[Just after Israel Sells Secret US Technology Meant for Defense from Iran to China, they ask for extra \\$100 million for Iran Defense and Congress approves an additional \\$235 million](#)

Significant slashes are being proposed for LIHEAP in this fiscal year, which could create a catastrophe for low-income people already struggling to pay their heating bills and balance other critical household expenses. Last year's \$4.7 billion dollar budget is slated for a \$1 billion cut and the House and Senate are currently wrangling over rival funding bills. Meanwhile, constituents cry out for assistance with rising heating costs, concerned about the growing cold temperatures creeping across the United States.
