The Murder Of JFK Jr - Ten Years Later

By Barry Chamish
BarryChamish.com
10-5-9

At 9:20 PM, July 16, 1999, John Fitzgerald Kennedy Jr. radioed the tower at an airport near Martha's Vineyard, Massachusetts announcing that he was preparing to land. Seconds after, his plane exploded in mid-air, and this was witnessed by several witnesses including a local newspaper reporter and an attorney. On board were his wife Caroline Bessette and her sister Lauren. Lauren's luggage was recovered miles from the crash site, an event that can only be caused by a mid-air explosion.

For reasons that would later become clear, search for the missing plane was delayed for 5 hours, when Pres. William "Bill" Clinton sent out the equivalent of the Sixth Fleet to find the wreckage, hide it and the bodies from the snoop media, and though JFK Jr. was never in the Navy, and though the families did not consent, cremate the corpses, or evidence, and throw the ashes into the water in a quickly planned, elaborate, Navy funeral at sea.

Behind the scenes, a hokey cover story was concocted. The weather, which was perfect, became stormy. JFK Jr. had a gimpy leg. Reports by the FAA and FBI, both concluding foul play was involved, were buried, the arrival of Israeli PM Ehud Barak to Clinton's court the day before was given an alternative explanation...In fact JFK Jr.'s profound affect on Israel was never mentioned.

But it was huge. In the March, 1997 issue of his magazine, George, JFK Jr. became the only publisher of a major American publication to expose the conspiracy to murder Israeli Prime Minister Yitzhak Rabin. His 13 page expose shook the Israeli establishment to it's foundations:

Jewish Web Network News April 02 1997

Israeli Prime Minister Rabin's widow charged Tuesday that John Kennedy Jr.'s magazine crossed "the red line" by publishing an article by the mother

of her husband's assassin. "How, of all people, could he do such a thing?" Mrs. Kennedy asked of the son of President Kennedy who was assassinated in 1963. "Perhaps he needed a sensational story to sell his paper. I would expect that he would take a higher moral stand in his paper."

The article claimed that Amir was goaded to shoot Rabin by an undercover agent for the Shin Bet, Israel's security agency. (It) thought it would be done with a doctored gun. The security force let the attack happen so they could take credit for saving the prime minister.

And JFK Jr. was about to publish the final truth about Rabin's murder. This, Israel could not allow. It's operatives were called into action. This interview with JFK Jr.'s driver appeared in Maariv shortly after the Piper crash.

HE COULD BARELY WALK, HOW DID HE FLY?

Yoel Katzavman drove John Jr. 48 hours before the plane broke up. "He was a quiet and humble client."

"How could he have flown that plane with a broken leg? It was really suicidal?," said Yoel Katzavman (38), a limousine driver born in Hakiriot, who drove the Kennedy couple many times. Katzavman arrived in the US three years before and was employed by the Empire limousine service. He was often called to drive John Jr. and Carolyn Kennedy from their New York apartment. He recalls his last ride with John Jr., less than 48 hours before the final takeoff.

It was this self-serving interview that raised my suspicions and I went looking. Here is what I wrote in July, 2009:

So, now what do we do about the information coming out on the explosion of JFK Jr.'s plane? The day it happened I wrote that JFK Jr. was doing more than any other American media figure to get to the bottom of the Rabin assassination truth. I reminded readers that his magazine *George* ran a 13 page expose of the Shabak's involvement in the assassination. I suggested that this was a brave but risky stand. Then came the tidal wave of data. The FBI Preliminary Report confirming the bomb on the plane and noting the type of explosive was used by certain foreign intelligence services. This was followed by Catherine Crier of Fox TV's *The Crier Report*, announcing that JFK Jr. was about to meet high ranking Mossad officers to get the full story on the Rabin assassination. Then the German newspaper, *Franfurter Allgemeine Zeitung*, reported that Kennedy had met with the deputy chief of the Mossad, Amiram Levine to get the full story on the Rabin assassination two days before his plane went down. Then Maariv ran an interview with JFK's chauffeur, who happens to be Israeli. Then people started noting that Ehud Barak was in Washington at the time of Kennedy's finale in life.

And I was not alone in my investigation:

JFK JR. ASSASSINATION: Evidence continues to mount that JFK jr. and passengers were killed by an altitude triggered bomb planted in the tail section of the plane.

Here is the evidence: Kennedy*s sister in law's (Lauren Bessette) suitcase was found miles out in the ocean, away from the crash site. Lawyer Victor Pribanic was on the shore fishing and heard the explosion from the same location and time frame where the plane went down. The wreckage of the plane was recovered under *national security* conditions and no reporters were allowed to see or photograph it. The wreckage was loaded on to sealed containers and taken away. The FAA report indicated the recovered engine was fully functional. The presumed bad weather that caused Kennedy to spiral into the water was some 8 miles away from the crash site at that time, so the report of bad weather was part of the cover-up.

Soon after, a correspondent wrote me:

re JFK Jr.

At the time his plane went down, I was living in Massachusetts. Kerryville. The state has gone under. On the particular day, I heard the news.

A reporter for The Vineyard Gazette who was on the island, was quoted as having seen the plane come down to land, and to have seen a flash on the plane. Next thing the plane went out of control and crashed into the sea below. He was quoted on the internet saying this.

Having been a reporter, and having seen many other events go down (I get put in these situations, to witness, etc.) I decided to call the reporter in question. Somehow, I quickly reached him.

He repeated the story.

Next, the article disappeared from the internet, and no more report was made on the news which included any of the information from the eye-witness reporter.

Next, I noticed this disappearance of the article, and called the reporter back.

All of a sudden he no longer existed.

I couldn't find him no matter what I did, despite my having spoken to him hours before.

Gone.

There were reports that JFK Jr. was planning to run for the New York senate seat that Hillary Clinton coveted. Hence the motive. Indeed, that may have been a factor. Pres. Clinton called in the Navy to hide the crime, his so-called Shalom Haver friendship with Rabin was clearly a sham, and his wife's political ambitions could have been promoted by murdering JFK Jr.

But, looking at the priorities, Shimon Peres and the "peace" process had to be protected first. The brave and wonderful publisher JFK Jr. was set to explode all the myths surrounding the murder of Rabin. Unless he exploded first.
