Obama is a illegal alien using deceased Thomas Woods social security number. SSN 042-68-4425 was stolen by Obama.

Colorado Springs man's claim to have Obama records starts buzz

Excerpt: "According to the Social Security Administration, that number was never issued," said Hollister, who challenged whether the president is an American citizen in a lawsuit the U.S. Supreme Court refused to hear Jan. 18 without requiring a response from the White House.

However, that's the Social Security number that appears on the Selective Service documents Hollister obtained.

BLN Obama can't show what he doesn't have. Everything he has signed is null and void, as he is not constitutionally the president.

Another look at Obama's Social Security number

Excerpt: This being the case, I asked Daniels to guide me through the data mine field and help me ascertain what we know for sure about the world's best-known Social Security number – 042-68-4425.

"All I can say," says Daniels of 042-68-4425, "is that it's phony and [Obama] has been using it, with it first appearing on his Selective Service document in 1980."

Daniels sent me a copy of the hand-written application of the individual who held the number immediately before Obama's, 042-68-4424. The applicant, Thomas Wood, died at age 19, which is why his information is available.

Wood's Social Security number was issued sometime between March and May of 1977. Obama would turn 16 in August of that year. Wood lived on Glenview Drive in Newington, Conn., the state from which all "042s" applied. Obama lived in Hawaii.

What is a real American?

Real Americans are all colors, all religions, all sexual orientations, and from all political parties. Being a Real American simply means that you are for America first. That you are proudly a capitalist. That you are an individualist and that you hold freedom as put down by our founding fathers to be non-negotiable. You vigorously defend your right to gun ownership. You reserve the right to raise your children as you see fit. The constitution is a cherished document that you want your government to follow not bend to their agenda. You understand that the government works for you and you are happy to remind them of that. That is what a Real American is. ...

The Mystery of Barack Obama Continues

AP declared Obama "Kenyan-Born"

Excerpt: This report explains the context of the oft cited debate, between Obama and Keyes in the following Fall, in which Keyes faulted Obama for not being a "natural born citizen", and in which **Obama, by his quick retort, "So what? I am running for Illinois Senator, not the presidency", self-admitted that he was not eligible for the office.**

BLN Barack Obama is a fraud put into place by powerful people to promote their own agenda. They are anti-American and consider themselves to be world citizens. Hillary Clinton knew this truth but chose not to disclose this fact during the primaries.

What was it that Hillary would not do that made the powers that be switch to problematic Obama? I note that she is ditching political office at the first opportunity and returning to private life. Does that sound like the Hillary we all know?

I always appreciate such insightful, fact-based comments and rebuttals as the one above. Very persuasive. The author must consider himself very smart. Probably a Pentagon troll.

Obama is G.W.Bush III. Bushie was also a liar (9/11, wmd's etc.), not to mention an idiot. Obama is not legitimate, that is most likely true, so ask yourselves, "how is it that I can find this info on Obama, and all of the Republicans and the entire outfit McCain/Palin hired couldn't? Mabye cuz they are in on it? Maybe cuz we don't elect the President, the Bilderbergers and Trilaterals of the world do?

AMERICA RISING! November 2, 2010

A recession is when your neighbor loses his job. A depression is when you lose your job. A recovery is when Obama loses his job.

Hookers, cocaine, and food stamps, oh my!

"The main role of the Federal Reserve is to try to ensure the smooth functioning of the credit system." Well, I think I found the problem. The Federal Reserve focus on credit as opposed to savings, on bank profitability as opposed to country wellbeing shows an organization that has morphed into a special interest drain on America. Its time to end the Federal Reserve!

We do things of great sacrifice not so our names can live past tomorrow but so our dreams may

For the ignorant, all money is created as debt, and most is created by commercial banks, not central banks.

The thought-and-speech police are way way way too busy trying to sterilize all public discourse the point where the only acceptable comment is a blank page.
