Wayne Madsen on the Oslo Attacks: Israel's Mossad Did It

"Norway was prepared to vote for Palestinian statehood in the UN General Assembly and this Mossad terrorist attack was symbolic. The negotiations that led to the international agreement on a future Palestinian state are known as the "Oslo Accords." - Investigative journalist and former U.S. Navy Intelligence officer Wayne Madsen.

Also, check out this post at Washington's Blog: Terrorist Bomb Attack in Oslo, Norway ... Who Dunit? An excerpt:

Norway is an odd choice as a Muslim terror target:

- Norway has *endorsed* Palestinian statehood. See [this](#), [this](#) and [this](#)
- Norway has excluded Israeli investments. As Haaertz [reported](#) last year:

Norway's 450 billion euro oil-riches fund has excluded two Israeli firms involved in developing settlements ... on ethical grounds, Norway's finance ministry said on Monday.

- Indeed, Senator Lieberman has accused Norway of promoting *anti-semitism*
- Norway has also announced its plan to *withdraw* from the Libyan war
- The summer camp where the shootings took place [had just concluded a pro-Palestinian rally the day before](#)

This is hardly the profile of a normal Muslim terrorist target. Therefore, many are alleging that it is [another false flag terror attack](#).
