately abducting children from Algeria, and that there are eradication operations in Morocco, before being exported and sold in Israel and the United States, equipped for making these types of surgery's.

Serious dimensions

Algerian official stressed that the file dismantling international network of organ smuggling; Algerians, Moroccans and Africans were being used. He added that ongoing security coordination with "interpol" in Morocco found that Morocco alone cannot be

equipped to perform this type of special organ trafficking.

The arrests of Jewish led network does not mean that danger has passed, top officials and others have files which assert that there are other Jewish gangs who remains active in several countries .

US authorities arrested 44 people, including Rabbis and mayors in New Jersey last July;they all were a part of the money laundering activities and sale of human organs.

Last month, newspaper Aftonbladet Swedish report accused soldiers kidnapped Palestinians in the occupied West Bank and Gaza Strip to kill them and steal an organ trading, indicating a possible link between these practices and mafia human organs detected in the United States.

I'm doing this a long time," says Rosenbaum. He then added: "Let me explain to you one thing. It's illegal to buy or sell organs. ... So you cannot buy it. What you do is, you're giving a compensation for the time."

All of the donors "come from Israel," Rosenbaum is alleged to have said.

The price had gone up to \$160,000, he said, because "it's hard to get people," noting that Israel had passed laws prohibiting the sale of human **organs**, the complaint states.

The agents had already paid \$10,000 and were told to bring another \$70,000 at a meeting scheduled for this week. "I prefer you do it with cash," the complaint quotes Rosenbaum as saying.

The bodies are literally piling up so high that even Israel cannot declare a national state of 'let's hide under the hasbara and shout anti-semite until they all stop and blame the arabs again'...

I cannot hold back a smile every time I see another putrid article exposing the illegal state in all of its sadistic glory.

This is a worldwide phenom. It is a core black racket in CHINA linked directly to Israel and their 'specialists'. The same swine at the top are into child sex trafficking, drugs, porn etc.using the same vendors and routes. Arabs been warning for over a decade but zio-controlled Western media succeeded in getting them all dismissed as "anti-semitic jew-hating" paranoids.

I've had a look at the Neturei Karta website and the last entry was for 8 July, so given that the arrest of a batch of Rabbis and related others in NY/NJ was reported 23 July it will be interesting to see if the next entry is silent about organ trafficking, or whether if it is discussed is limited to just Levy-Izhak Rosenbaum or then goes on to discuss the report in the Aftonbladet and also, not least, Kawther Salam's direct knowledge of what went on in Palestine.

I remember when the in NJ broke, I predicted we would be hearing more of these types of stories out of Israel. This whole thing doesn't surprise or shock me one bit – I just hope people wake up to what is going on not just with this organ trafficking but with everything going on within Israel & with the Palestinian people.
