Horrors Of US-NATO Butchery Of Libya Revealed

Exclusive to Rense.com

7-30-11

Note - The following email was received by a colleague of Susan Lindauer and we thank Susan for sending it immediately to us. This document is extremely important to read as it shows the hideous barbarity of the so-called 'civilized' Zionist-controlled United States and its City of London EU Western gangster allies. The bombing of the Libyan water project (the 'Great Manmade River'), the bombing of schools, hospitals and population centers, the blockading of the port at Tripoli to cut off all food and medical supplies, are all designed to starve and kill masses of humanity.

The people of Libya are incredibly intelligent and strong and are committed to withstanding this effort to steal their nation from them. We wish them all possible success. If Libya is allowed to be slaughtered and reduced to Third World rubble like the Zionist-owned United States did to the nations of Iraq and Afghanistan, the Western world - and 'civilization' as we knew it - are essentially gone. Remember Dresden... - ed

Susan: Also enclosed below is a press release on today's bombing by NATO

Finally back on the internet, not at our hotel, had to travel to get on. Thursday and Friday no gasoline thanks to the piracy of NATO.

What they gave me for Jeff Rense is a web link, they say it has photos and a video of what he needs. It is <http://libya-sons.tv/video/> (Ed note - This page is now 404, apparently as a result the outrageous NATO bombing of the Libyan Broadcasting Authority and the murder of three journalist colleagues there.)

These people are now excited hiring some of the biggest lawyers in the world to file (lawsuits) against NATO. The war crimes here are unforgivable.

Last night, NATO bombed the Libyan Broadcasting company killing 3 civilians and injuring 15 others. They don't like any TV here except NATO propaganda. I am attaching

2 more leaflets, NATO dropped these last week. In what alternate Universe does NATO think these people will take any advice from them?

We were at a rally on Thursday where probably 400,000 to 500,000 people rallied behind their country and the Leader of their revolution.

These were some of the poorest people in Tripoli, yet they came with signs and their children dressed in green. They had written on their hands and bodies, we will give our soul for M. Ghadafi, we will all die before we let NATO and the great Colonial crusaders kill our beloved leader. NATO has stepped into a huge pile of shit and I hope that they end up with it all over their face. Ghadafi spoke at this rally over the phone, he said to NATO, "you must negotiate with the people of Libya" NOT ME, it is the people who decide their government and their leader.

I suppose you know about the infighting amongst the rebels? Now they have killed one of their big generals and this has instigated hate amongst them, this is due to the tribal loyalties. They have actually been fighting amongst each other for weeks, they kill each other periodically as they are all thugs.

In England, the British tried to give the Libyan embassy to the rebels! Like England says who owns the Libyan embassy and then the next day the rebels are killing each other. What a joke. The legitimate government of Libya has now sealed that embassy. The UK can KISS any business here in Libya off they are finished as are the FRENCH who periodically by orders of Sarkozy, shut the border between Tunisia and Libya to stop food and medicine and gasoline from coming in. NATO has blocked all the ships from coming into Tripoli so they want to starve these people out. Libya must pay big bribes to get the border open every time.

They are losing and they don't like it, they had better wake up, the US taxpayer will not fund this huge atrocity against humanity. The truth is coming out.

Statement by the Employees of
the Libyan Broadcasting Authority

Sat. 30.07.2011

In an act of international terrorism and in violation of UNSC resolutions, NATO targeted the facilities of the Libyan Broadcasting Authority in the early hours of this morning. 3 of our colleagues were murdered and 15 injured while performing their professional duty as Libyan journalists.

NATO admitted the crime sighting "silencing Gaddafi's propaganda machine" as a justification for such a murderous act.

We are the employees of the official Libyan TV. We are not a military target, we are not commanders in the army and we do not pose threat to civilians. We are performing our job as journalists representing what we wholeheartedly believe is the reality of NATO's aggression and the violence in Libya.

We have the right to work in a safe environment protected by national and international law. The fact that we work for the Libyan government or represent anti-NATO, anti-armed gangs views does not make us a legitimate target for NATO's rockets.

As journalists, we demand that we get full protection from the international community and ask our brothers in the profession from all around the world to stand against such attacks targeting media personnel.

Foreign journalists in Tripoli, Reporters without Borders and human rights organisations: we appeal to you to make your moral and professional stand clear on this issue.

We are hopeful that your media organisations will help us highlight this important issue and come out in support of our just cause.

Thank you.

The Eighth Wonder Of The World
The Great Libyan Manmade River Project

The 'United States' can't even build high speed trains let alone anything close to the scale of the vision of Muammar Gaddafi. This astonishing engineering feat provides pristine water to 70% of the people of Libya is now being systematically destroyed by US-NATO Depleted Uranium bombs.

And the desert blooms....
