Obama's "Special Advisor for The Gulf and Southwest Asia", Dennis Ross, has been through the revolving door between the State Department and the major neoconservative institutions, including the Washington Institute for Near East Policy (WINEP), an AIPAC think tank. Obama's neocon is a signatory to the [Bipartisan Policy Center report](#), which says that:

"a military strike [on Iran] is a feasible option"

[Roger Cohen](#) writes at [NYTimes.com](#) that:

"I've read *think-tank scenarios* that have the United States bombing Iran's nuclear installations at Natanz, hitting Iranian military bases to limit the response, imposing a naval blockade and infiltrating special forces from Iraq or Afghanistan. After eight Bush-Cheney years, such plans exist at the Pentagon."

[Michael Flynn](#) of E.I. writes that:

"when Paul Wolfowitz was tapped to head the State Department's Policy Planning Staff after the election of Ronald Reagan, he included Ross in his team of assistants, which, according to Mann, would go on to become, over the next two decades, "the heart of a new neoconservative network within the foreign policy bureaucracy.

"Other Wolfowitz team members from that time included I. Lewis Libby, a Washington lawyer who later became

Bush's Air Force Secretary who resigned after being implicated in the Boeing tanker leasing scandal; Zalmay Khalilzad, US Ambassador to the UN and post-invasion ambassador to Iraq; Alan Keyes, the perennial Republican presidential candidate; and Francis Fukuyama, the "end of history" theorist and erstwhile neoconservative ally who turned against the faction after the Iraq invasion.

Globalizing Politicide	"Ross's close association with neoconservatives has deepened over the years, becoming especially pronounced in the wake of the 11 September attacks. He supported the invasion of Iraq and, during the run-up to the 2008 presidential elections, repeatedly teamed up with writers from groups like the American Enterprise Institute (AEI) to craft hard-line policies toward Iran."

Ganis: Iran far from what US media say	After he left government, Dennis Ross signed on as a Fox News foreign affairs analyst and led a " <a href="#">hawkish pro-Israel</a> " think tank in Washington. As described by the Jewish People Policy Planning Institute (JPPPI), Dennis Ross:
What Obama could do about Israel's intransigence	"served as chairman of JPPPI's board of directors and professional guiding council from its establishment in 2002 until stepping down in early 2009. He served as the U.S. State Department's Director of Policy Planning during the administration of H.W. Bush and as the special Middle East coordinator under President Bill Clinton. Ambassador Ross was director of Near East and South Asian Affairs on the National Security Council staff during the Reagan administration. He is currently special adviser for the Persian Gulf and Southwest Asia to U.S. Secretary of State Hillary Clinton."

Dual nationals should be excluded from gov't, civil service,&  
 lobby.

If little izzy carries out it's "mad dog" threats,  
 it should supply flak vests to all it's supporters world wide.  
 If little izzy is not brought to heel, the end of human life is over.  
 Stand up to these psychopaths, or learn to crawl.

Israel has made the outrageous claim that I am part of an evil  
 satanic conspiracy composed of Christains, Catholics and  
 hoodlums intent on undermining her authority and destroying the  
 world.

While sending my friend to prison for refusing to deploy back to  
 Iraq, Israel has pushed this incredulous conspiracy theory that  
 we are all out to get her & should be smitten by God.

Wow, I can't begin to tell you how much utter lunacy this all  
 sounds. First of all, Christain Zionism is a disease and I am  
 thankfully immune to this disorder since I don't follow it.

Second of all, the shortest surefire way for the guilty to relieve  
 their conscience is to accuse the other side of the very  
 treasonous acts they are doing.

I think that sums up Israel to a tee, Israel, Georgia and the  
 Zionist power grid are worshipers of Satan & have deceived  
 normal Jews and led all of humanity to a very dark hour.

Israel is who wants to wreck the world and bring about some  
 dark times, or else they wouldn't ethnically cleanse all the  
 Palestinians & Iraqis and innocent people.

By the way, Israel in order to achieve world power and usher in the anti-christ did September 11th the terrorist attacks on America.

We all saw it, we know this happened. The Zionist christains who enabled that to take place were brainwashed by lies, and deserve prison instead of the Hague.

This is all the US needs, more Iz firster losers ready to sacrifice US lives and money for the racist pariah rump entity in apartheid occupied Palestine.

What could be more Jewish American!

If you love death, chaos and destruction as much as the jewish slum scum of IZ then go for it.

Remember though that your kids will pay and pay for it.

The world sees what has happened to the US through the all powerful Zio Hollweird poisoning of its "culture" not to mention the greed of the Wall St Meyer Lansky capos that has made the US the global laughing stock.

Attacking Iran would simply be the last straw in a history of US genocide.

Chosen race eh?
