Norwegian State Television: The World Trade Center was blown up

Schrödinger's Cat is a television program about scientific research, technology and popular science that runs on channel NRK1 every Thursday at 7:30 PM.

The average number of viewers is 487,000.

Their broadcast on September 10th 2009 (Norwegian) is described as follows on NRK's web pages for streaming video:

Niels Harrit chemist at the University of Copenhagen has scientific discoveries, which he believes undermines the official story of the 11 September tragedy. ... The presenter is Hanne Kari Fossum.

The issue is also followed by a news article aptly titled "The World Trade Center was blown up" (Auto-translate en) on Schrödinger's Cat program-page at the NRK website. This is the first written presentation of 9/11 Truth done by NRK Television.

You might call it more than fashionably late, but the content is no less groundbreaking considering Norway's NATO membership and military participation in US led operations in Afghanistan.

This program is part of the factual programming on NRK Television. It's crew has in this instance, bravely defied the dominating zero-9/11Truth-tolerance culture which still permeate everything under the TV-broadcasters news-programming umbrella.

Scientific Article + Interview w. Prof. Harrit

by LittleHelper on 22.09.2009 [07:03]

On YouTube, there is an interview with Prof. Niels Harrit about the findings of the international group of 9 scientists.

They were able to prove, that some special Nano-Thermite is present in several different samples of WTC dust. They could even show that those minute grains of Nano-Thermite in the samples are still active and can be ignited.

This finding is important, as it is the first direct proof that there was Nano-Thermite explosive present in the WTC buildings.

so what?

by antiyank on 22.09.2009 [09:53]

Call off the Afghanistan adventure? Send all troops home NOW?
al-Qaida a fake? War on terror a bluff?

Nothing of that will change. The Lie is now an Official state of Affairs.
We have to live a Lie, a Lie we KNOW is a Lie, day by day.

Until US collapses. Which hopefully won't take too long.
