Ukrainian kids, new victims of Israeli 'organ theft'

Thursday, 03 December 2009 14:35 PressTV

An international Israeli conspiracy to kidnap children and harvest their organs is gathering momentum as another shocking story divulges Tel Aviv's plot to import Ukrainian children and harvest their organs.

The story brings to light the fact that

Israel has brought some 25,000 Ukrainian children into the occupied entity over the past two years in order to harvest their organs. It cites a Ukrainian man's fruitless search for 15 children who had been adopted in Israel. The children had clearly been taken by Israeli medical centers, where they were used for 'spare parts'.

The account was unveiled five days ago by a Ukrainian philosophy professor and author, Vyacheslav Gudim, at a pseudo-academic conference in the Ukrainian capital, Kiev. Gudim told an estimated 300 attendees of the Kiev conference that it was essential that all Ukrainians be made aware of the genocide Israel was perpetrating.

The conference also featured two professors who presented a book blaming “the Zionists” for the Ukrainian famine of the 1930s, as well as the country's current condition.

Meanwhile, Ukrainians demonstrated outside the Israeli Embassy in Kiev on Tuesday to protest a letter signed by 26 Knesset members (MKs) condemning what they described as anti-Semitic remarks by presidential candidate Sergey Ratushnyak. Protesters chanted 'Ukraine isn't the Gaza Strip,' suggesting that they consider the effort by the Israeli MKs as an intervention in their country.

A story, published in the Arabic-language Algerian daily *al-Khabar* in September, reported that Interpol, the international police organization, has revealed the existence of 'a Jewish gang' that was 'involved in the abduction of children from Algeria and trafficking of their organs.'

According to the story, bands of Moroccans and Algerians had been roaming the streets of Algerian cities in an attempt to hunt around for young children. They then trafficked the kids across the border into the neighboring Morocco.

The children were then sold to Israelis and American Jews in Oujda, the capital of eastern Morocco, for the purpose of organ harvest in Israel and the United States.

The story is based on statements made by Mustafa Khayatti, head of the Algerian National Committee for the Development of Health Research. Khayatti maintains that the abduction of children in Algeria is linked to arrests made in New York and New Jersey at the end of July, in which several Jewish men were among the 44 arrested in connection to an investigation into illegal organ trafficking and political corruption.

The story comes in line with the article published last month in *Aftonbladet*, Sweden's largest circulation daily, suggesting that the Israeli army kidnapped and killed young Palestinians to harvest their organs. It shed light on the case of Bilal Ahmed Ghanem, a 19-year-old Palestinian man, who was shot dead in 1992 by Israeli forces in the West Bank village of Imatin.

Bostrom, who witnessed the man's killing, said Ghanem's body was abducted following the shooting and was returned at midnight, during an imposed curfew, several days later by the Israeli military with a cut from the stomach to the neck that had been stitched up.

Bostrom argued that an autopsy would be required if the cause of death was not apparent, while in this case it was clear that Bilal was shot dead.

After that incident, at least 20 Palestinian families told Bostrom that they suspected that the Israeli military had taken the organs of their sons after they had been killed and then taken away by Israeli forces before being dropped back in the area.

Worked at hospital in Los Angeles, CA and booked the cost of implants (livers, pancreas, kidneys, etc.) each approximately \$20,000 to \$25,000 each) = \$625 Million in Sales. USA has around 100,000 liver receipants waiting for new livers. Just think you too can have one of these poor child's liver. Keeps doctors & hospitals in business from inpatient revenue because the length of stay is longer than standard patient. (Take Vitimin D to build Immunity.) They always give flu shots to make sure the general population gets all kinds of illnesses. God bless those poor Ukrania children who were used for this insane purpose. Next we will be eating their flesh and bones made into bread (Manna) and force feed because with those good manufacturing (productivity) jobs in USA we will all be starving to deat in their USA concentration camps. In the Old Testament they ate their children when the nations rejected God and his Ways - The bible. All we like sheep have gone astray each onehas turned to his own way. We are causing our own the destruction to fall on all of us because we are self centered and haters of God. Only one by one can we call upon Jesus Christ for Salvation and Wisdom from God's Wordin order to walk a righteous and holy life. Repent today because without this action we are all doomed. The zionists plan to tear us apart one by one. God Bless You. Brian - Far Fetched...Wake up you are watching too much TV to see that the USA is being brought down and your freedoms and life are at stake. If they get away with this in other countries soon they will be doing it here. Don't trust anyone...Let God be true and every man a liar...The Bible.

Now Dunderstein may be a myth
Of this we may be sure.
But organ harvest business
is rampant among the poor
who miss a few youngsters
just orphans from the east ,
of course they just be "Goyem"
not welcome at the feast,
the Sephardic needs for body parts
with matching DNA.
In Gaza or the East Bank
can be harvested every day,
As long as ethnic cleansing assures
another rich patients life.
you can bet another orphan
could meet the Rabbi's knife.
With Dundersteins invention
A brief case full of ice.
In the great land of New Jersey
far away from strife.
for 50 thousand dollars
might save a rabbi's wife ,
then doubling the asking price
for all those needy Goys
.recycle those dead children parts from arab, girls and boys
policed up on Hamas land.
No I am not anti semite,
I have no bone to pick with Arabs or the Jews
But the rabbinical cash for body parts
has been daily in my news.
Sadly it's only the poor orphans
that have those parts to lose.
And wasting opportunity
those rabbi's just refuse
this explains their business ethics
and the methods that they use.

Well i know that jews believe that if someone die without some of his organs , he will remain without it when god rise the dead jews..
For example, if someone lost a finger and died .. he will be rised without a finger. And that is why they care so much to burry every piece of the deads.
and eveybody knows that jews love money ,so 25000 oragins can be also for sale world wide, not only to be used in Israel .

Brian - Far-fetched | 04-12-2009 11:46:11

As much as the government of Israel may have committed many atrocities in their own self-created homeland and surrounding areas, it's pretty far-fetched to think that they would ever go to this extreme as living child organ robbers.

Why not, they killed millions in the Ukraine. Look at Gaza they killed many children without hesitation. Look at Iraq, how many kids they killed there? Or Japan..... We know they're willing and have, why any number would be impossible? The demand for kidneys around the world, (especially where the alcoholics live) is great and the price is right.

History has showed us that there is no limit when it comes to those Zionist blood suckers.

In my opinion;all ukrainian body parts;especially the ones involved in digestion should be U.S.D.A inspected before being declared kosher. 😊

This article is obviously a plant by the Israeii Organ Group for Recycling Entrails (iOGRE) in order to get free adverting for their products and inform the public where they can go to get cheap organs from alternative surces.

Good show folks.

andrewwinkler - Understanding marketing | 04-12-2009 03:51:29

Any marketing activity has to establish first his target market and then choose an appropriate medium to communicate with it. Most people who are sufficiently exposed to anti-Zionist media to read above article would already be so unsympathetic towards the Israelis that he would never consider buying anything of them, leave alone human organs. Those readers who don't have such a negative attitude probably buy Israeli products wherever they can and are already aware of this source if they are in the market for human spare parts.

My conclusion: If anyone is into misinformation, it's not the author of above article, it's the writer of the anonymous comment.

"Diversinary Psych Ops!"

This story is obviously a "plant" by the Israeli Govt (and their Ukranian minions) in order to confuse and cast doubt in people's minds about the evilness and criminality of Israel. By publicising and promoting such a "Fantastic" and unbelievable story of 25,000 kidnap victims, Israel hopes this will cast doubt and suspicion in the general public about any criminal accusations made against Israel!!!

andrewwinkler - Fantastic and unbelievable? | 04-12-2009 03:23:32

Not so sure about that. While the Israeli market might not be big enough to absorb as many as 25,000 organs over a period of 1-2 years, the international market, especially in the U.S. and other Jewish colonies, certainly is.

it's very fantastic even if it's true ... i agree with you that the Israeli Govt is capable to do what you suggest and much more ... with the help of the blind stupid USA Govt and his citizens which suffer of a convoluted psycho-neurotic "IDIOTIC BLEEDING HEART" syndrome.

however, it's very strange that nobody, especially among the arch-enemies of Israel, did not make a big deal out of it.

To WeeWillie -- you're right 25,000 organ transplants seems unlikely, given the population of Jews.

However it doesn't have to be about Organ Transplants -- it could be Cullinary.

The Jews could be using these children's organs for Sweet Bread -- a delicatessen made from various internal organs.

For that matter it could be some mass blood letting of sacrificed gentile children in preparation for the Jews Year 6000, which marks the beginning of the Jews Sabbath Millennium, a period which according to Jewish mysticism will know No Gentile Life.

Such horrible crimes need not just death as punishment but also the harvesting of organs from the ones responsible for the crimes.

WeeWillie - 25000 a bit high.. | 03-12-2009 20:24:55
If I had read that the Israelis had taken the kidneys of 25 Ukrainian kids, I'd think it was plausible. But 25000!!!! How many kidney transplants do you think happen in a year?? Maybe 500,? 1000,?.. So, do you expect me to believe that the Israelis have a huge fridge where they warehouse all these kidneys?? That they are putting 25,000 or 50,000(if they take both kidneys) kidneys on ice????!!!! It is not that I put it past the Israelis or the Chinese or even the Americans to harvest organs. They are all a bunch of Con men in a liars contest. But this story is not believable..

whodareswings - The Dunderstein Song | 03-12-2009 17:14:26

There was a clever picklesnoot
Whose name was Dunderstein.
He specialized in organ sales
Of kidneys and spleens.
He made the finest transplant deals
That ever you did see.
Till one day he invented
An organ ice machine.
Oh Dunderstein, Oh Dunderstein
How could you be so mean
To ever have invented
The organ ice machine? (CHORUS)
Now all the little boys and girls
They'll never more be seen.
They all be shipped to Miami Beach
With Dunderstein's machine.
One day a goy came walkin'
A walkin' in the store.
He bought a couple of kidneys
And he laid them on the floor.
The goy began to whistle
And he whistled up a tune.
And soon the little kidneys
Went dancin' round the room. (Repeat Chorus)
One day the darn thing busted.
The problem was to know.
So Dunderstein, he climbed inside
To see what made it go.
His wife she had a nightmare
And walkin in her sleep.
She gave the crank one heck of a yank
And Dunderstein was spleen.
(Repeat Chorus)
